Still Alive-Ruth Kluger 2003-04-01 Swept up as a child in the events of Nazi-era Europe, Ruth Kluger saw her family's comfortable Vienna existence systematically undermined and destroyed. By age eleven, she had been deported, along with her mother, to Theresienstadt, the first in a series of concentration camps

which would become the setting for her precarious childhood. Kluger's story of her years in the camps and her struggle to establish a life after the war as a refugee survivor in New York, has emerged as one of the most powerful accounts of the Holocaust. Interwoven with blunt, unsparing observations of childhood and nuanced reflections of an adult who has spent a lifetime thinking about the Holocaust, *Still Alive* rejects all easy assumptions about history, both political and personal. Whether describing the abuse she met at her own mother's hand, the life-saving generosity of a woman SS aide in Auschwitz, the foibles and prejudices of Allied liberators, or the cold shoulder offered by her relatives when she and her mother arrived as refugees in New York, Kluger sees and names an unexpected reality which has little to do with conventional wisdom or morality tales. *Still Alive* is a memoir of the pursuit of selfhood against all odds, a fiercely bittersweet coming-of-age story in which the protagonist must learn never to rely on comforting assumptions, but always to seek her own truth.

Uncovering the Unconscious Dimensions of Planning-Professor Frank Othengrafen 2012-12-28 If planning is understood to be about the nature of place, about the way in which we use land, and about the physical expression of the ordering of society, then it becomes apparent that planning as an activity cannot possibly be divorced from the general cultural traditions that inform it. By adopting theoretical approaches from the fields of management studies, cultural studies and anthropology, and by using culture as an organising principle, this book develops an innovative framework which provides better insights into what culture is about, what the relations are between culture and planning and how culture influences planning practices. It introduces a 'culturised planning model', consisting of the analytical dimensions: 'planning artefacts', 'planning environment' and 'societal environment', with which to discover the unconscious routines and assumptions, emotions and meanings attached to planning systems and the different concepts used in spatial planning systematically. The model offers the possibility of uncovering cultural phenomena in spatial planning by providing relevant cultural dimensions and potential specifications and indicators which has not been the case so far. By comparing examples of German, Finnish and Greek planning habits, the book illustrates cultural influence in planning and provides the readership with a feedback between the micro (experiences of planners) and the macro level (institutional and social context) as well as a more systematic comparison based on cultural values, attitudes, norms and rules.

A Long Way Gone-Ishmael Beah 2007-04-01 My new friends have begun to suspect I haven't told them the full story of my life. "Why did you leave Sierra Leone?" "Because there is a war." "You mean, you saw people running around with guns and shooting each other?" "Yes, all the time." "Cool." I smile a little. "You

should tell us about it sometime." "Yes, sometime." This is how wars are fought now: by children, hopped-up on drugs and wielding AK-47s. Children have become soldiers of choice. In the more than fifty conflicts going on worldwide, it is estimated that there are some 300,000 child soldiers. Ishmael Beah used to be one of them. What is war like through the eyes of a child soldier? How does one become a killer? How does one stop? Child soldiers have been profiled by journalists, and novelists have struggled to imagine their lives. But until now, there has not been a first-person account from someone who came through this hell and survived. In *A Long Way Gone*, Beah, now twenty-five years old, tells a riveting story: how at the age of twelve, he fled attacking rebels and wandered a land rendered unrecognizable by violence. By thirteen, he'd been picked up by the government army, and Beah, at heart a gentle boy, found that he was capable of truly terrible acts. This is a rare and mesmerizing account, told with real literary force and heartbreaking honesty.

The Warrior Ethos-Christopher Coker 2007-06-11 This is the first scholarly book to look at the role of the 'warrior' in modern war, arguing that warriors' actions, and indeed thoughts, are increasingly patrolled and that the modern battlefield is an unforgiving environment in which to discharge their vocation. As war becomes ever more instrumentalized, so its existential dimension is fast being hollowed out. Technology is threatening the agency of the warrior and this volume paints a picture of early twenty-first century warfare, helping to explain why so many aspiring warriors are becoming disenchanting with their profession. Written by a leading thinker on warfare, this book sets out to explain what makes an American Marine a 'warrior' and why suicide bombers, or Al Qaeda fighters, do not qualify for this title. This distinction is one of the central features of the current War on Terror – and one that justifies much more extensive discussion than it has so far received. *The Warrior Ethos* will be of great interest to all students of military history, strategy, military sociology and war studies.

Cattle Bring Us to Our Enemies-J. Terrence McCabe 2010-02-11 An in-depth look at the ecology, history, and politics of land use among the Turkana pastoral people in Northern Kenya Based on sixteen years of fieldwork among the pastoral Turkana people, McCabe examines how individuals use the land and make decisions about mobility, livestock, and the use of natural resources in an environment characterized by aridity, unpredictability, insecurity, and violence. The Turkana are one of the world's most mobile peoples, but understanding why and how they move is a complex task influenced by politics, violence, historical relations among ethnic groups, and the government, as well as by the arid land they call home. As one of the original members of the South Turkana Ecosystem Project, McCabe draws on a wealth of ecological

American Kid-Constance Constant 2015-08-01 For Katherine and her three American children, Greece was meant to be a one-year refuge from the late 1930's Depression. Her husband's family-owned orchard should have provided for their well-being, but instead embroiled them in legal debate. WWII Axis bombings of Kalamata prompted the young family to flee to the remote mountain village of Katherine's birth, but Nazi invasion-and seemingly endless occupation of their village and their house-trapped them there until the war's end. Told through the eyes of John, Katherine's youngest child, he shares a universal story of fear and frustration faced by all innocent civilians during war in occupied countries. American Kid is a moving recollection of Katherine's courage, their family's sparse village existence on Mt. Parnon, and years of fear-filled interactions with Nazi soldiers.

Male Roles, Masculinities and Violence-Expert Group Meeting on Male Roles and M 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.
