The Radicality of Love-Srećko Horvat 2016-01-11 What would happen if we could stroll through the revolutionary history of the 20th century and, without any fear of the possible responses, ask the main protagonists - from Lenin to Che Guevara, from Alexandra Kollontai to Ulrike Meinhof - seemingly naïve questions about love? Although all important political and social changes of the 20th century included heated debates on the role of love, it seems that in the 21st century of new technologies of the self (Grindr, Tinder, online dating, etc.) we are faced with a hyperinflation of sex, not love. By going back to the sexual revolution of the October Revolution and its subsequent repression, to Che's dilemma between love and revolutionary commitment and to the period of '68 (from communes to terrorism) and its commodification in late capitalism, the Croatian philosopher Srećko Horvat gives a possible answer to the question of why it is that the most radical revolutionaries like Lenin or Che were scared of the radicality of love. What is so radical about a seemingly conservative notion of love and why is it anything but

conservative? This short book is a modest contribution to the current upheavals around the world - from Tahrir to Taksim, from Occupy Wall Street to Hong Kong, from Athens to Sarajevo - in which the question of love is curiously, surprisingly, absent.

Ask and It Is Given-Esther Hicks 2009-11-11 Sunlight is beginning to spill across the Malibu coastline as I begin this Preface. And the deep indigo tint of the Pacific Ocean at this time of the morning seems to match the depth of pleasure I'm feeling as I'm imagining the value you're about to receive from the revelations within this book. Ask and It Is Given is certainly a book about our "asking" being answered by All-That-Is. But it's primarily about how whatever we're asking for is being given to us - and it's also the first book to ever, in such clear terminology, give us the simple practical formula for how to ask for, and then how to receive, whatever we want to be, do, or have. Decades ago, while searching for plausible answers to my never-ending quest to know what "It" is all about, I discovered the word ineffable (meaning "incapable of being expressed in words"). Ineffable coincided with a conclusion I'd formed relative to It. I had decided that the closer we get to knowing the "Non-Physical," the fewer words we have for clearly expressing It. And so, any state of complete knowing would also, therefore, be a state of ineffability. In other words, at this point in our time-space reality the Non-Physical cannot be clearly expressed with physical words. Throughout physical history, we've evolved to, through, and into billions of philosophies, religions, opinions, and beliefs. Yet, with the billions upon billions of thinkers thinking, concluding, and passing their beliefs on to the next generations, we have not - at least not in any words we can agree on - found physical words to express the Non-Physical. This book offers you a hands-on course in spiritual practicality. It's a how-to book in the broadest sense of the term - that is, how to be, do, or have anything that pleases you. This book also teaches you how not to be, do, or have anything that displeases you.---

The rule is deceptively simple: when faced with a decision, consider what the consequences and outcomes of your various options would be in 10 minutes, 10 months, and 10 years. But the results are extraordinary. Using the framework of 10-10-10 will allow you to think through your decisions and to match them with the expectations and values you hold dearest. Most importantly, it allows you to chart a path in the direction you want, and to head confidently towards it with focus, balance, and joy.

Five Operas and a Symphony-Boris Gasparov 2008-10-01 In this eagerly anticipated book, Boris Gasparov gazes through the lens of music to find an unusual perspective on Russian cultural and literary history. He discusses six major works of Russian music from the nineteenth and twentieth centuries, showing the interplay of musical texts with their literary and historical sources within the ideological and cultural contexts of their times. Each musical work becomes a tableau representing a moment in Russian history, and together the works form a coherent story of ideological and aesthetic trends as they evolved in Russia from the time of Pushkin to the rise of totalitarianism in the 1930s. Gasparov discusses Glinka's Ruslan and Ludmilla (1842), Mussorgsky's Boris Godunov (1871) and Khovanshchina (1881), Tchaikovsky's Eugene Onegin (1878) and The Queen of Spades (1890), and Shostakovich's Fourth Symphony (1934). Offering new interpretations to enhance our understanding and appreciation of these important works, Gasparov also demonstrates how Russian music and cultural history illuminate one another.

desire for authoritarianism, conformity, or destructiveness. It is not only the question of freedom that makes Fromm's debut book a timeless classic. In this examination of the roots of Nazism and fascism in Europe, Fromm also explains how economic and social constraints can also lead to authoritarianism. By the author of *The Sane Society* and *The Anatomy of Human Destructiveness*, this is a fascinating examination of the anxiety that underlies our darkest impulses, an enlightening volume perfect for readers of Eric Hoffer or Hannah Arendt. This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.

Eschatology-Benedict XVI 2007-10 Originally published in English in 1988, Joseph Ratzinger's *Eschatology* remains internationally recognized as a leading text on the "last things"—heaven and hell, purgatory and judgment, death and the immortality of the soul. This highly anticipated second edition includes a new preface by Joseph Ratzinger/Pope Benedict XVI and a supplement to the bibliography by theologian Peter A. Casarella. *Eschatology* presents a balanced perspective of the doctrine at the center of Christian belief—the Church's faith in eternal life. Recognizing the task of contemporary eschatology as "to marry perspectives, so that person and community, present and future, are seen in their unity," Joseph Ratzinger brings together recent emphasis on the theology of hope for the future with the more traditional elements of the doctrine. His book has proven to be as timeless as it is timely.
