MLA Handbook for Writers of Research Papers- 2009-01-01 Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation. Publication Manual of the American Psychological Association- 2013 With millions of copies sold, the Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, educators, and professionals in psychology, sociology, business, economics, nursing, social work, and justice administration, and other disciplines in which effective communication with words and data is fundamental. In addition to providing clear guidance on grammar, the mechanics of writing, and APA style, the Publication Manual offers an authoritative and easy-to-use reference and citation system and comprehensive coverage of the treatment of numbers, metrication, statistical and mathematical data, tables, and figures for use in writing, reports, or presentations. The new edition has been revised and updated to include: The latest guidelines and examples for referencing electronic and online sources; New and revised guidelines for submitting papers electronically; Improved guidelines for avoiding plagiarism; Simplified formatting guidelines for writers using up-to-date word-processing software; All new guidelines for presenting case studies; Improved guidelines for the construction of tables; Updates on copyright and permissions issues for writers. New reference examples for audiovisual media and patents; An expanded and improved index for quick and easy access; Writers, scholars, and professionals will also find: New guidelines on how to choose text, tables, or figures to present data; Guidelines for writing cover letters for submitting articles for publication, plus a sample letter; Expanded guidelines on the retention of raw data; New advice on establishing written agreements for the use of shared data; New information on the responsibilities of co-authors.--From the publisher. Writing Your Journal Article in Twelve Weeks-Wendy Laura Belcher 2009-01-21 `A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of Writing Your Dissertation in Fifteen Minutes a Day `Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles. Where the Wild Things Are-Maurice Sendak 1988-11-09 Max is sent to bed without supper and imagines sailing away to the land of Wild Things,where he is made king. Winner, 1964 Caldecott Medal Notable Children's Books of 1940–1970 (ALA) 1981 Boston Globe–Horn Book Award for Illustration 1963, 1982 Fanfare Honor List (The Horn Book) Best Illustrated Children's Books of 1963, 1982 (NYT) A Reading Rainbow Selection 1964 Lewis Carroll Shelf Award Children's Books of 1981 (Library of Congress) 1981 Children's Books (NY Public Library) 100 Books for Reading and Sharing 1988 (NY Public Library) Legal Skills-Emily Finch 2019-05-31 The best-selling legal skills textbook in the market, Legal Skills is the essential guide for law students, encompassing all the academic and practical skills in one manageable volume. It is an ideal text for students new to law, helping them make the transition from secondary education and giving them the skills they need to succeed from the beginning of their degree, through exams and assessments and into their future career. The first part covers 'Sources of Law' and includes information on finding and using legislation, ensuring an understanding of where the law comes from and how to use it. The second part covers 'Academic Legal Skills' and provides advice on general study and writing skills. This part also includes a section on referencing and avoiding plagiarism amongst a number of other chapters designed to help students through the different stages of the law degree. The third and final part is dedicated to 'Practical Legal Skills', a section designed to help develop transferable skills in areas such as presentations and negotiations that will be highly valued by future employers. The text contains many useful features designed to support a truly practical and self-reflective approach to legal skills including self-test questions, diagrams and practical activities. Students are given the opportunity to take a 'hands on' approach to tackling a variety of legal skills from using cases to negotiation. Each skill is firmly set in its wider academic and professional context to encourage an integrated approach to the learning of legal skills. Online resources -For lecturers, a bank of multiple choice questions and diagrams from the book -For students, answers to the self-test questions and practical exercises from the book and a glossary of all the keywords and terms used within the text. There is also an extensive range of videos with guidance on topics from what to expect from lectures and tutorials, how to research for essays and structure problem questions, to examples of good and bad practice in mooting and negotiations. The Maltreatment of Children-S.M. Smith 2012-12-06 The maltreatment of children is an issue that has always been with us and civilized societies provide a range of services both social and medical to care for the children and families afflicted. In recent years, greater attention has been drawn to the medical aspects by competent authorities in the fields of forensic medicine, forensic psychiatry, epidemiological psychiatry, child psychiatry and family psychiatry; as well as the social aspects by those child welfare and child care agencies who have the difficult and distasteful task of removing children, with the help of the courts, from parents who can abuse them and are not able to care for them adequately. A multitude of social agencies, whose range of ac