Henry von Ofterdingen-Novalis 1990-08-01 In English translation. This extraordinary fusion of novel, fairy tale, and poem, published posthumously in 1802, is the most representative work of early German Romanticism. It reflects, in part, events in the life of its author, who is best known for his Hymns to the Night. Young Henry, a medieval poet who seeks the mysterious Blue Flower with the lovely face of the yet unknown Mathilda, sets out on a journey that is interspersed with beautiful tales and exquisite songs. Henrys education, as he catches first glimpses of the world, is of special interest to students of philosophy as well as literature, for ingeniously involved in literary form is the crux of Fichtes mysticism. Novalis, like Rousseau, makes an interesting contribution to the supreme realism that transcends the ordinary. Henry von Ofterdingen is an important landmark in the history of literature and the most distinguished work of its brilliant and tragic author.

Novalis- This first scholarly edition in English of the philosophical writings of Novalis (Friedrich von Hardenberg), the German Romantic poet, philosopher, and mining engineer, includes two collections of fragments published in 1798, Miscellaneous Observations and Faith and Love, the controversial essay Christendom or Europe, and substantial selections from his unpublished notebooks.

The Way of Novalis-John O'Meara 2014-02-04 Recent translations of Novalis's work into English should occasion fresh endeavours in the field of Novalis studies, aimed at English readers who are without German. In this book John O'Meara presents his own understanding of what Novalis offers to these readers, who have been given firmer access to his life and to his philosophical works than ever before. O'Meara traces Novalis's philosophical development meticulously, finishing up with an in-depth analysis of his Hymns to the Night, the Spiritual Songs, and his main and unfinished novel, Henry von Ofterdingen. Emphasis is on the process by which Novalis's literary works manifest as direct expressions of his philosophical explorations, which bear fruit, eventually, in visions of sweeping majesty and annunciatory grandeur.

Discourse Networks 1800/1900-Friedrich A. Kittler 1990 This is a highly original book about the connections between historical moment, social structure, technology, communication systems, and what is said and thought using these systems - notably literature. The author focuses on the differences between 'discourse networks' in 1800 and in 1900, in the process developing a new analysis of the shift from romanticism to modernism. The work might be classified as a German equivalent to the New Historicism that is currently of great interest among American literary scholars, both in the intellectual influences to which Kittler responds and in his concern to ground literature in the most concrete details of historical reality. The artful structure of the book begins with Goethe's Faust and ends with Vale;ry's Faust. In the 1800 section, the author discusses how language was learned, the emergence of the modern university, the associated beginning of the interpretation of contemporary literature, and the canonization of literature. Among the writers and works Kittler analyzes in addition to Goethe's Faust are Schlegel, Hegel, E. T. A. Hoffman's 'The Golden Pot', and Goethe's Tasso. The 1900 section argues that the new discourse network in which literature is situated in the modern period is characterized by new technological media - film, the photograph, and the typewritten page - and the crisis that these caused for literary production. Along the way, the author discusses the work of Nietzsche, Gertrude Stein, Mallarme;, Bram Stroker, the Surrealists, Rilke, Kafka, and Freud, among others.

Rethinking Emotion-Rüdiger Campe 2014-07-28 What are emotions, where do they originate and how are they brought into being? While from antiquity to early modernity, affects or passions were mostly conceived of as external physiological forces which act upon a passive subject, modern conceptions generally locate emotions within the subject. Drawing on the dichotomy of “interiority / exteriority” as a complex interdependent relationship, they mostly envision emotions as interior processes. Contemporary conceptions of emotion from such different fields as human geography, art history and cognitive sciences recently started to challenge this notion of internal emotions by developing alternative descriptions of externalized emotion. This book reevaluates premodern, modern and contemporary conceptions of affects, passions and emotion by analyzing various historical manifestations of the discourse on emotion.

Unlike most previous research, which - especially in the German tradition - often focused exclusively on the rise of the modern (Romantic) interiority without paying attention to the underlying dichotomy of “interiority / exteriority”, this study aims to explore the historical preconditions, the internal logic and the possible shortcomings that inform our thinking on emotion.

