Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like."—The Boston Globe "[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall."—Time "[A] brilliant new novel. . . . In Jason, Mitchell creates an evocation yet authentically adolescent voice."—The New York Times Book Review "Alternately nostalgic, funny and heartbreaking."—The Washington Post "Great Britain's Catcher in the Rye—and another triumph for one of the present age's most interesting and accomplished novelists."—Kirkus Reviews (starred review) "This book is so entertainingly strange, so packed with activity, adventures, and diverting banter, that you only realize as the extraordinary novel concludes that

High Crimes-Michael Kudas 2008-02-05 High Crimes is journalist Michael Kudas's gripping account of life on top of the world--where man is every bit as deadly as Mother Nature. In the years following the publication of Into Thin Air, much has changed on Mount Everest. Among all the books documenting the glorious adventures in mountains around the world, none details how the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic, and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils Antezana, a climber who died on Everest after he was abandoned by his guide; as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dijmarescu and his wife and climbing partner, Lhakpa Sherpa. Dijmarescu, who at first seemed well-intentioned and charming, turned increasingly hostile to his own wife, as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut. Beatings, thefts, drugs, prostitution, coercion, threats, and abandonment on the highest slopes of Everest and other mountains have become the rule rather than the exception. Kudas describes many such experiences, and explores the larger issues these stories raise with thriller-like intensity.

Vintage Snowmobilia-Jon Bertolino 2006-11-01 The Golden Age of snowmobile manufacturing went from 1968 to 1976. During this time literally hundreds of snowmobile manufacturers sprang up and then disappeared. Some of these manufacturers were huge blue chip corporations like John Deere. Others were small forgotten companies building sleds in home garages such as the Snow Bug. The collector market for vintage snowmobile items can be easily compared to the interest in vintage motorcycles, farm tractors, gas station items, vintage boats and outboards and similar motorized vehicles. This book covers snowmobile-related items which are now collectible-vintage brand-specific clothing, advertising items, dealer signs, oil containers, snowmobile board games, snowmobile cuff links, and much more. Collectors new and old are trying to determine what an item is worth and if it is collectible. This is the first book to fill that need.

Braxton Bragg-Earl J. Hess 2016-09-02 As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the

general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

It covers the various social dynamics that generate swearing, foul language, and insults in the entire range of the English language. While the emphasis is on American and British English, the different major global varieties, such as Australian, Canadian, South African, and Caribbean English are also covered. A-Z entries cover the full range of swearing and foul language in English, including fascinating details on the history and origins of each term and the social context in which it found expression. Categories include blasphemy, obscenity, profanity, the categorization of women and races, and modal varieties, such as the ritual insults of Renaissance "flyting" and modern "sounding" or "playing the dozens." Entries cover the historical dimension of the language, from Anglo-Saxon heroic oaths and the surprising power of medieval profanity, to the strict censorship of the Renaissance and the vibrant, modern language of the streets. Social factors, such as stereotyping, xenophobia, and the dynamics of ethnic slurs, as well as age and gender differences in swearing are also addressed, along with the major taboo words and the complex and changing nature of religious, sexual, and racial taboos.

Against Expression-Craig Dworkin 2011-01-17 Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language.

Switchbacks-Sid Marty 2001 In Switchbacks, Sid Marty draws on his own memories and those of friends and former colleagues in relating a series of true mountain tales. Among his subjects are: the old guide who built a staircase up a cliff; the stranded snowshoer who was rescued between rounds of beer in a

Banff tavern; the man who catered to hungry grizzlies; an opinionated packrat with a gift for larceny; and a horse named Candy whose heart was as big as a stove. Along the way, Marty tries to answer the kind of questions that all of us must face some day. Do we really have to “grow up” and abandon adventure as well as youthful ideals? Can the mountains draw old friends back together, when politics and life styles have set them apart? Sid Marty writes gracefully of the land he loves and lampoons a few bureaucrats whose policies sometimes threaten its integrity. His portraits of the people - and creatures - that make their lives in the mountains are affectionate and respectful. But, above all, this is a collection of engaging, surprising, funny, and superbly told true stories by a gifted writer.

Friendened at the Front-Lisa Ellen Silvestri 2015-11-06 For most of us, clicking "like" on social media has become fairly routine. For a Marine, clicking "like" from the battlefield lets his social network know he's alive. This is the first time in the history of modern warfare that US troops have direct, instantaneous connection to civilian life back home. Lisa Ellen Silvestri's Friendened at the Front documents the revolutionary change in the way we communicate across fronts. Social media, Silvestri contends, changes what it's like to be at war. Based on in-person interviews and online with the US Marines, Friendened at the Front explores the new media habits, attitudes, and behaviors of troops on the ground in Iraq and Afghanistan, and some of the complications that emerge in their wake. The book pays particular attention to the way US troops use Facebook and YouTube to narrate their experiences to civilian network members, to each other, and, not least of all, to themselves. After she reviews evolving military guidelines for social media engagement, Silvestri explores specific practices amongst active duty Marines such as

posting photos and producing memes. Her interviews, observations, and research reveal how social network sites present both an opportunity to connect with civilians back home, as well as an obligation to do so—one that can become controversial for troops in a war zone. Much like the war on terror itself, the boundaries, expectations, and dangers associated with social media are amorphous and under constant negotiation. *Friendled at the Front* explains how our communication landscape changes what it is like to go to war for individual service members, their loved ones, and for the American public at large.
