The Puffin Mahabharata-Namita Gokhale 2013-01-21 'A long, long time ago, in the ancient lands of India, known in those days as Bharatvarsha, a family quarrel grew into a bloody war. There had been wars before, and there have been wars since, but that mighty battle between warring cousins of the Kuru clan has become a part of the mythology and history of India. Told and retold a million times, the story of the Mahabharata is about defeat as much as victory, about humility as much as courage. It is the greatest story ever told.' Like a modern-day suta or storyteller, Namita Gokhale brings alive India's richest literary treasure with disarming ease and simplicity. She retells this timeless tale of mortals and immortals and stories within stories, of valour, deceit, glory and despair, for today's young reader in a clear, contemporary style. A brilliant series of evocative and thoughtful illustrations by painter and animator Suddhasattwa Basu brings the epic to life in a vibrant visual feast. Matchless in its content and presentation, The Puffin Mahabharata is a book that will be cherished by readers of all ages.

Beyond the Influence-Katherine Ketcham 2009-10-21 "This invaluable work will contribute much to the battle against our number one disease."—from the Foreword by George McGovern, former senator and author of Terry: My Daughter's Life-and-Death Struggle with Alcoholism Alcoholism is a disease. It's time we started treating it like one. Science has offered undisputed proof that alcoholism is a disease rather than a weakness of character, yet millions of alcoholics continue to suffer due to inappropriate treatment. Now the co-author of the modern classic Under the Influence has teamed up with prominent alcoholism experts to provide new answers to this national epidemic. Based on the latest scientific research, Beyond the Influence clearly explains the neurological nature of the disease and reveals why some people drink addictively and others do not. It also spells out what needs to be done to treat alcoholism, including: Steps to take for an intervention How to find the right treatment program Which psychological approaches work best Why spirituality is essential to recovery New insights into relapse prevention What you should know about diet, exercise, and nontraditional treatments such as acupuncture Provocative and eye-opening, compelling and compassionate, Beyond the Influence is not only a message of hope for alcoholics—it is a blueprint for saving lives. Beyond the Influence explains that alcoholism is a disease of the body, not a weakness of character. Drawing on the latest scientific studies, the authors present new research on the central role of genetics and neurotransmitters in addiction. Continuing where the prior book left off, it also includes: Steps for diagnosis and intervention, plus ways to prevent relapses Various treatment models, including inpatient and out-patient programs and a review of new drug treatments The most effective types of psychological counseling The critical role of nutrition Non-traditional healing methods for recovery The importance of a spiritual component to recovery The authors also critique our nation's alcoholism policies, including education and prevention programs, efforts to curtail college bingeing and underage drinking, and the advertising and marketing strategies of the alcohol industry.

At the Origin of the Christian Claim-Luigi Giussani 1998-05-02 Giussani argues that if we accept the hypothesis that the mystery entered the realm of human existence and spoke in human terms, the relationship between the individual and God is no longer based on a moral, imaginative, or aesthetic human effort but instead on coming upon an event in one's life. Thus the religious method is overturned by Christ: in Christianity it is no longer the person who seeks to know the mystery but the mystery that makes himself known by entering history. At the Origin of the Christian Claim presents an intriguing argument supported with ample documentation from the gospels and other theological writings.
