Surrounded by Science-National Research Council 2010-04-03 Practitioners in informal science settings--museums, after-school programs, science and technology centers, media enterprises, libraries, aquariums, zoos, and botanical gardens--are interested in finding out what learning looks like, how to measure it, and what they can do to ensure that people of all ages, from different backgrounds and cultures, have a positive learning experience. Surrounded by Science: Learning Science in Informal Environments, is designed to make that task easier. Based on the National Research Council study, Learning Science in Informal Environments: People, Places, and Pursuits, this book is a tool that provides case studies, illustrative examples, and probing questions for practitioners. In short, this book makes valuable research accessible to those working in informal science: educators, museum professionals, university faculty, youth leaders, media specialists, publishers, broadcast journalists, and many others.

Multicultural Education for Educational Leaders-Abul Pitre 2014-12-16 This is a riveting book that contains a compilation of powerful essays that cogently argue why multicultural education is important for educational leaders. Using a critical multicultural framework the contributors of this powerful book highlight the varying ways racism finds its way into schools.

Crick Crack, Monkey-Merle Hodge 2013-05-20 The cultural and linguistic complexity of postcolonial Trinidadian society is cleverly portrayed in this beautifully written West Indian novel. Hodge uses the voice of the central character, Tee, to tell a story that begins with two young children forced to live first with their aunt Tantie and then with Aunt Beatrice. Tanties world overflows with hilarity, aggression, and warmth. Aunt Beatrices Creole middle-class world is pretentious and exudes discrimina-tory attitudes toward people of color in the lower classes. As we follow Tee from childhood to young adulthood, we share the diversity and richness of her struggle to exist in two worlds, fit in with relatives and classmates, learn from differing cultures, and carve out her identity. In addition to Hodges powerful, evocative writing and messages, readers are treated to an insightful introduction and study questions, written by Roy Narinesingh, that prompt fruitful discussions of postcolonial issues.

Multicultural Counseling and Psychotherapy-Leroy G. Baruth 1991 "The United States, a haven for various cultural and ethnic groups for many years, continues to benefit from the rich diversity among its people. The increasing cultural diversity of the U.S. population also has given rise to a more intense need for multicultural counseling. Culturally diverse clients may bring problems to counseling sessions related to a particular lifespan stage or to the frustrations and challenges often facing minority groups struggling to cope in a predominantly Anglo society. Counselors, perhaps not trained in multicultural intervention, may not recognize , or may underestimate, the powerful influence of a client's cultural background and developmental period; thus they may plan inappropriate counseling strategies"--preface.

Diversity and Cultural Competence in Health Care-Janice L. Dreachslin 2012-11-05 Major changes are occurring in the United States population and the nation's health care institutions and delivery systems. Significant disparities in health status exist across population groups. But the health care enterprise, with all its integrated and disparate parts, has been slow to respond. Written by three nationally known scholars and experts, Diversity and Cultural Competence in Health Care: A Systems Approach is designed to provide health care students and professionals with a clear understanding of foundations, philosophies, and processes that strengthen diversity management, inclusion, and culturally competent care delivery. Focusing on current practice and health care policy, including the recently passed Patient Protection and Affordable Care Act of 2010 (ACA), this textbook integrates strategic diversity management, self-reflective leadership, and the personal change process with culturally and linguistically appropriate care into a cohesive systems-oriented approach for health care professionals. The essentials of cultural competence and diversity management covered in this text will be helpful to a wide variety of students because they encompass principles and practices that can be realistically incorporated into the ongoing work of any health care field or organization. Each chapter contains learning objectives, summary, key terms, and review questions and activities designed to allow students to understand and explore concepts and practices identified throughout the text.

