Beverly Hills Browning-Peter Corris 1987 'I felt lucky. I was heading for the U.S.A., Hollywood and a million dollars. "Deal the cards, Jess," I said.' But not all the cards dealt to Browning turn up trumps. And Richard Browning has a marvelous talent for mucking up even lucky breaks. In fact, he's only really good at one thing; that is, getting away. Sure the would-be Aussie movie star makes it to the U. S. of A., but San Francisco proves to be a long way from the starlets, palm trees and swimming pools of Hollywood, at least by the route only he could choose, through Mexico. And then, when he gets to Beverly Hills, he finds bootleggers in the swimming pools, anarchists on the movie sets and starlets just too hot to handle. Not to mention making an enemy of the 'king' of Hollywood, Douglas Fairbanks - the 'city of dreams' becomes nightmare land. 'Beverly Hills' Browning is the second volume of Richard Browning's memoirs, transcribed from the tapes found among his papers and edited by Peter Corris.

The Pilot's Primer for Medications-Larry Diamond 2014-06-30 Forward By Rod Machado CFII - Anyone who has earned a pilot certificate is intimately familiar with the cost of that endeavor. You invest your time and money-large blocks of daylight hours spread out over many months and literally thousands of dollars-to earn the privilege of taking a flying machine into the air. Your watch and wallet, however, say nothing about the blood, sweat, and tears involved in this enterprise. You had to overcome frustration, confusion, and self-doubt as you learned to move a piston-powered conveyance safely from one airport to the next. Congratulations to you Yours is a magnificent accomplishment. Now hear this. Everything that you earned and learned can be taken away from you instantly by putting the wrong little pill in your mouth. That's right. Take an unapproved medication (one that's not sanctioned by the FAA), and your friendly aviation medical examiner (AME) suddenly becomes the repo man. As a representative of the FAA, the good doctor is obliged to repossess (so to speak) your medical certification to act as pilot in command because you no longer meet the FAA's standards. Sure, you might eventually reclaim your medical certificate, but not without further investment of your time and money. There may be a pain pill big enough to assuage the headache this causes, but there's no way to swallow it. In an ideal world, this wouldn't matter much. Your AME would tell you to go back to your physician, have him or her prescribe a drug that's approved by the FAA, then return to pick up your medical certificate. No muss, no fuss, no extensive and expensive FAA involvement. Unfortunately, the only place on earth where this commonsense approach could happen is in Fantasyland at the Disneyland theme park. Ultimately, you are responsible for knowing what medications or medical procedures are acceptable to the FAA for the maladies that affect you. Until now, it was a megaorder challenge to identify these medications. Here is where fortune smiles on you. My friend, Dr. Larry Diamond's new book, The Pilot's Primer for Prescription Medications, is the resource that should be in every pilot's library, if not flight bag. Dr. Diamond's book is the pilot's practical resource for prescription medication. It's easy to navigate, easy to read, and easy to use. It's your initial source for identifying the medications that the FAA considers acceptable at this point in time. So prepare for your next medical examination by reading Dr. Diamond's book now, not later. Make sure the medications you're taking (if any) or are planning on taking are on the FAA's approved list. If not, do something about it before your AME does. Following the advice put forth in this valuable book will keep you from being unpleasantly surprised during your next visit to the AME. Take it from me-Dr. Larry Diamond knows what he is talking about. He's a master of medical molecules whose informative new book will keep you airworthy for many years to come.

Asylum-Miranda Nading 2017-12-12 What doesn't kill you makes you stronger. After setting the world on fire to bring down C.O.R.E in Tallahassee, Max carries Eve up the Mississippi River to give her time to recover. A run in with a small group of deserters pushes Eve past the breaking point. Caught between helping Eve and dealing with the child she saved, Max is forced to decide once and for all what he really wants. Mittie Kate's small group of survivors race toward Alabama to stop C.O.R.E. from getting their hands on the Titan II missiles. If they fail, their last chance to stop them will be at the launch silos in central Arkansas. Out of options, Mittie Kate and Ling prepare to make their final stand. Melanie puts everything on the line to stop the SHOcom platforms from launching. When an attack is launched from the planet's surface, they are forced to take Victory, an unarmed research vessel, into battle. No matter the costs, they cannot allow the payload hiding on the International Space Station to fall into enemy hands.

Just What the Doctor Ordered-Christine Fader 2018-09-24 Take the inside track to medical school with expert advice from a specialist. Getting into medical school in Canada isn't easy—you need to stand out among a field of highly motivated and accomplished applicants. In fact, most applicants aren't successful the first time they apply. Christine Fader was an application reviewer and interviewer at a Canadian medical school for eight years and has worked as a career counsellor at Queen's University and in private practice for 20 years. After helping thousands of students through the medical-school application and interview process, she has a wealth of insight about what helps to elevate an applicant's chances and what doesn't. In Just What the Doctor Ordered, she shares her secrets, including: - Starting to prepare for future medical school applications while still in high school can set you up for success—and needn't be stressful. - Good grades aren't enough! Learn what experience you need—and how to describe it—to gain an edge. - Take a smart approach to the MCAT and CASPer by knowing the keys to preparation. - Make your application shine with examples and tips on the essay and short-answer sections. - Ace your interview with strategies to help you prepare for the types of questions interviewers ask. Learn from stories about other applicants, just like you! Whether you're a high school student laying the groundwork for a career in medicine or a university student working on med school applications now, Christine shows you how to maximize your chances of getting accepted to a Canadian medical school. Includes help for parents, too!
