Cases and Materials on Appellate Practice and Procedure-Robert J. Martineau 2005 An in-depth look at the nature and function of appellate courts, including general rule, litigation, exceptions, sua sponte, final judgment rule, state systems, initiating and perfecting an appeal, timeliness, standards of relief, purpose, content, modification or correction of record on appeal, effective brief writing, oral argument, internal operating procedures, time limitations, pre-hearing or summary disposition, opinions and mandates, written opinion, publication, and citation of opinions.

Criminal Appellate Procedure-James A. Strazzella 2011 This casebook fills a niche for in-depth teaching materials on appellate procedure in federal and state criminal cases. It uses edited opinions together with constitutional provisions and statutes to provide a substantial platform for enhancing case-reading skills and analytical ability while exploring basic appellate procedure doctrine. Notes and questions tie appeals to trial processes and offer broadened historical, comparative, and terminology insights. It covers purposes of appeal, limitations and conditions on appeal rights (e.g., plea limitations, final decision, harmless error, forfeiture principles, standards of review, and abatement), and the ancillary rights afforded defendants (e.g., the right to counsel, transcripts, bail). There is an in-depth chapter on prosecution appeals and double jeopardy which provides particular insights into the relation of appellate procedure to trial court procedure. This book may be used in an advanced capstone elective course focusing on doctrine; or, it can be used for a basic course for beginning law students to build more basic skills.

Principles of Appellate Advocacy-Daniel P. Selmi 2014-10-30 Written by acclaimed appellate lawyer and professor Daniel Selm Principles of Appellate Advocacy concentrates exclusively on a few rules and principles that are essential to writing clear appellate briefs and oral arguments. Designed for students preparing their first appellate arguments, as well as those who struggle with the writing process, this concise, student-friendly text helps students identify core principles at issue, frame their arguments from an appellate judge's perspective, and write clear, compelling briefs and oral arguments. Features: Written by a highly experienced appellate lawyer who has briefed more than 35 appellate cases involving environmental and land use law, and argued over 20 of those in the appellate courts, including three in the California Supreme Court. Focuses on the core skills in appellate advocacy: brief writing and oral argument. Concise treatment that focuses on a few essential rules, allowing students to focus on core principles. Teaches students how to derive, rather than just state, essential principles . Emphasis is on helping students learn to identify the issue that must be resolved before developing a written or oral argument that responds to that issue. "Thinking like a judge" is a unifying theme--students are consistently challenged to put themselves in the appellate judge's shoes throughout the text. Separates the writing process from the analytic process, guiding students through the dual process of writing a brief while confronting difficult questions about the substance of the law by first creating an outline and then going on to the actual writing. Includes a DVD featuring real judges presenting do's and don'ts for appellate argument.

Criminal Law: Cases and Materials-Arnold H. Loewy 2009-09-17 This book differs from many other casebooks in two significant ways. First, the cases are included and edited with an eye towards the number of class hours available to

teach the course. The chapters are constructed so that the content can be covered in similar blocks of time. For example, one class session covers infancy, intoxication, duress, necessity, and entrapment and two class sessions are devoted to coverage of insanity. The book can be substantially completed in a three-hour course and easily completed in a four-hour course. The other feature of this book is that it is designed to focus students' attention on the problem at hand as illustrated by the case they are studying. Before each case, the student is told why the case has been included and what they should be considering when reading the case. The notes and questions that follow each case are designed to focus the students' attention on some of the more difficult issues raised by the case. This eBook features links to Lexis Advance for further legal research options.

Military Justice: Cases and Materials-Eugene R. Fidell 2012-02-17 Military Justice: Cases and Materials gives teachers a new and powerful tool to introduce students to military law while deepening their understanding of criminal law and procedure, comparative law, international law, and constitutional law. At a time when the tempo of military operations around the world seems to increase constantly and high-profile courts-martial dominate the headlines, this book gives students and teachers unprecedented the tools needed to analyze, understand, and evaluate worldwide military justice. With prosecutions arising from prisoner abuse, atrocities against civilians, and servicemembers' opposition to ongoing wars, the military justice system now has a prominence unmatched since the Vietnam era. This higher profile for courts-martial, combined with the difficult and fundamental legal issues raised by the military commissions, suggests that military courses will now be in great demand. This casebook provides the text for such a course. Its coverage of the U.S. court-martial and other systems of military criminal law provides a framework through which students can explore the role and operation of military justice within a democratic society. In an era of worldwide deployments, multi-national operations, and global terrorism, this book illuminates the interconnectedness of military justice systems through a far-ranging collection of judicial opinions, statutes, regulations, commentaries, and scholarship. While the materials presented draw heavily from the United States, most chapters also present materials from other jurisdictions to enhance students' appreciation of both the unique American experience and the availability of alternative approaches to military discipline, accountability, and punishment. International norms are also examined. Part I, Foundations, sets the stage by exploring the origins and purposes of military justice, pointing out the many sources of law that govern this area, analyzing the unique and critical role of the commander in military justice, and assessing professional responsibility rules for military lawyers. Part II, Principles, steps further into legal analysis to study the jurisdiction of military courts, identify crimes and defenses that apply only in a military context, and analyze the extent to which the obligations of military service alter the protection of fundamental rights. Part III, Trials, brings students into the court-martial to meet military judges, juries, and counsel and to study the rules of procedure, evidence, sentencing, and appeal. Part IV, Special Contexts, takes a broader approach to assess the challenges that a military justice system faces during combat and peacekeeping operations. This part also looks at the topic of military commissions. Part V, The Future, gives students a glimpse into the changes that lie ahead by focusing on the processes of legal reform and globalization.

