Visualizing Landscape Architecture-Elke Mertens 2010-01-01 "We don't sell gardens; we sell images of gardens." This observation on the part of a landscape architect makes it clear just how important it is that a design be effectively communicated to the community, clients, and the public. Drawings, models, simulations, and films communicate the designers' proposed ideas and solutions, but they also convey their attitude toward the use of nature and the environment. With myriad possibilities - including computer programs as well as hand drawings and models, which continue to be widely used - and strong competition in the field, there is now a huge variety of visual representations, with agreed-upon rules but also a great deal of freedom. In three large sections, this books sifts through the currently commonplace and available techniques and evaluates them in terms of their informative value and persuasive power, always illustrating its points with analysis of examples from international firms. An introductory look at the development thus far is followed by a systematic presentation of modes of representation in two, three, and four dimensions - in the plane, in space, and in the temporal process. The second section deals with the sequence within the workflow: from the initial sketch through concept and implementation planning all the way to the finished product. The third section deals with the strategic use of visualizations in the context of competitions, future schemes, and large-scale landscape planning. The focus in this section is not on the familiar use of the relevant techniques, but rather on the methods and forms of visual representation in contemporary landscape architecture.

Allen's Introduction to Later Chinese Porcelain-Anthony J. Allen 2014-04-15 Chinese porcelain of the period 1820 through 1920 has, to date, been the province of a minority of academic authors and a few adventurous dealers and collectors. This misunderstood but fascinating field of study is now brought within the reach of the average collector. Written with the interests of novice collectors and dealers in mind, superbly illustrated in colour throughout, each of the introductory chapters conclude with suggestions for further reading, and thus provide a fast but solid grounding for the primary focus of the book: dating of later Chinese porcelains. This book discusses marks, reign marks, footrims, glazes, bubbles, flaws and imperfections, and other indications of a date of manufacture, including the contentious subjects of hollow line and the reversed S; illustrating in close-up images many of the features used by the author to substantiate his assertions. Unashamedly provocative, Allen concludes with chapters on those subjects most earlier writers treated as taboo, including Modern Fakes and their Detection, Buying Trips in Asia, and Recommendations for Investment.

What's Your Green Goldfish?-Stan Phelps 2013-03-01 What's Your Green Goldfish is based on the simple premise that employees are the key drivers of customer experience and that "Happy Employees Create Happy Customers." The book focuses on 15 different ways to drive employee engagement and reinforce a strong corporate culture. It's the second book in the goldfish trilogy. The first book was an Amazon Best Seller entitled, What's Your Purple Goldfish. Purple focused on customers, whereby Green focuses on employees. Both books are based on a revolutionary new approach called marketing g.l.u.e. (marketing by giving little unexpected extras). The book is based on the findings of the Green Goldfish Project, an effort which crowd sourced 1,001 examples of signature added value for employees. Key themes emerged from the Project. The book is filled with over 200 examples. PRAISE FOR WHAT'S YOUR GREEN GOLDFISH "Stan is the sherpa that guides executives along the journey between the heart and mind of business stakeholders. Stakeholders aren't always customers though. At a time when company vision and culture matters more than ever, it takes inspired and engaged employees to bring them to life." - Brian Solis, author of What's the Future of Business #WTF, The End of Business as Usual and Engage "So often overlooked, and so very vital to building company value... empowering employees to support each other and the brand. Stan Phelps 'gets' it and Green Goldfish will walk you step-by-step though achieving this critical goal." - Ted Rubin, author of Return on Relationship "Great customer centric organizations only exist because of engaged and empowered employees. The Green Goldfish is packed with awesome examples of what world class companies are doing today to inspire and reward their employees. If you see value in truly building an "A Team," Green Goldfish will be, without question, your single best reference." - Chris Zane, Founder and President of Zane's Cycles, author of Reinventing the Wheel, the Science of Creating Lifetime Customers "Stan Phelps takes customer service to a whole new level by focusing on EMPLOYEE service, and how to do well by your employees - so they take care of your customers. Packed with stories, insights and R.U.L.E.S. any company can follow, this book is a must-read for managers of companies of all shapes and sizes who know that employees don't leave jobs - they leave managers, especially when they don't feel your love and appreciation. Pick this up, and start engaging your team and making more GREEN - Phil Gerbyshak, author of The Naked Truth of Social Media "Our large-scale research shows unequivocally that engaged employees are more likely to work longer, try harder, make more suggestions for improvement, recruit others to join their company, and go out of their way to help customers. They even take less sick time. Companies can tap into the enormous value of engaged employees by following the 15 ideas that Stan lays out in this book." - Bruce Temkin, author of The Six Laws of Customer Experience "Too often, the actual employment experience delivered on the job does not measure up to the version sold to job candidates during the interview process. In What's Your Green Goldfish, Stan Phelps offers 15 ways to close the gap." - Steve Curtin, author of Delight Your Customers: 7 Simple Ways to Raise Your Customer Service from Ordinary to Extraordinary (AMACOM, June 2013) "In What's Your Green Goldfish, Stan Phelps brilliantly applies the idea of 'doing a little something extra' for employees. You know, those people that actually get the work done and keep customers happy. Read it, put some of the ideas to work, and soon you'll be reaping more 'green' from your customers." - Bob Thompson, Founder and CEO, CustomerThink Corp.
