Chevrolet, Yesterday & Today- 2010 Chevrolet Camaro. Pontiac GTO. Dodge Charger. Ford Mustang. Muscle Cars: Kings of the Street from the Golden Era tells the story of these automobiles and dozens more, with insightful descriptions from the auto editors of Consumer Guide and full-color photographs on every page. More than 90 cars are profiled, including their mechanical and design highlights and their place in the muscle car pecking order. Exclusive specifications charts detail each car's vital statistics--how much it cost, how many were built, how fast it went and many more details. The focus is not on highly modified, professionally raced versions of these iconic machines; instead the focus is on prime examples of the cars you or your dads drove during this exciting decade. You learn about: ? Genuine muscle cars like the many Dodge Charger versions issued during the 1960s and early 1970s--a true classic.? Car luxury makers' attempts at muscle car stardom, like the 1967 Oldsmobile Cutlass 4-4-2 W-30 and the 1969 Buick GS 400.? The icons, like the Pontiac GTO, Chevrolet Camaro, Chevrolet Nova, Chevrolet Chevelle, and Dodge Challenger T/A.? The 1964 Pontiac Tempest GTO--what some consider the quintessential muscle car.It's all here, in the best muscle-car read you'll find anywhere: Muscle Cars: Kings of the Street from the Golden Era. Preserving New York-Anthony Wood 2013-10-28 Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

Supercharged!-Corky Bell 2001 Superchargers have become one of the most popular performance bolt-on products for all engine sizes--from the diminutive, but powerful, Honda and other import four cylinder engines, to Porsche and BMW engines, and Detroit's V6s and V8s. However, bolting a system on that works to the enthusiast's expectations and at the same time is reliable has been a "mystic art." No longer! As with turbochargers, Corky Bell provides clear and comprehensive information on how to select, size, and install a complete supercharger system that is both successful and reliable. This comprehensive book with numerous illustrations deals with all aspects of the supercharger system from the initial planning stages--what performance do I want from my vehicle? to how do I go about the installation? Corky begins at the beginning devoting chapters to the three basic types of superchargers, giving the reader a grounding in the pluses and minuses of the Roots type, centrifugal, and screw-type superchargers. From there he moves onto to the other elements of a super-charger system, devoting a chapter each to: intercooling, electronic fuel injection, secondary components, and drive mechanisms. There are also chapters devoted to engine preparation, mounting the supercharger, and testing procedures. Each chapter is complete with accurate information, such as formulas for calculating necessary elements of the system.

Howling at the Moon-Walter Yetnikoff 2004-03-02 Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Racing to the Finish-Dale Earnhardt Jr. 2018-10-16 "My book ... details the living hell that was my experience with concussions. The majority of this story was kept from even my closest relationships. It wasn't easy, but it's time to tell it." - Dale Jr. It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes—no two are the same. And recovery can be brutal—and lengthy. As a third-generation driver in a family forever connected to the sport of stock-car racing, how could Dale Earnhardt Jr. sit on the sidelines and watch everyone else take their laps? It was one of the toughest seasons of his life—one that changed him forever. In this gripping narrative from one of professional sports' most beloved figures, Dale Jr. shares stories from his journey: how his career and his injury have transformed him, how he made the decision to retire at the end of the 2017 season after eighteen years behind the wheel, and what lies ahead for him in the next chapter of his life. There's no second-guessing and no regrets from Driver #88. He simply wants to go out on his own terms and make the rest of his life off the racetrack count. Junior says, "I don't want these last races to be just about me but rather the people who made my success possible: my fans, the folks who pack the grandstands rain or shine, my teammates and crew members through the years, industry colleagues, track volunteers, friends, family, sponsors. They've all played a role. I couldn't have done it without them."

"Kelly" Flory, Jr. 2009-12-11 From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the "Forward Look" Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company's models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.
