Absolutely Positively Not-David LaRochelle 2014-03-25 There is one thing Steven knows for sure: He's absolutely, positively NOT gay. Steven's a 16-year-old boy with two obsessions: sex and getting his driving license. The problem is, Steven's not thinking girls when he's thinking sex. Could he be -- don't say it -- gay? Steven sets out to get in touch with his inner he-man with Healthy Heterosexual Strategies such as "Start Hanging Out with the Guys," and "Begin Intensive Dating." But are Steven's tactics going to straighten him out, or leave him all twisted up? Absolutely hilarious. Positively sidesplitting. But absolutely, positively NOT GAY!

Absolutely, Positively Not-David LaRochelle 2005 Chronicles a teenage boy's humorous attempts to fit in at his Minnesota high school by becoming a macho, girl-loving, "Playboy" pinup-displaying heterosexual.

The Best Pet of All-David LaRochelle 2004-06-03 A little boy's mother won't let him have a dog. Dogs are too messy and too loud. But she says he can have a dragon for a pet - if he can find one. Enter the coolest - but naughtiest - pet ever. The dragon is messier and louder than any dog. And he will not leave. How will the boy ever get a dog now?

Isle of You-David LaRochelle 2020 A deep breath and a little imagination are key in this gentle, beautifully illustrated story that will inspire little ones to lift their own spirits - and remember that they are loved. Some days are harder to get through than others, but when you're sad, or lonely, or angry, it helps to remember these words: the Isle of You. Take a moment to shake off your worries, then set sail to a land where your dreams can come true. Soar on the back of an eagle, hunt for treasure, watch dancing polar bears on roller skates - anything you can imagine is yours. Hopeful and dreamlike, Jaime Kim's paintings illuminate a way for young readers to visualize a brighter, happier mood in this compassionate story by David LaRochelle.

Monster & Son-David LaRochelle 2016-04-12 Romp along with parent and child yetis, werewolves, giant lizards, and more as they stir up some monster-sized fun! Readers big and small, young and old, wild and tame, will roar with laughter and take this book by the horns, teeth, and fur... discovering that monsters and humans aren't so different—especially in the ways they love each other. Plus, this is the fixed-format version, which looks almost identical to the print edition!

See the Cat: Three Stories about a Dog-David LaRochelle 2020-09-08 Move over, Spot. . . . Spoofing classic primers, Max the Dog talks back to the book in a twist that will have fans of funny early readers howling. See Max. Max is not a cat--Max is a dog. But much to Max's dismay, the book keeps instructing readers to "see the cat." How can Max get through to the book that he is a DOG? In a trio of stories for beginning readers, author David LaRochelle introduces the excitable Max, who lets the book know in irresistibly emphatic dialogue that the text is not to his liking. Illustrator Mike Wohnoutka hilariously depicts the pup's reactions to the narrator and to the wacky cast of characters who upend Max's--and readers'--expectations as the three stories build to an immensely satisfying conclusion. Hooray, Max, hooray!

Planet of the Penguins-David LaRochelle 2019-10-08 Lamar and Lexie head off on another math-related adventure to help their friend Fooz! Fooz's planet has been overrun with penguins--and the inhabitants are absolutely terrified of these creatures. To rescue Fooz and his fellow aliens, Lexie and Lamar must solve a series of equations, including reading map coordinates, determining area, interpreting Roman numerals, and understanding percentages. Can they save the day?

How Martha Saved Her Parents from Green Beans-David LaRochelle 2013 A young girl must face her least favorite food when a mean gang of green beans kidnaps her parents.

It's a Tiger!-David LaRochelle 2012-08-01 A child imagines that he is in a story where he encounters a tiger at every turn.

I Was an Outer-Space Chicken-David LaRochelle 2019-02-04 Math meets sci-fi in this brand-new series! When an alien named Fooz abducts Lamar and Lexie, the numbers-loving best friends prove they're human by solving a tricky math problem. But before Fooz can get them home, the two are captured by lumfurs: Bigfoot-like creatures. In order to escape, Lamar and Lexie must use their math skills to find patterns, make estimates, and decipher codes. Will they succeed?

This Is Not a Cat-David LaRochelle 2016-08-02 Welcome to Sunny Hills Mice School where the first lesson is recognizing DANGER! And that means CAT. So Miss Mouse shows her students pictures of things that are, and are not, a kitty. But the kids are a bit restless . . . until something enters the classroom that makes them all sCATter. But, is their unwelcome guest really a cat?

