Bookcraft-Heather Weston 2008-09-01 Binding, folding, and decorating techniques to create beautiful artists' books and more From heirloom memories to unique journals, albums, and altered books—or simple tag books for your kids—Bookcraft contains all the skills you will ever need. Books are a central part of life, and have been with us for around 2,000 years. Although most books we use are produced commercially, many of us are drawn to the book form in its various guises, and are interested in exploring how to make books of our own, whether as a vehicle for telling stories, as scrapbooks, or as notebooks and journals. This guide provides the essential ingredients for designing and making your own books, from simple binding and finishing techniques to complex complete products. Projects are designed to suit a variety of skill levels from beginner to advanced, and use a step-by-step approach to learning the necessary skills. Each project begins with basic techniques and progresses through to thought-provoking applications of those techniques. Each technique includes an example of a finished book that fully and beautifully utilizes the methods described by the techniques. This book explores more experimental binding and page treatment techniques, and has a comprehensive gallery of ideas outlining the skills and materials needed to apply techniques often reserved for professionals.

Flip Read-Heather Weston 2005 "This book explores the experience of lip reading ... to challenge the hearing person's perceptions and assumptions about how we construct our verbal and visual world and how we make sense of the information available to us ... The statement on the verso alludes to the idea that articulating words (in essence, turning the page more slowly) can aid in understanding (akin to a normal strategy of talking more loudly to a deaf person). The statement of the speaker is not revealed within the book, leaving a doubt in the reader's mind over whether they have understood as much as can be understood, reflecting the inexact science of lip reading."--Bookseller's Website.

Statistical Data Analysis-Glen Cowan 1998 This book is a guide to the practical application of statistics in data analysis as typically encountered in the physical sciences. It is primarily addressed at students and professionals who need to draw quantitative conclusions from experimental data. Although most of the examples are taken from particle physics, the material is presented in a sufficiently general way as to be useful to people from most branches of the physical sciences. The first part of the book describes the basic tools of data analysis: concepts of probability and random variables, Monte Carlo techniques, statistical tests, and methods of parameter estimation. The last three chapters are somewhat more specialized than those preceding, covering interval estimation, characteristic functions, and the problem of correcting distributions for the effects of measurement errors (unfolding).

Bound-Erica Ekrem 2015-01-06 "Bound offers approximately 25-30 bookbinding projects showcasing beautiful exposed bindings. Classified in chapters entitled Vintage, Nature, and Leather, projects include a mason jar book, a seashell book, and a classic-looking leather-bound photo album, to name a few. Beginners will find plenty of entry-level projects to enjoy, while more experienced book artists will learn new ways to do old binding techniques. The Basics section and each project are illustrated with gorgeous, bright beauty shots and whimsical-but-clear illustrations. Ms. Ekrem uses her way with words and her talented hand at book arts to take readers on a little stroll into their own imagination (or their memory) with each creation"--

Adventures in Bookbinding-Jeannine Stein 2011-06-01 Each project in this book combines bookbinding with a specific craft such as quilting, jewelry making, or polymer clay, and offer levels of expertise: basic, novice, and expert. Illustrated step-by-step instructions and photographs demonstrate how to construct the cover pages, and a unique binding technique, easy enough for a beginner to master. Each project also features two other versions with the same binding geared to those with more or less experience. The novice version is for those who have no knowledge of the craft and want shortcuts, but love the look. For the quilter's book, for example, vintage quilt pieces become the covers so all that's needing in the binding. Or if you're interested in wool felting use an old sweater. This offers great opportunities for upcycling. The expert version is for those who have a great deal of knowledge and proficiency of a certain craft - the master art quilter, for example. For this version, an expert guest artist has created the cover and the author has created the binding. This offers yet another creative opportunity - the collaborative project. Since crafters often get involved with round-robins and other shared endeavors, this will show them yet another way to combine their skills. No other craft book offers the possibilities and challenges that Adventures in Bookbinding does. Readers will return to it again and again to find inspiration and ideas.

Paper Made!-Kayte Terry 2016-03-08 Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house—magazines and shopping bags, candy wrappers and paint sample cards, wrapping paper, old maps, and paper towel tubes—into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. An inveterate crafter who creates projects and styles photo shoots for magazines like Parents and Vogue Knitting, Kayte Terry takes the most versatile of materials and the most basic of crafts (remember snipping valentines out of construction paper?), and creates something completely transformative. Turn a sheaf of any white or graph paper into an amazing Scrap Happy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffle tickets into a Prizewinning Bowl, that out-dated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by quilling—a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.