The Economic Value of Cultural Diversity-Gianmarco I. P. Ottaviano 2004 "What are the economic consequences to U.S. natives of the growing diversity of American cities? Is their productivity or utility affected by cultural diversity as measured by diversity of countries of birth of U.S. residents? We document in this paper a very robust correlation: US-born citizens living in metropolitan areas where the share of foreign-born increased between 1970 and 1990, experienced a significant increase in their wage and in the rental price of their housing. Such finding is economically significant and survives omitted variable bias and endogeneity bias. As people and firms are mobile across cities in the long run we argue that, in equilibrium, their correlations are consistent only with a net positive effect of cultural diversity on productivity of natives"--NBER website

Communication Disorders in Multicultural Populations - E-Book-Dolores E. Battle 2012-05-14 Written by some of the top researchers and clinicians in the field, Communication Disorders in Multicultural Populations, 4th Edition offers an in-depth look at the major cultural groups in the U.S. and the issues concerning their communication development, common disorders, and treatment options. This fourth edition features a wealth of updates and new features — including the latest research and added coverage of communication issues in countries such as Australia, China, Canada, and Brazil — to give speech-language pathology students and speech-language pathologists a balanced and global perspective on the most topical multicultural communication issues of today. Comprehensive coverage focuses on a wide variety of cultural and age populations. Cutting-edge research and data offer up-to-date discussions based on the latest studies in multiculturalism as it relates to the SLP and AuD professions. Diverse panel of expert authors include some of the top researchers and clinicians in the field. Additional resources provide a focused listing of print and electronic sources at the end of each chapter to support more in-depth study of a particular subject. Chapter on international perspectives tackles issues in countries such as Australia, Canada, China, and Brazil to give you a more global understanding of communication disorders. The latest statistics from the 2010 U.S. Census report offers the most current data available. Increased content on older adults covers the multicultural issues, voice disorders, and neurogenic disorders particular to this important demographic. Case studies give you practice solving realistic clinical problems. Chapter overview and conclusion outline the key information in each chapter and serve as a checklist for content mastery.

Developing Multicultural Counseling Competence-Danica G. Hays 2010 This text is an innovative, evidence-based approach to facilitating students' journey to becoming multiculturally competent counselors. Comprehensive, thoughtful, and in-depth, Developing Multicultural Competence goes beyond general discussions of race and ethnicity to include discourse on a broader, more complex view of multiculturalism in clients' and trainees' lives. Both scholarly and highly interactive, this new text strives to present trainees with empirically-based information about multicultural counseling and social advocacy paired with engaging self-reflective activities, discussion questions, case inserts, and study aids, creating opportunities for experiential learning related to cultural diversity considerations and social advocacy issues within clients' social systems. Addressing CACREP (2001/2009) Standards related to the Social and Cultural Diversity core area, the book is broken into four parts: Part One covers key concepts and terms regarding multicultural constructs and cross-cultural communication; Part Two defines social advocacy and identifies the major forms of oppression; Part Three discusses the major cultural and diversity groups; and Part Four develops trainee skills for working with diverse clients, including infusing multiculturalism in how they

conceptualize, evaluate, and treat these clients.

Mapping Out the Research-policy Matrix-Germán Solinís 2011 Social science research provides not only abstract, conceptual knowledge about society but also concrete, instrumental knowledge. It enables us to take action to recompose the world we live in. However, this book rejects narrow and simplistic conceptions of research use and its impact on policy-making, to embrace a more complex approach to seeing and dealing with social science. In the paradigm of "evidence-based policy", "evidence" is understood in its broad sense as information that helps form policies. Nonetheless, within current practices and discourse, it is not clear what "information" is, what is really meant by "evidence", and how it can be obtained objectively. The book draws on papers presented at the International Forum on the Social Science-Policy Nexus, where experts examined current practices and problems in areas such as social policy, migration, urban policies and globalisation. The Forum set a precedent in terms of dialogue between researchers and policy-makers. The authors contribute to enriching and elucidating the most common conceptualisations of the research-policy nexus. They represent a rich diversity of views, although most agree that an effective strategy to enhance social science-policy linkages should be underpinned by a theoretical and methodological framework that takes into account the interplay of different social actors.