The End-David LaRochelle 2007 When a princess makes some lemonade, she starts a chain of events involving a fire-breathing dragon, one hundred rabbits, a hungry giant, and a handsome knight.

Moo!-David LaRochelle 2013-10-08 Moove over for this wholly unique, totally imaginative one-word picture book

Alex in Wonderland-Simon James Green 2019-06-06 A novel that will have you laughing out loud one minute, and swooning the next! In the town of Newsands, painfully shy Alex is abandoned by his two best friends for the summer. But he unexpectedly lands a part-time job at Wonderland, a run-down amusement arcade on the seafront, where he gets to know the other teen misfits who work there. Alex starts to come out of his shell, and even starts to develop feelings for co-worker Ben ... who, as Alex's bad luck would have it, has a girlfriend. Then as debtors close in on Wonderland and mysterious, threatening notes start to appear, Alex and his new friends take it on themselves to save their declining employer. But, like everything in Wonderland, nothing is quite what it seems...

One Plus One Equals Five-David LaRochelle 2010 A playful approach to addition with wild and wacky illustrations takes children on a joyful mathematical journey that will engage their minds and teach them to think about numbers in creative new ways.

Naomi and Ely's No Kiss List-Rachel Cohn 2007-08-28 Now a motion picture starring Victoria Justice! From the New York Times bestselling authors of NICK & NORAH'S INFINITE PLAYLIST, NAOMI AND ELY'S NO KISS LIST is the quintessential Girl-Likes-Boy-Who-Likes-Boys story. Naomi and Ely are best friends. Inseparable since childhood. Naomi is straight. Ely is gay. Naomi dates guys who she claims to like. They're okay, but she likes Ely more. To protect their feelings, Naomi and Ely created a No Kiss List—a list of people neither of them is allowed to kiss under any circumstances. Naomi's latest boyfriend Bruce isn't on that list. But he probably should have been. Because when Ely kisses Bruce, it breaks Naomi's heart. The result? A rift of universal proportions. Can these best friends come together again, or will this be end of Naomi and Ely: the Institution? Told in alternating voices using an array of emoticons and symbols by co-authors Rachel Cohn and David Levithan, co-author of WILL GRAYSON, WILL GRAYSON with John Green (THE FAULT IN OUR STARS), NAOMI AND ELY'S NO KISS LIST is the ultimate offbeat story about leaving room for every kind of love. From the Hardcover edition.

Millicent Min, Girl Genius (The Millicent Min Trilogy, Book 1)-Lisa Yee 2015-04-28 Millicent Min is having a bad summer. Her fellow high school students hate her for setting the curve. Her fellow 11-year-olds hate her for going to high school. And her mother has arranged for her to tutor Stanford Wong, the poster boy for Chinese geekdom. But then Millie meets Emily. Emily doesn't know Millicent's IQ score. She actually thinks Millie is cool. And if Millie can hide her awards, ignore her grandmother's advice, swear her parents to silence, blackmail Stanford, and keep all her lies straight, she just might make her first friend. What's it going to take? Sheer genius.

When Love Comes to Town-Tom Lennon 2013-03-01 The year is 1990, and in his hometown of Dublin, Ireland, Neil Byrne plays rugby, keeps up with the in-crowd at his school, and is just a regular guy. A guy who's gay. It's a secret he keeps from the wider world as he explores the city at night and struggles to figure out how to reveal his real self—and to whom. First published in Ireland in 1993 and compared to The Catcher in the Rye by critics, Tom Lennon's When Love Comes to Town is told with honesty, humor and originality.

A Christmas Guest-David LaRochelle 1988 A young child and his mother help an old woman seeking a bit of warmth on Christmas Eve, only to find out later that she was a very special guest.

The Ethics of Ambiguity-Simone de Beauvoir 2018-05-08 From the groundbreaking author of The Second Sex comes a radical argument for ethical responsibility and freedom. In this classic introduction to existentialist thought, French philosopher Simone de Beauvoir's The Ethics of Ambiguity simultaneously pays homage to and grapples with her French contemporaries, philosophers Jean-Paul Sartre and Maurice Merleau-Ponty, by arguing that the

freedoms in existentialism carry with them certain ethical responsibilities. De Beauvoir outlines a series of "ways of being" (the adventurer, the passionate person, the lover, the artist, and the intellectual), each of which overcomes the former's deficiencies, and therefore can live up to the responsibilities of freedom. Ultimately, de Beauvoir argues that in order to achieve true freedom, one must battle against the choices and activities of those who suppress it. The Ethics of Ambiguity is the book that launched Simone de Beauvoir's feminist and existential philosophy. It remains a concise yet thorough examination of existence and what it means to be human.