tivities involve both the care and, where possible, the social betterment of afflicted families are now involved. Not least in importance is an increase in our global knowledge to help in the prevention or better treatment of these problems. This means more informa tion on familial and genetic factors in human central nervous system develop ment in its broadest sense. This would include how the central nervous system originates, mediates and controls the build up, speed of development and im pulsive release, mastery and direction of aggressive drives and impulses. Very little is so far known about these factors. Fossils, Finches, and Fuegians-Richard Keynes 2003-04-17 When Charles Darwin, then age 22, first saw the HMS Beagle, he thought it looked "more like a wreck than a vessel commissioned to go round the world." But travel around the world it did, taking Darwin to South America, Australia, New Zealand, Tahiti, and of course the Galapagos Islands, in a journey of discovery that lasted almost five years. Now, in Fossils, Finches and Fuegians, Richard Keynes, Darwin's great grandson, offers the first modern full-length account of Darwin's epoch-making expedition. This was the great adventure of Charles Darwin's life. Indeed, it would have been a great adventure for anyone--tracking condor in Chile, surviving the great earthquake of 1835, riding across country on horseback in the company of gauchos, watching whales leaping skyward off Tierra del Fuego, hunting ostriches with a bolo, discovering prehistoric fossils and previously unknown species, and meeting primitive peoples such as the Fuegians. Keynes captures many of the natural wonders that Darwin witnessed, including an incredible swarm of butterflies a mile wide and ten miles long. Keynes also illuminates Darwin's scientific work--his important findings in geology and biology--and traces the slow revolution in Darwin's thought about species and how they might evolve. Numerous illustrations--mostly by artists who traveled with Darwin on the Beagle--grace the pages, including finely rendered drawings of many points of interest discussed in the book. There has probably been no greater or more important scientific expedition than Darwin's voyage on the Beagle. Packed with colorful details of life aboard ship and in the wild, here is a fascinating portrait of Charles Darwin and of 19th century science. Into the Wild-Jon Krakauer 2009-09-22 In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and , unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interst that borders on obsession, he searches for the clues to the dries and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity , and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page. From the Trade Paperback edition. The Phantom Tollbooth-Norton Juster 1996 A journey through a land where Milo learns the importance of words and numbers provides a cure for his boredom. Psychopathology of Everyday Life-Sigmund Freud 1915 Freud developed his system of psychoanalysis while studying the so-called borderline cases of mental diseases, such as hysteria and compulsion neurosis. By discarding the old methods of treatment and strictly applying himself to a study of the patient's life he discovered that the hitherto puzzling symptoms had a definite meaning, and that there was nothing arbitrary in any morbid manifestation. Psychoanalysis always showed that they referred to some definite problem or conflict of the person concerned. It was while tracing back the abnormal to the normal state that Freud found how faint the line of demarcation was between the normal and neurotic person, and that the psychopathologic mechanisms so glaringly observed in the psychoneuroses and psychoses could usually be demonstrated in a lesser degree in normal persons. This led to a study of the faulty actions of everyday life and later to the publication of the current text, a book which passed through four editions in Germany and is considered the author's most popular work. With great ingenuity and penetration the author throws much light on the complex problems of human behaviour, and clearly demonstrates that the hitherto considered impassable gap between normal and abnormal mental states is more apparent than real. (PscINFO Database Record (c) 2004 APA, all rights reserved). The Interior Design Reference & Specification Book-Linda O'Shea 2013-07-01 DIV In the world of interior design, thousands of bits of crucial information are scattered across a wide array of sources. The Interior Design Reference & Specification Book collects the information essential to planning and executing interior projects of all shapes and sizes, and distills it in a format that is as easy to use as it is to carry. You'll also find interviews with top practitioners drawn across the field of interior design. —Fundamentals provides a step-by-step overview of an interiors project, describing the scope of professional services, the project schedule, and the design and presentation tools used by designers. —Space examines ways of composing rooms as spatial environments while speaking to functional and life-safety concerns. —Surface identifies options in color, material, texture, and pattern, while addressing maintenance and performance issues. —Environments looks at aspects of interior design that help create a specific mood or character, such as natural and artificial lighting, sound and smell. —Elements describes the selection and specification of furniture and fixtures, as well as other components essential to an interior environment, such