New Kids On The Block: An Exploration into 'The New Chinese' collectors as Producers of Meaning in Chinese contemporary art- Patrizia Koenig 2013-01-22 Seminar paper from the year 2012 in the subject Art - Extra-European art, grade: A+, University of California, Los Angeles, course: Contemporary Chinese Art Seminar, language: English, abstract: This term paper explores the increasing presence of Chinese collectors of contemporary Chinese art. It is driven by the idea that collectors 'produce' or cultivate meaning in the larger canon of art history. Based on Belk's analysis of collecting as a consumption activity (1991), the motivations of these collectors and the resulting implications for contemporary art are investigated. The development of patronage and art appreciation throughout China's tumultuous past, and the current barren cultural landscape have given rise to a collector who differs greatly to the traditional model. At the same time, it is hypothesized that there exists a more deeper-lying uniquely Chinese altruism next to the amalgam of social refinement, identity, nationalistic and financial motives. On the basis of this, is suggested that whereas the current nature of collecting contemporary art in China does not yet demonstrate the high level of critical thinking and sophistication that would be beneficial for the development of the contemporary art scene, there nevertheless lies potential for a more healthy development in the years to come.

**Childhood's End**-Arthur C. Clarke 2012-11-30 In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind's largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. “Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master.” —Los Angeles Times

They collect the colour that the bags will be bright yellows and pinks, from special plants and berries. It is a hard day's work for Rose, but the results are worth it. Collecting Colour, featuring stunning collage illustrations on Nepalese paper, is a feast for the senses and is also a fascinating insight into the way

Collecting: An Unruly Passion-Werner Muensterberger 2014-07-14 From rare books, valuable sculpture and paintings, the relics of saints, and porcelain and other precious items, through stamps, textiles, military ribbons, and shells, to baseball cards, teddy bears, and mugs, an amazing variety of objects have engaged and even obsessed collectors through the ages. With this captivating book the psychoanalyst Werner Muensterberger provides the first extensive psychological examination of the emotional sources of the never-ending longing for yet another collectible. Muensterberger's roster of driven acquisition-hunters includes the dedicated, the serious, and the infatuated, whose chronic restlessness can be curbed--and then merely temporarily--only by purchasing, discovering, receiving, or even stealing a new "find." In an easy, conversational style, the author discusses the eccentricities of heads of state, literary figures, artists, and psychoanalytic patients, all possessed by a need for magic relief from despair and helplessness--and for the self-healing implied in the phrase "I can't live without it!" The sketches here are diverse indeed: Walter Benjamin, Mario Praz, Catherine the Great, Poggio Bracciolini, Brunelleschi, and Jean de Berry, among others.

The central part of the work explores in detail the personal circumstances and life history of three individuals: a contemporary collector, Martin G; the celebrated British book and manuscript collector Sir Thomas Phillipps, who wanted one copy of every book in the world; and the great French novelist Honoré de Balzac, a compulsive collector of bric-a-brac who expressed his empathy for the acquisitive passions of his collector protagonist in *Cousin Pons*. In addition, Muensterberger takes the reader on a charming tour of collecting in the Renaissance and looks at collecting during the Golden Age of Holland, in the seventeenth century. Throughout, we enjoy the author's elegant variations on a complicated theme, stated, much too simply, by John Steinbeck: "I guess the truth is that I simply like junk." Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