A Gentleman in Moscow-Amor Towles 2016-08-11 "The book moves briskly from one crisp scene to the next, and ultimately casts a spell as captivating as Rules of Civility, a book that inhales you into its seductively Gatsby-esque universe." —Town & Country From the New York Times bestselling author of Rules of Civility—a transporting novel about a man who is ordered to spend the rest of his life inside a luxury hotel With his breakout debut novel, Rules of Civility, Amor Towles established himself as a master of absorbing, sophisticated fiction, bringing late 1930s Manhattan to life with splendid atmosphere and a flawless command of style. Readers and critics were enchanted; as NPR commented, "Towles writes with grace and verve about the mores and manners of a society on the cusp of radical change." A Gentleman in Moscow immerses us in another elegantly drawn era with the story of Count Alexander Rostov. When, in 1922, he is deemed an...

The Big Summer-Jamie B. Laurie 2018-07-27 Will is gay and struggling with it. Belittled, ridiculed, and beaten down by his so-called friends, he is pushed to his breaking point. He must make a change. With his quirky aunt Nellie by his side, Will moves to the sunny town of Seaside City, where he embarks on a journey to reinvent himself, discover first love, and maybe find a little bit of happiness along the way. Hannah is Seaside City's resident extrovert—but behind her façade of confidence, she is riddled with insecurities. When she meets Will, Hannah decides to take him under her wing and become his guide. For a girl who desperately needs to be heard and understood, Will just may be exactly the friend she needs. Daniel is Hannah's gorgeous twin brother—the perfect combination of funny, charming, and intelligent. Even though he should be off limits, Will cannot help but fall for him. But will a devious girlfriend and the confusion of sexual identity come between them? The Big Summer is a witty and touching tale that explores the ups and downs of first love, the struggles of self-acceptance, the value of friendship, and the true meaning of happiness.

Fine Books-Alfred William Pollard 1912

Deep Learning-Ian Goodfellow 2016-11-10 An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives. "Written by three experts in the field, Deep Learning is the only comprehensive book on the subject." —Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

The Compound-S. A. Bodeen 2008-04-29 Eli and his family have lived in the Compound for six years. The world they knew is gone. Eli's father built the Compound to keep them safe. Now, they can't get out. He won't let them. The Compound is a 2009 Bank Street - Best Children's Book of the Year.

Autonomous Driving-Markus Maurer 2016-05-21 This book takes a look at fully automated, autonomous vehicles and discusses many open questions: How can autonomous vehicles be integrated into the current transportation system with diverse users and human drivers? Where do automated vehicles fall under current legal frameworks? What risks are associated with automation and how will society respond to these risks? How will the marketplace react to automated vehicles and what changes may be necessary for companies? Experts from Germany and the United States define key societal, engineering, and mobility issues related to the automation of vehicles. They discuss the decisions programmers of automated vehicles must make to enable vehicles to perceive their environment, interact with other road users, and choose actions that may have ethical consequences. The authors further identify expectations and concerns that will form the basis for individual and societal acceptance of autonomous driving. While the safety benefits of such vehicles are tremendous, the authors demonstrate that these benefits will only be achieved if vehicles have an appropriate safety concept at the heart of their design. Realizing the potential of automated vehicles to reorganize traffic and transform mobility of people and goods requires similar care in the design of vehicles and networks. By covering all of these topics, the book aims to provide a current, comprehensive, and scientifically sound treatment of the emerging field of "autonomous driving".

Judgements on History and Historians-Jacob Burckhardt 2012-09-10 Western Civilization was in its pomp when Jacob Burckhardt delivered his Judgements on History and Historians; European Empires spanned the globe, while the modern age was being forged in the nationalist revolutions of 1848. As a tutor to the young Friedrich Nietzsche as well as one of the first historians to take 'culture' as his subject rather than the triumphs and travails of kings and generals, Burckhardt was at the vanguard of this modern sensibility. Ambitious in its scope, ranging from the days of Ancient Egypt, through the Reformation to the time of Napoleon, this is indeed a history of 'Western Civilization', written before two monstrous world wars threw such a concept into disrepute.