as artwork and accessories. —Resources gathers a wealth of useful data, from sustainability guidelines to online sources for interiors-related research. /div The Natural Speaker-Randy Fujishin 2018-04-27 The Natural Speaker is a friendly step-by-step guide to public speaking that explores the fundamental skills necessary to present a natural, and rewarding speech to any audience. By providing an overview of speech construction, practice, and delivery, this book is designed to enhance and improve upon students' natural strengths. Featuring a warm, and humorous writing style, The Natural Speaker illustrates the concepts and skills required for enjoyable public speaking, and Randy Fujishin invites readers to view speaking as a life-long journey. This ninth edition has been updated throughout to reflect the integration of online media in public speaking today—with sections on digital visual aids, digital note taking, and speaking on YouTube—and now features guidance on speaking to multicultural audiences. Jonathan Livingston Seagull-Richard Bach 2014-10-21 "Includes the rediscovered part four"--Cover. The Routledge Companion to Critical and Cultural Theory-Paul Wake 2013-06-19 Now in a fully updated second edition The Routledge Companion to Critical and Cultural Theory is an indispensable guide for anyone approaching the field for the first time. Exploring ideas from a diverse range of disciplines through a series of 11 critical essays and a dictionary of key names and terms, this book examines some of the most complex and fundamental theories in modern scholarship including: Marxism Trauma Theory Ecocriticism Psychoanalysis Feminism Posthumanism Gender and Queer Theory Structuralism Narrative Postcolonialism Deconstruction Postmodernism With three new essays, an updated introduction, further reading and a wealth of new dictionary entries, this text is an indispensable guide for all students of the theoretically informed arts, humanities and social sciences. Little Book of Psychology-Emily Ralls 2019-06-13 If you want to know your Freud from your Jung and your Milgram from your Maslow, strap in for this whirlwind tour of the highlights of psychology. Including accessible primers on: The early thinkers who contributed to psychological ideas and the birth of modern psychology Famous (and often controversial) experiments and their repercussions What psychology can teach us about memory, language, conformity, reasoning and emotions The ethics of psychological studies Recent developments in the modern fields of evolutionary and cyber psychology. This illuminating little book will introduce you to the key thinkers, themes and theories you need to know to understand how the study of mind and behaviour has sculpted the world we live in and the way we think today. Natural Bridges-Randy Fujishin 2016-06-03 Natural Bridges is a concise, practical, inexpensive, and student-friendly guide to interpersonal communication. This book explores the fundamental principles and skills necessary for effective communication. Building on the theme that our every word and behavior contributes to building a bridge or a barrier in our daily interactions with others, Natural Bridges provides students with concepts and real-world guidelines for productive communication with acquaintances, friends, family-members, romantic partners, and co-workers. Ultimate Paranormal Guide-Edward W. Krietemeyer 2013-12 Today the entire world is at our fingertips, not too long ago libraries, and the knowledge inside books were our only source. Now we can carry the entire library, and more in a tablet lighter, and smaller than a single book. We have the tendency to rely entirely on our computers as our only source of knowledge; we take for granted that there will be electrical power as needed, and spoiled by the ease and availability of Wi-Fi or Wi-MAX wherever we go connecting our devices to the world. While doing research in the field, we are sometimes at locations where power is at a premium, or does not exist at all; then you have questionable or unreliable cellphone service without reliable power those devices are useless, and inevitably start to shut down. In these situations its time to break out the pencil and paper. This book contains paranormal terminology from different fields, historical facts, people and events for research and educational purposes. ISR created this book as a handy quick pocket reference guide when doing research in the field. If you needed one book to take with you that would come in handy in the middle of nowhere, this would be that book. Research Like a Librarian-Lauren Pressley 2013-01-01 Information literacy textbook. Poststructuralism: A Very Short Introduction-Catherine Belsey 2002-08-22 Poststructuralism changes the way we understand the relations between human beings, their culture, and the world. Following a brief account of the historical relationship between structuralism and poststructuralism, this Very Short Introduction traces the key arguments that have led poststructuralists to challenge traditional theories of language and culture. Whilst the author discusses such well-known figures as Barthes, Foucault, Derrida, and Lacan, she also draws pertinent examples from literature, art, film, and popular culture, unfolding the poststructuralist account of what it means to be a human being. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. The Indigo Book-Christopher Jon Sprigman 2016-05-02 This public domain book is an open and compatible implementation of the Uniform System of Citation.