Lewis begins with his childhood in Belfast, surveys his boarding school years and his youthful atheism in England, reflects on his experience in World War I, and ends at Oxford, where he became "the most dejected and reluctant convert in all England." Hymns to the Night and Spiritual Songs-Novalis 2015-12-01 NOVALIS: HYMNS TO THE NIGHT AND SPIRITUAL SONGS A new edition of Novalis' Hymns To the Night, and Spiritual Songs, translated by George MacDonald, with an introduction and notes by Carol Appleby. Includes the German text. This edition features a collection of 26 Romantic, European paintings from the late 1770s and early 1800s (the era of Hymns To the Night and Spiritual Songs), which have been interwoven with the poems. Artists include: J.M.W. Turner, Giambattista Tiepolo, Caspar David Friedrich, Philipp Otto Runge, Henry Fuseli, Thomas Cole, J.A.D. Ingres, and Jacques-Louis David. Novalis (Friedrich von Hardenberg, 1772-1801) is the most mystical of the German Romantic poets. He is at once the most typical and the most unusual of the German Romantic writers, indeed, of all Romantic poets. His best known work, Hymns To the Night, was published in 1800. Novalis is supremely idealistic, far more so than Johann Wolfgang von Goethe or Heinrich Heine. He died young, which makes him, like Percy Bysshe Shelley and John Keats, something of a hero (or martyr). He did not write as much as Shelley, but his work, like that of Keats or Arthur Rimbaud, promised much. For Michael Hamburger, Novalis' poetry is almost totally idealistic: Novalis's philosophy, then, is not mystical, but utopian. That is why his imaginative works are almost wholly lacking in conflict. They are a perpetual idyll. It's true that Novalis' work is supremely idealistic, and utopian. But it is also mystical, because it points towards the invisible, unseen and unknown, and aims to reach that ecstatic realm. Novalis wrote: The sense of poetry has much in common with that for mysticism. It is the sense of the peculiar, personal, unknown, mysterious, for what is to be revealed, the necessary-accidental. It represents the unrepresentable. It sees the invisible, feels the unfeeleable, etc... The sense for poetry has a close relationship with the sense for augury and the religious sense, with the sense for prophecy in general. Glyn Hughes remarks of Novalis: 'The sustaining interest in the reading of Novalis's works is the sense of contact with a mind of visionary intensity and total commitment. The poetic achievement is in the momentary glimpses of ideal reality: what, in other contexts, we should call epiphanies. (61) The translator of Hymns To the Night, Scottish fantasist George MacDonald (1824-95), included Lewis Carroll and John Ruskin among his literary friends. His well-known works were Phantastes (1858), Lilith (1895), Bannerman's Boyhood and the Curdie children's stories: The Princess and the Goblin (1872) and The Princess and Curdie (1882). MacDonald's books were a significant influence on both J.R.R. Tolkien and C.S. Lewis. Lillith illustrated with many classic paintings, as well as images of Novalis. Romantic Prose Fiction-Gerald Ernest Paul Gillespie 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross-cultural and interdisciplinary perspectives. The work treats the appearance of major themes in characteristically Romantic versions, the power of Romantic discourse to reshape imaginative writing, and a series of crucial reactions to the impact of Romanticism on cultural life down to the present, both in Europe and in the New World. Through its combination of chapters on thematic, generic, and discursive features, Romantic Prose Fiction achieves a unique theoretical stance, by considering the opinions of primary Romantics and their successors not as guiding [truths] by which to define the permanent [meaning] of Romanticism, but as data of cultural history that shed important light on an evolving civilization.SPECIAL OFFER: 30% discount for a complete set order (5 vols.).The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived, yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World, but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of [irony] as one of the major impulses in the Romantic philosophical and artistic revolution, and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera, and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse, including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic Prose Fiction, where the basic Romantic themes and story types (the romance, novel, novella, short story, and other narrative forms) are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing, but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the [Old] and [New] Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

Exemplary Stories-Miguel Cervantes 2006-05-25 Composed throughout Cervantes's writing life and mentioned in Don Quixote, his Exemplary Stories are among the first and finest Spanish short stories: ranging from traditional tales of love to incisive moral fables. In The Little Gypsy Girl, an Italianate romance, the nomadic life is idealised through a love affair between the beautiful Preciosa and a nobleman who agrees to live as a gypsy to win her heart. Elsewhere, the intricacies of love are further explored in tales such as The Jealous Extremaduran, while the picaresque Rinconette and Cortadillo, depicting the friendship between a card-sharper and a pickpocket, presents a very different insight into the lower classes of seventeenth-century Spain. Widely regarded as one of Cervantes's greatest stories, The Dogs' Colloquy brilliantly captures Spanish conversation and society in its depiction of a discussion between two dogs mysteriously granted the gift of speech.

The New Sufferings of Young W.-Ulrich Plenzdorf 1996-01-18 In English translation. One of the most talked-about works ever published in the German Democratic Republic! This innovative novel by an East German writer is a worthy companion to the classic it parodies and parallels: Goethes The Sufferings of Young Werther. Goethe and J. D. Salinger were the two greatest influences on Edgar Wibeau, Young W. Edgar is a 17-year-old with the frustrations of teenagers all over the world, living with the added pressures of an East-bloc state. A model all-GDR boy, the son of a factory director, he suddenly drops out. But not from socialism per se just from conformity, picky regulations, and official disapproval of jeans, the blues, and girls. Hiding out, he finds and devours an old copy of The Sufferings of Young Werther. From then on he wards off reality with Goethe texts, and young Wibeaus fate is superimposed on that of Werther like a transparent overlay. It is an ironic and revealing linkage.
