The Art of Ballets Russes-Alexander Schouvaloff 1997 The Serge Lifar Collection of Theater Designs, Costumes, and Paintings at the Wadsworth Atheneum Serge Lifar, the last great protege dancer of famed Russian ballet producer Serge Diaghilev, collected paintings, set designs, and costume designs from Diaghilev's Ballets Russes and from his own later productions at the Paris Opera. In 1933 Lifar's European dance company met financial disaster on tour in the United States, and Lifar was forced to sell his collection to pay for return fires for his troupe. The \$10,000 he received from the Wadsworth Atheneum's flamboyant and imaginative director A. Everett "Chick" Austin was considered extravagant at the time. This collection, recognized as invaluable evidence of the emergence of modernism in theater and in Western art, is today unrivaled as a comprehensive documentation of the Ballets Russes. This catalogue presents the 188 works of art and thirty-two costumes that compose the Serge Lifar Collection. It has been enlarged since 1933, most notably with the 1996 acquisition of original costumes. Most of the set and costume designs and all of the costumes were made for thirty-seven Ballet Russes productions, from the first in 1909 to the last in 1929. The Ballet Russes was one of the greatest artistic movements of the early twentieth century, which fused the efforts of composer, choreographer, dancer, and designer into total works of art. Diaghilev commissioned prominent Russian painters and artists from the School of Paris -- among them Bakst, Picasso, Matisse, Braque, and Miro -- to design sets and costumes. This book provides notes about each production and the corresponding items in the collection, as well as a new assessment of the immediate impact and lasting influence of the renowned Ballet Russes.

The Great Second Advent Movement-John Norton Loughborough 1909 There are already many useful books in the hands of the people, and my apology for adding another to the list, is that in these pages I state many things concerning Adventist, and especially Seventh-day Adventist, which have not heretofore been brought in this form before the people. Besides this, many who espoused the cause in later years, and who have not witnessed the things mentioned, have earnestly requested a narration of these facts and experiences from those earlier in the work. Having been familiar with the advent movement in 1843 and 1844, and having, since June. 2, 1849 proclaimed the doctrine, first as an Adventist, I esteem it a pleasure to "speak the things i have seen and heard."--Chapter I-- Introductory. Chapter II-- The Plan of Salvation Unfolded. Chapter III-- The Coming of the Promised Seed. Chapter IV-- The Time of the End. Chapter V-- The Second Advent Message. Chapter VI-- The Message and the Messengers. Chapter VII-- The Rapid Advancement of the Message. Chapter VIII-- The Marriage Supper of the Lamb. Chapter IX-- The Tarrying Time. The author looks at the ways the Ukranian Diaspora has retained its identity, at the different factions within it and its response to the war crimes trials of the 1980s.

Miracles and the Modern Religious Imagination-Robert Bruce Mullin 1996-01-01 According to surveys, most Americans today believe in miracles. For many others, however, a belief in miracles seems incompatible with a modern world view. Why does interest in miracles persist even in a secular era? Why are miracles such a controversial part of Western religious thinking? In this fascinating book, Robert Bruce Mullin traces the debate about miracles from the Reformation to the twentieth century, focusing particularly on the years from 1860 to 1930. He examines the way preachers, faith healers, psychic researchers, scientists, historians, philosophers, and literary figures have grappled with issues of the miraculous. Before the mid-1800s, the author contends, Catholics had defended post-biblical miracles, while Protestants insisted true miracles were limited to the biblical era. By the end of the nineteenth century, however, the Protestant position had largely collapsed, and two opposing views emerged in its wake. Some Protestants wished to jettison all miracles - even those recorded in the Bible. Others took a new interest in modern miracles, believing that the presence of miracles could help ground contemporary religious faith. This transformation in attitudes toward miracles not only changed the Anglo-American religious landscape and created a new focus of debate, Mullin says, it also opened up a new basis for accord between Protestants and Catholics.

Domenico Ghirlandaio-Jeanne K. Cadogan 2000 Domenico Ghirlandaio was one of the most popular artists in fifteenth-century Florence. He worked in a variety of media, including panel paintings, wall murals, mosaic, and manuscript illumination, and his workshop - to which Michelangelo was apprenticed - was highly influential. This beautiful book offers a radically new interpretation of Ghirlandaio's life and work, viewing him primarily as an artisan active within the craft traditions, guild structure, and workshop organizations of his day. Jean K. Cadogan argues that Ghirlandaio was a pivotal figure in the transformation of the artist from medieval artisan to Renaissance genius. She traces his gradual social elevation, which reflected the increasing respect with which he was treated by his patrons. And she notes that the changes in the way he and other artists were viewed created a milieu that encouraged innovation in technique, style, and content, qualities that were vividly displayed in Ghirlandaio's work. Cadogan explains how his working method, his pragmatic, artisan approach to technique, the organization and functioning of his workshop, and his relations with his patrons affected the works of art Ghirlandaio produced. Her text is complemented by a catalogue raisonné of Ghirlandaio's works in all media as well as an appendix of documents useful for scholars.

Memoirs of Richard Cumberland-Richard Cumberland 1807

Russian Imperialism from Ivan the Great to the Revolution-Taras Hunczak 2000 This collection of essays explores the history of Russian imperialism, an especially pertinent topic in light of the newly democratic country's entrance into the geopolitical forum-the country's tenuous relationship with Europe was anticipated by Russian historian Nicholas Danilevskii. Some may argue conflicts such as Chechnya are remnants of the imperial thirst for dominance, and that the ever-evolving nation is still fighting old wars over her image as an empire. The works contained in this book trace some of these encounters, and in turn, provide a backdrop for those of today.

Climate change impacts on hydrology and water resources of the Upper Blue Nile River Basin, Ethiopia-Kim, U., Kaluarachchi, J. J., Smakhtin, V. U. 2008 The report evaluates the impacts of climate change on the hydrological regime and water resources of the Blue Nile River Basin in Ethiopia. It starts from the construction of the climate change scenarios based on the outcomes of several general circulation models (GCMs), uses a simple hydrological model to convert theses scenarios into runoff, and examines the impacts by means of a set of indices. The results, however uncertain with existing accuracy of climate models, suggest that the region is likely to have the future potential to produce hydropower, increase flow duration, and increase water storage capacity without affecting outflows to the riparian countries in the 2050s.