Beyond Common Sense-Eugene Borgida 2008-04-30 Beyond Common Sense addresses the many important and controversial issues that arise from the use of psychological and social science in the courtroom. Each chapter identifies areas of scientific agreement and disagreement, and discusses how psychological science advances our understanding of human behavior beyond common sense. Features original chapters written by some of the leading experts in the field of psychology and law including Elizabeth Loftus, Saul Kassin, Faye Crosby, Alice Eagly, Gary Wells, Louise Fitzgerald, Craig Anderson, and Phoebe Ellsworth The 14 issues addressed include eyewitness identification, gender stereotypes, repressed memories, Affirmative Action and the death penalty Commentaries written by leading social science and law scholars discuss key legal and scientific themes that emerge from the science chapters and illustrate how psychological science is or can be used in the courts Concise Guide to APA Style-American Psychological Association 2019-12 Designed specifically for undergraduate writing, this easy-to-use pocket guide provides complete guidance for new writers on effective, clear, and inclusive scholarly communication and the essentials of formatting papers and other course assignments.

History Is a Contemporary Literature-Ivan Jablonka 2018-05-15 Ivan Jablonka's History Is a Contemporary Literature offers highly innovative perspectives on the writing of history, the relationship between literature and the social sciences, and the way that both social-scientific inquiry and literary explorations contribute to our understanding of the world. Jablonka argues that the act and art of writing, far from being an afterthought in the social sciences, should play a vital role in the production of knowledge in all stages of the researcher's work and embody or even constitute the understanding obtained. History (along with sociology and anthropology) can, he contends, achieve both greater rigor and wider audiences by creating a literary experience through a broad spectrum of narrative modes. Challenging scholars to adopt investigative, testimonial, and other experimental writing techniques as a way of creating and sharing knowledge, Jablonka envisions a social science literature that will inspire readers to become actively engaged in understanding their own pasts and to relate their histories to the present day. Lamenting the specialization that has isolated the academy from the rest of society, History Is a Contemporary Literature aims to bring imagination and audacity into the practice of scholarship, drawing on the techniques of literature to strengthen the methods of the social sciences.

