Vision Based Systemsfor UAV Applications-Aleksander Nawrat 2013-12-06 This monograph is motivated by a significant number of vision based algorithms for Unmanned Aerial Vehicles (UAV) that were developed during research and development projects. Vision information is utilized in various applications like visual surveillance, aim systems, recognition systems, collision-avoidance systems and navigation. This book presents practical applications, examples and recent challenges in these mentioned application fields. The aim of the book is to create a valuable source of information for researchers and constructors of solutions utilizing vision from UAV. Scientists, researchers and graduate students involved in computer vision, image processing, data fusion, control algorithms, mechanics, data mining, navigation and IC can find many valuable, useful and practical suggestions and solutions. The latest challenges for vision based systems are also presented.

Data Mining X-A. Zanasi 2009-01 Since the end of the Cold War, the threat of large-scale wars has been substituted by new threats: terrorism, organised crime, trafficking, smuggling, proliferation of weapons of mass destruction. To react to them, a security strategy is necessary, but in order to be effective it requires several instruments, including technological tools. Consequently, research and development in the field of security is proving to be an ever-expanding field all over the world. Data mining is seen more and more not only as a key technology in business, engineering and science but as one of the key features in security. To stress that all these technologies must be seen as a way to improve not only the security of citizens but also their freedom, special attention will be given to data protection research issues. The 10th International Conference on Data Mining is part of the successful series and the topics include: Text mining and text analytics; Data mining applications; Data mining methods.

The Everything Store-Brad Stone 2013-10-15 The definitive story of Amazon.com, one of the most successful companies in the world, and of its driven, brilliant founder, Jeff Bezos. Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store will be the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

Charley's Aunt-Brandon Thomas 2013-04 "I'm no ordinary woman..." Jack is in love with Kitty, Charley with Amy and both need Charley's Aunt to help. But when she doesn't turn up, they coerce their friend and fellow student into posing as the widowed millionaire, so they can confess their feelings to the girls. Things become more complicated when first, Jack's father and then Amy's uncle turn up. Both take a keen interest in Charley's Aunt, "from Brazil - where the nuts come from." One of the most popular comic farces of all time, Charley's Aunt has been loved since its original performances in 1893 and the continuous four year run that followed. The original dialogue is retained in this edition, refreshed with modern stage direction and a new introduction.