Modern Military Justice, Cases and Materials-Gregory Maggs 2015-05-22 This textbook comprehensively covers the modern military justice system under the Uniform Code of Military Justice. The materials included come from every service within the Armed Forces, and show how the military justice system addresses all criminal offenses, ranging from minor infractions to serious offenses such as the misconduct of soldiers at Abu Ghraib prison. The text covers the jurisdiction of courts-martial; sources of military law; military offenses and defenses; pre-trial, trial, and appellate procedures; the role of judge advocates; non-judicial punishment and other alternatives to courts-martial; special forums such as boards of inquiry and military commissions for trying enemy belligerents; the relationship of courts-martial to state and federal courts; and much more. All chapters include policy questions about currently controversial issues. The text is appropriate for all students, whether or not they have had prior military experience. The Second Edition includes five new cases and addresses new legislation concerning special victims counsel; preliminary hearings; the role of commanders in referring and reviewing charges; mandatory minimum sentences for conviction of certain sex offenses; the offense of sodomy; and the good soldier defense.

Effective Appellate Advocacy-Carole C. Berry 2009 Text is designed to be helpful particularly to lawyers inexperienced in appellate advocacy. The analysis begins with an overview of appellate procedure and then examines the concept of persuasion. Explores the constructs of solid brief writing and oral argument, and provides exercises in preparing a persuasive document as well as an effective and convincing oral argument. Coverage includes: the decision to appeal, technicalities of the appeal, a primer on persuasion, preparation and writing the opening brief, appellee and reply briefs, preliminary considerations before argument, preparation for and presentation of the oral argument, post-argument memoranda, and briefs and petitions for rehearing.

Constitutional Law: Principles and Policy, Cases and Materials-Jerome A. Barron 2012-05-29 The authors of this casebook are committed to reflect fully the dynamism, controversy, and excitement that characterize contemporary Constitutional Law. While generally striving for brevity, the authors lightly edit cases where the Court appears to be embarking on a new doctrinal course so that sharply different constitutional philosophies are fully and fairly presented. Features of the new Eighth Edition include: • *Hamdan v. Rumsfeld* -- the legality of the use of military commissions by the Executive Branch. • *Boumediene v. Bush* -- alien enemy combatants detained at Guantanamo and "the constitutional privilege of habeas corpus." • *District of Columbia v. Heller* and *McDonald v. City of Chicago* -- the personal right to keep and bear arms vis-a-vis federal and state governments. • *Gonzales v. Carhart* -- limiting the abortion right. • *United Haulers Association, Inc. v. Oneida-Herkimer Solid Waste Management Authority* -- state regulation of solid waste and the dormant Commerce Clause • *Parents Involved in Community Schools v. Seattle School District No. 1* -- affirmative action in the public schools. In the area of free expression, among the many cases featured are: • *Holder v. Humanitarian Law Project* -- national security v. political advocacy. • *Snyder v. Phelps* -- offensive speech and funeral picketing. • *Morse v. Frederick* -- student speech in the high schools. • *Garcetti v. Ceballos* -- free expression rights of government employees. • *United States v. Stevens* -- animal cruelty and the limits of freedom of expression. • *Brown v. Entertainment Merchants Association* -- protecting children from violent video games. • *Citizens United v. Federal Elections Commission* -- unleashing campaign spending by corporations and unions. The new 8th edition includes some of the latest law review literature as well as the leading constitutional cases covered in the previous edition. Constitutional Law: Principles and Policies is updated annually with a supplement addressing recent developments in the area of Constitutional Law.