Things Fall Apart-Chinua Achebe 2013-04-25 One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, Things Fall Apart is the compelling story of one man's battle to protect his community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease. 'His courage and generosity are made manifest in the work' Toni Morrison 'The writer in whose company the prison walls fell down' Nelson Mandela 'A great book, that bespeaks a great, brave, kind, human spirit' John Updike With an Introduction by Biyi Bandele Questions and Answers on Death and Dying-Elisabeth Kübler-Ross 2011-07-26 On Death and Dying is one of the most important books ever written on the subject and is still considered the bench-mark in the care of the dying. It became an immediate bestseller, and Life magazine called it "a profound lesson for the living." This companion volume consists of the questions that are most frequently asked of Dr. Kübler-Ross and her compassionate answers. She discusses accepting the end of life, suicide, terminal illness, euthanasia, how to tell a patient he or she is critically ill, and how to deal with all the special difficulties surrounding death. Questions and Answers on Death and Dying is a vital resource for doctors, nurses, members of the clergy, social workers, and lay people dealing with death and dying.

AIDS-Elisabeth Kübler-Ross 2011-07-19 AIDS "None of us is so unique as to be exempt from the human condition." As the numbers of reported AIDS cases continue to climb, and the disease continues to take more and more lives, those who have to deal with the complexities of this problem continue to ask: "How do we care for these terminally ill?" Using letters from patients, questions and answers between patient and doctor, and other compassionate tools, Dr. Elisabeth Kübler-Ross, the world's foremost expert on death and dying, shows us how to comfort the seriously ill and help AIDS patients through the critical "stages of dying" She addresses the stigma surrounding AIDS as a "gay disease" and makes a special plea for prisoners with AIDS, for women and children with AIDS, and for babies with AIDS. This remarkable book is warm and informative on one of the most important subjects of our time.

The History and Adventures of the Renowned Don Quixote,3-Miguel de Cervantes Saavedra 1803

Thailand-Maurizio Peleggi 2007-05-30 Tourist brochures and travel guides depict Thailand as an exotic country with a rich cultural heritage, strong religious traditions, and a popular monarchy. Historians also contribute to Thailand's international allure with chronicles of its unique historical and cultural continuity in comparison to the other southeast Asian countries, whose histories are stained by colonialism and nationalist struggles for independence. Thailand challenges these stereotypes with a reinterpretation as well as an introduction to the emergence of Thailand as a nation-state. The book argues that the development of Thai nationhood was a long-term process shaped by interactions with the outside world, its pursuit of civilization, and, more recently, globalization. Maurizio Peleggi's original account investigates, among other issues, the evolution of the geographical and linguistic landscapes, changes in class and gender relations, the role of institutions and ideologies, modern cultural expressions, social memory, and the conception of the Thai national self as contrasted against the racial and cultural Others of Burmese, Chinese and Westerners. Thailandis a concise and compelling introduction to the complexities that lie behind Thailand's exotic facade.

The Handbook of Forensic Psychology-Irving B. Weiner 2013-12-16 A revised new edition of one of the top references for forensic psychologists This top professional and academic reference in forensic psychology is an established presence as both a professional reference and graduate text. This Fourth Edition is completely revised and updated for the new and rapidly growing demands of the field to reflect the new tools available to, and functions required of, present-day practitioners. The new edition expands coverage of neuropsychological assessment, eyewitness testimony, ad jury competence and decision-making, including selection, process and authority. In addition, the new ethics guidelines approved by the American Psychological Association (APA) are included and interpreted. Updated to include reframed content and the introduction of new chapter topics and authors Ideal for professional forensic psychologists and graduate students Written by experts in the field, a clinical professor of psychiatry and an associate professor of mental health policy

Dutch: A Comprehensive Grammar-Bruce Donaldson 2008-06-17 Dutch: A Comprehensive Grammar is a complete reference guide to modern Dutch grammar. This completely updated new edition covers the new spelling system introduced in 1997 and the latest reform of 2005. A new section covers modal particles. Concentrating on the real patterns of use in modern Dutch through lively and accessible descriptions of the language, the Grammar is an essential reference source for the learner of Dutch, irrespective of level. It is ideal for use in schools, colleges, universities and adult classes of all types as well as being indispensable to those teaching themselves. The volume is organized to promote a thorough understanding of Dutch grammar. It offers a stimulating analysis of the complexities of the language, and provides full and clear explanations. Throughout, the emphasis is on Dutch as used by present-day native-speakers. An extensive index and numbered paragraphs provide readers with easy access to the information they require. Features include: • detailed treatment of the common grammatical structures and parts of speech • extensive exemplification • particular attention to areas of confusion and difficulty • Dutch-English parallels highlighted throughout the book

MHRA Style Guide-Modern Humanities Research Association 2002

This Day in June [eBook - NC Kids Digital Library]-Gayle E. Pitman 2014 "A picture book illustrating a Pride parade. The endmatter serves as a primer on LGBT history and culture and explains the references made in the story"--

Oh, the Places You'll Go! Read & Listen Edition-Dr. Seuss 2013-09-24 A perennial favorite, Dr. Seuss's wonderfully wise graduation speech is the perfect send-off for children starting out in the world, be they nursery school, high school, or college grads! From soaring to high heights and seeing great sights to being left in a Lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and illustrations, while encouraging readers to find the success that lies within. In a starred review, Booklist notes: "Seuss's message is simple but never sappy: life may be a 'Great Balancing Act,' but through it all 'There's fun to be done.'" This Read & Listen edition contains audio narration.

