Story Hour-Jeri Kladder 2003-07-10 Story time at the public library is the first exposure to books outside the home for many preschool children. For the librarian, it is an exciting opportunity to instill in youngsters a love of reading and books. But coming up with new ideas that hold the children's attention can be trying. Until now. Here are 55 tried-and-true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one-hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials, recommended story, poetry and song selections, additional titles and a full description of the activity.

Special Education Law-Laura Rothstein 2020-07-23 Special Education Law 6e, written by Laura Rothstein and Scott F. Johnson, provides a comprehensive and current overview of the major federal law, and judicial interpretations of those laws, that apply to special education students. School administrators and attorneys attend to special education issues on a regular basis, and local superintendents, principals, special education professionals, psychologists, and regional and state administrators must also be familiar with the legal requirements of educating students with disabilities. Classroom teachers in all types of classrooms need to be aware of the laws that affect them and their students. Special Education Law 6e is intended for students in education and educational administration, both graduate and undergraduate, as well as law students in courses on special education law, school law, and special education. The framework of this book begins with five introductory chapters on the major issues that are addressed in special education law. These topics include an overview of the legal system, the history of special education, major statutes in special education law, stakeholders such as students, families, educators, and advocates, and finally, requirements for protection under various special education laws. The remainder of the text presents and analyzes special education case law within specific contexts. The text helps educators understand what the law requires so that they can make decisions that comply with these laws. Updates for the sixth edition include a major reorganization of the text. Chapters have been streamlined and edited for clarity, combining a previous chapter on Related Services with Free Appropriate Public Education, and folding Eligibility into Identification, Evaluation, and Eligibility, so students can better see the connections between these topics. Many case excerpts have been shortened or summarized to provide students with a more straightforward and focused reading experience. The latest updates in statutes, regulations, and case law are included throughout the text.

What If You Had Animal Teeth?-Sandra Markle 2017-01-31 If you could have any animal's front teeth, whose would you choose? WHAT IF YOU HAD ANIMAL TEETH? takes children on a fun, informative, and imaginative journey as they explore what it would be like if their own front teeth were replaced by those of a different animal. Featuring a dozen animals (beaver, great white shark, narwhal, elephant, rattlesnake, naked mole rat, hippopotamus, crocodile, and more), this book explores how different teeth are especially adapted for an animal's survival. At the end of the book, children will discover why their own teeth are just right for them. And they'll also get a friendly reminder to take good care of their teeth, because they're the only teeth they'll ever have. Each spread features a photograph of the animal using its specialized teeth on the left and a humorous illustrated image of a child using that animal's teeth on the right.
