Redesigning Continuing Education in the Health Professions-Institute of Medicine 2010-03-12 Today in the United States, the professional health workforce is not consistently prepared to provide high quality health care and assure patient safety, even as the nation spends more per capita on health care than any other country. The absence of a comprehensive and well-integrated system of continuing education (CE) in the health professions is an important contributing factor to knowledge and performance deficiencies at the individual and system levels. To be most effective, health professionals at every stage of their careers must continue learning about advances in research and treatment in their fields (and related fields) in order to obtain and maintain up-to-date knowledge and skills in caring for their patients. Many health professionals regularly undertake a variety of efforts to stay up to date, but on a larger scale, the nation's approach to CE for health professionals fails to support the professions in their efforts to achieve and maintain proficiency. Redesigning Continuing Education in the Health Professions illustrates a vision for a better system through a comprehensive approach of continuing professional development, and posits a framework upon which to develop a new, more effective system. The book also offers principles to guide the creation of a national continuing education institute.

Professional Knowledge and Professional Practice-Eric Hoyle 1995 "Recent legislation has signalled the government's determination to redefine the role of teachers: their status, autonomy and professional knowledge are under review." "This challenging book addresses these important topical issues by analysing the values and attitudes entailed in the idea of professional responsibility, the significance of autonomy for effective practice, and teachers' knowledge. The authors base their analysis on the view that teaching, however defined, is a dynamic entity with a potential for renewal, which should not be underestimated."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Clinical Cases in Physical Therapy-Mark A. Brimer 2004 In the second edition of this reference, students will learn the critical skill of clinical decision-making by reading about real-life case scenarios along with a description of the course of action to follow and direct insight into the process. With brand new cases covering both typical and rare issues, the readers can learn from the successes and mistakes of their colleagues. The content is presented in a format following the elements of patient/client management from Guide to Physical Therapist Practice, 2nd Edition ("2001, APTA), the standard for physical therapy practice. Each example includes learning objectives, guiding questions, discussion, and references and corresponds to one or more of the four preferred practice patterns (Musculoskeletal, Neuromuscular, Cardiovascular/Pulmonary, and Integumentary) as outlined by the Guide. The variety in type of cases offered makes this resource appropriate for use with students over the span of a course as well as for clinicians wishing to work through more challenging patient scenarios. Content utilizing current terminology reflects trends in current practice and familiarizes readers with the structure of the Guide to Physical Therapist Practice, 2nd Edition. The real-life examples expose students to a range of both unusual and familiar clinical experiences they might not face in their studies, as well as enabling current clinicians to learn from their colleagues' experiences. Input from both a clinician and a professor provides a nice blend of clinical experience and educational insight. All cases are new, 46 in all, compiled from real-life scenarios experienced by physical therapy practitioners. Content includes more detailed information in areas such as patients, personal histories, culture, environment, and lifestyle. New topics encompass a broad range of issues, including documentation, women's health, clinical education, ethics, and assistive technology. Evidence-based examples and additional references meet the curriculum standards for physical therapy education. Pedagogical features, such as learning objectives, guiding questions, photos and illustrations, make the reference useful in the educational setting. In response to the guidelines featured in the Guide, cases are now formatted to follow elements of patient/client management, including physical therapy diagnoses stated as preferred practice patterns.

Morphology of the Blood-Giuseppe d'Onofrio 1998-02-15 Morphology of the Blood pays homage to traditional morphology and emphasizes the central role of morphology in haematology even in this age of automation and molecular biology. This book has been conceived and built on the firm foundation provided by detailed morphological observation but also takes account of immunophenotypic, cytogenetic, molecular and clinical aspects of haematological disease. The book deals with the major themes of haematological pathology bringing together classical teaching with new classification and terminology. Each illustration in this book has been derived from material obtained for diagnostic purposes from patients suffering from serious, often fatal, conditions.

Documentation for Rehabilitation-Lori Quinn 2015-01-01 Better patient management starts with better documentation! Documentation for Rehabilitation: A Guide to Clinical Decision Making in Physical Therapy, 3rd Edition shows how to accurately document treatment progress and patient outcomes. Designed for use by rehabilitation professionals, documentation guidelines are easily adaptable to different practice settings and patient populations. Realistic examples and practice exercises reinforce concepts and encourage you to apply what you've learned. Written by expert physical therapy educators Lori Quinn and James Gordon, this book will improve your skills in both documentation and clinical reasoning. A practical framework shows how to organize and structure PT records, making it easier to document functional outcomes in many practice settings, and is based on the International Classification for Functioning, Disability, and Health (ICF) model - the one adopted by the APTA. Coverage of practice settings includes documentation examples in acute care, rehabilitation, outpatient, home care, and nursing homes, as well as a separate chapter on documentation in pediatric settings. Guidelines to systematic documentation describe how to identify, record, measure, and evaluate treatment and therapies - especially important when insurance companies require evidence of functional progress in order to provide reimbursement. Workbook/textbook format uses examples and exercises in each chapter to reinforce your understanding of concepts. NEW Standardized Outcome Measures chapter leads to better care and patient management by helping you select the right outcome measures for use in evaluations, re-evaluations, and discharge summaries. UPDATED content is based on data from current research, federal policies and APTA guidelines, including incorporation of new terminology from the Guide to Physical Therapist 3.0 and ICD-10 coding. EXPANDED number of case examples covers an even broader range of clinical practice areas.

Mythtym-Trinie Dalton 2008 Writer and artist Trinie Dalton has said of her work, "The idea of contextualizing art by hanging it on the same wall is a fundamental one. My zines are literary/art/music history anthologies that follow a cross-genre salon style. They're parties on paper, and I want to be an exquisite host." Dalton's curatorial parties on paper bring together artists, musicians, critics, novelists, cartoonists, and other less-classifiable cultural producers. Mythtym compiles the greatest hits from previous zines, including Touch of Class about oh-so-sexy unicorns, and Werewolf Express about that savage canine mutant. It also premieres Mirror/Horror, a 100-page piece on the subject of mirrors: as symbols in horror stories, psychological metaphors, as material for psychedelic art and the disco ball.