The Post-Traumatic Stress Disorder Sourcebook-Glenn Schiraldi 2009-03-27 The Definitive Resource for Trauma Survivors, Their Loved Ones, and Helpers Trauma can take many forms, from witnessing a violent crime or surviving a natural disaster to living with the effects of abuse, rape, combat, or alcoholism. Deep emotional wounds may seem like they will never heal. However, with The Post-Traumatic Stress Disorder Sourcebook, Dr. Glenn Schiraldi offers a remarkable range of treatment alternatives and self-management techniques, showing survivors that the other side of pain is recovery and growth. Live your life more fully-without fear, pain, depression, or self-doubt Identify emotional triggers-and protect yourself from further harm Understand the link between PTSD and addiction-and how to break it Find the best treatments and techniques that are right for you This updated edition covers new information for war veterans and survivors with substance addictions. It also explores mindfulness-based treatments, couples strategies, medical aids, and other important treatment innovations.

The Wishing Seed-Anna Branford 2017-09 Lily's dress-up crown is broken. So she wishes on a dandelion seed for a real princess crown. Will her wish come true?

Lolita-Vladimir Vladimirovich Nabokov 1958 (Book Jacket Status: Jacketed)When it was published in 1955, "Lolita" immediately became a cause célèbre because of the freedom and sophistication with which it handled the unusual erotic predilections of its protagonist. But Vladimir Nabokov's wise, ironic, elegant masterpiece owes its stature as one of the twentieth century's novels of record not to the controversy its material aroused but to its author's use of that material to tell a love story almost shocking in its beauty and tenderness. Awe and exhilaration-along with heartbreak and mordant wit-abound in this account of the aging Humbert Humbert's obsessive, devouring, and doomed passion for the nymphet Dolores Haze. Lolita is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America, but most of all, it is a meditation on love-love as outrage and hallucination, madness and transformation.With an Introduction by Martin Amis "From the Hardcover edition."

Individual Psychology of Alfred Adler-Alfred Adler 1964-12-30 When we hear such expressions as feelings of inferiority and insecurity, striving for self-enhancement and power, woman's revolt against her feminine role, the oversolicitous mother, the dethronement of the first-born, the need for affection; when maladjustment is spoken of as self-centeredness, psychological health as other-centeredness; psychiatry as the science of interpersonal relations, neurotic symptoms as ego-defenses and forms of aggression, to mention only a few instances—we are meeting ideas in which Alfred Adler was the pioneer from 1907, the date of his first important publication, until his death in 1937. The purpose of the present volume is to make Adler's contributions to the theory and practice of psychology available in a systematic and at the same time authentic form. To this end we made selections from his writ- ings and organized them with the aim of approximating the general presentation of a college textbook. Because every word in the main body of the work is Adler's, the outcome of our efforts, if we have been successful, should be the equivalent of a textbook by Adler on Individual Psychology, the name which he gave to his system.

Alexander the Great-Richard Stoneman 2010 History.

Computer Vision- 2014-04-22 This comprehensive reference provides easy access to relevant information on all aspects of Computer Vision. An A-Z format of over 240 entries offers a diverse range of topics for those seeking entry into any aspect within the broad field of Computer Vision. Over 200 Authors from both industry and academia contributed to this volume. Each entry includes synonyms, a definition and discussion of the topic, and a robust bibliography. Extensive cross-references to other entries support efficient, user-friendly searches for immediate access to relevant information. Entries were peer-reviewed by a distinguished international advisory board, both scientifically and geographically diverse, ensuring balanced coverage. Over 3700 bibliographic references for further reading enable deeper exploration into any of the topics covered. The content of Computer Vision: A Reference Guide is expository and tutorial, making the book a practical resource for students who are considering entering the field, as well as professionals in other fields who need to access this vital information but may not have the time to work their way through an entire text on their topic of interest.