November Blues-Sharon M. Draper 2009-05-19 A teenaged boy's death in a hazing accident has lasting effects on his pregnant girlfriend and his guilt-ridden cousin, who gives up a promising music career to play football during his senior year in high school. A Coretta Scott King Honor Book. Reprint.

The Comic History of England-Gilbert Abbott À Beckett 1847

A Boy Worth Knowing-Jennifer Cosgrove 2017-03-14 Ghosts can't seem to keep their opinions to themselves. Seventeen-year-old Nate Shaw should know; he's been talking to them since he was twelve. But they aren't the only ones making his high school years a living hell. All Nate wants is to keep his secret and keep his head down until he can graduate. That is, until the new boy, James Powell, takes a seat next to him in homeroom. James not only notices him, he manages to work his way into Nate's life. But James has issues of his own. Between dead grandmothers and living aunts, Nate has to navigate the fact that he's falling in love with his only friend, all while getting advice from the most unusual places. Ghosts, bullies, first love: it's a lot to deal with when you're just trying to survive senior year.

Pouvoirs de L'horreur (English)-Julia Kristeva 1982 Powers of Horror is an excellent introduction to an aspect of contemporary French literature which has been allowed to become somewhat neglected in the current emphasis on para-philosophical modes of discourse."

Pneumoviruses and Metapneumoviruses-Helene F. Rosenberg 2018-10-09 This book is a printed edition of the Special Issue "Pneumoviruses and Metapneumoviruses" that was published in Viruses

Ernie O'Malley-Richard English 1998 Ernie O'Malley was a leader in the 1916-1923 Revolution in Ireland, and a contemporary of Michael Collins and Eamon de Valera. This biography draws heavily on previously unseen archival material, and should be of interest to those studying modern Irish politics and the history of the IRA.

Dear Fish-Chris Gall 2008-12-21 What happens when the creatures of the sea take Peter Alan up on his offer? Something fishy, of course! At first, their visit is all fun and games, but then, things really start to get out of hand? Watch out for a bucking bull shark at the rodeo, the invasion of a slimy school of fish, and many other playful pictorial puns hidden in these striking, surrealistic illustrations. An endpaper identifying over 30 species of fish appearing in the book is an educational bonus. Here is a fantastic flight of fancy that every child will savor, with a subtle message: Be careful what you wish for!

Beyond the Burning Time-Kathryn Lasky 1996 When, in the winter of 1691, accusations of witchcraft surface in her small New England village, twelve-year-old Mary Chase fights to save her mother from execution.

The Mismeasure of Desire-David E. Stannard 1993-11-18 For four hundred years—from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s—the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of

95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, *American Holocaust* is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

*The Philosophical Dictionary*-Voltaire 1766

*The Ivory Gate*-Walter Besant 1892

*Arthur Young's Travels in France*-Arthur Young 1905

*Leibniz and Confucianism*-D. E. Mungello 2019-09-30 In the closing years of the seventeenth century, one of the most brilliant of modern European philosophers became actively involved in the search for intellectual and spiritual accord between Europe and China. In his search, Gottfried Wilhelm Leibniz entered the "Rites Controversy" on the side of the Jesuits, who had achieved positions of remarkable proximity to the Chinese throne. Yet less than forty years later, the optimism of their cause had dimmed. Leibniz died in isolation in Hanover, the papacy ruled against the Jesuits at Rome, and in China there was a growing distrust of the Christian missionaries by the monarchy. In contrast to past neglect of this subject as an intriguing but peripheral area of Leibniz' philosophy, *Leibniz and Confucianism: The Search for Accord* elevates Leibniz' interest in China to a more central concern of Leibnizianism. Leibniz was deeply committed to an ecumenism that included not only the reunion of Roman and Protestant Christendom, but an ecumenism with which the spiritual and intellectual beliefs and practices of non-Westerners, especially the Chinese, could be reconciled. As an investigation into how that commitment was pursued and into some of the reasons why it failed, this book seeks to present Leibniz' experience as both a historical record and a contemporary guide. Drawing upon unpublished material in the Leibniz archives in Hanover, Mungello traces the influences upon Leibniz through the Jesuit translators to the Chinese sources. In the process, we have the opportunity to observe the first historical instance of a major Western philosopher interpreting and reacting to Chinese (largely Neo-Confucian) philosophic notions and concepts. The author concludes by explaining how he believes Leibniz' search for accord can assist our own contemporary search for accord.
