Advancing Practice in Rehabilitation Nursing-Rebecca Jester 2008-04-15 Nurses play a key role in the rehabilitation process - maximising the quality of life and independence of individuals following trauma, disease or enduring chronic illness. Advancing Practice in Rehabilitation Nursing provides an in-depth analysis of specialist practice in rehabilitation nursing. It examines the research basis underlying clinical practice and identifies unique attributes of the nursing role within the context of multidisciplinary and multi-agency working. The first part of Advancing Practice in Rehabilitation Nursing explores general principles of specialist rehabilitation practice, which can be applied to both community and in-patient settings. The second part addresses specific issues in core areas of practice including stroke, acquired brain injury, spinal injury, orthopaedic rehabilitation and management of people with long-term conditions.

Rehabilitation Nursing-Shirley P. Hoeman 2008 Providing a solid foundation of concepts and principles, this book maintains the fundamental focus of rehabilitation nursing: holistic care of the rehabilitation client to achieve maximum potential outcomes in functional and lifestyle independence.

Nursing Care of the Hospitalized Older Patient-Terry Mahan Buttaro 2012-11-28 Nursing Care for the Hospitalized Older Patient is a comprehensive, quick-reference resource for registered and advanced practice nurses working with older patients in a hospital setting. Organized in user-friendly format, the book provides vital information on all aspects of hospital care and the full range of health issues encountered by elderly patients. The book is organized into four major sections. The first section provides an overview of the aging patient, including demographics, normal aging changes, and the general impact of hospitalization. The second section covers proper health assessment, providing guidance on history taking and evaluating laboratory values. The third section is the largest part of the book and is made up of short, similarly-structured chapters dedicated to individual clinical issues ranging from burns to depression. These chapters are organized by body system to maximize ease of use. The book concludes with a section on special considerations that cross common clinical areas, such as palliative care, pain management, fall prevention, and discharge planning.

Evidence-Based Practice-Janet Houser 2010-10-25 Evidence-Based Practice: An Implementation Guide for Healthcare Organizations was created to assist the increasing number of hospitals that are attempting to implement evidence-based practice in their facilities with little or no guidance. This manual serves as a guide for the design and implementation of evidence-based practice systems and provides practice advice, worksheets, and resources for providers. It also shows institutions how to achieve Magnet status without the major investment in consultants and external resources.

Academic Leadership in Nursing-Leslie Neal-Boylan, PhD, RN, CRRN, APRN, FNP-BC 2018-03-28 Instills practical leadership skills for nurse educators and academic leaders throughout their careers This is the first resource to compare the experiences of nursing academic leaders among public, private, and for-profit institutions for nurse educators of all experience levels and ambitions. While most nursing faculty and administrators looking for new professional opportunities often use salary, geographic location, and even school reputation to inform their choice, the importance of culture and organizational structure cannot be overstated. The information and advice in this text addresses misconceptions and myths about all three types of organizations to enable readers to decide on and thrive in their chosen institution. Written for instructors looking to expand leadership skills within their teaching roles, those seeking more formal leadership positions, and novice academic leaders this text delivers a first-hand perspective on what it takes to be a faculty member and nurse academic administrator across three different academic settings—public, private, and for-profit—and provides an in-depth understanding of the key differences among them. Chapters offer concrete tips and suggestions for applying to and working in different types of institutions, and candidly discuss “things I wish I had known” and “lessons learned.” The advice in this text discusses specific strategies for each academic setting, covering the nuances of fundraising and advancement, marketing and public relations, recruitment of qualified and diverse faculty, budgeting and allocation of resources, and other topics to promote an informed decision when seeking a career path that is a good fit and a job that provides overall satisfaction. Key Features: Describes both the specifics and the nuances of requisite faculty leadership skills in public, private, and for-profit/career school settings—the first book to do so Written by three experienced deans of nursing who offer concrete tips and reveal the secrets of successful academic leadership for informed decision making Includes candid author commentary regarding “things I wish I had known” and “lessons learned” Designed for instructors who wish to expand leadership skills within their teaching roles, those who seek administrative positions, and those who are new to academic leadership Written in an accessible style for faculty at all levels of experience

Medical Improv-Beth Boynton 2017-04-21 Medical Improv: A New Way to Improve Communication (With 15 activities you can teach STAT!) Welcome to the emerging field of Medical Improv! Medical Improv is an exciting new teaching tool! Its experiential activities hold great promise for persistent challenges we face in healthcare by promoting the 'soft' skills involved in emotional intelligence, communication, collaboration, and leadership. This train-the-trainer resource is designed to help educators teach the "soft" skills that healthcare professionals need to positively impact patient safety, patient experience, workforce health, and the efficient use of resources. Because these skills are not intellectual, they require a non-traditional approach that fosters new behaviors. Medical Improv is a fun and effective strategy. There are 3 parts to the book. Part I, explains what Medical Improv is and why we need it. Part II, focuses on how to facilitate successful Medical Improv sessions. Part III, covers step-by-step instructions for teaching 15 fundamental activities with chapters that focus on skills associated with emotional intelligence and communication, teamwork, and leadership. You do NOT need experience in improv or a background in theater to teach these fundamental activities. This is the first Medical Improv train-the-trainer book for nurses and other healthcare educators. Applied improvisers will find it helpful for teaching classes in the healthcare sector. The author's combined expertise in nursing, communication, organizational development, and improvisation provide a powerful opportunity for positive change!

"A funny, intimate, and often jaw-dropping account of life behind the scenes."—People Nurses is the compelling story of the year in the life of four nurses, and the drama, unsung heroism, and unique sisterhood of nursing—one of the world's most important professions (nurses save lives every day), and one of the world's most dangerous, filled with violence, trauma, and PTSD. In following four nurses, Alexandra Robbins creates sympathetic characters while diving deep into their world of controlled chaos. It's a world of hazing—"nurses eat their young." Sex—not exactly like on TV, but surprising just the same. Drug abuse—disproportionately a problem among the best and the brightest, and a constant temptation. And bullying—by peers, by patients, by hospital bureaucrats, and especially by doctors, an epidemic described as lurking in the "shadowy, dark corners of our profession." The result is a page-turning, shocking look at our health-care system.
