From New York Times bestselling author, Rebecca Zanetti, comes three stories in her Dark Protectors—Reese Family series... TEASED
For almost a century, the Realm's most deadly assassin, Chalton Reese, has left war and death in the past, turning instead to strategy, reason, and technology. His fingers, still stained with blood, now protect with a keyboard instead of a weapon. Until the vampire king sends him on one more mission; to hunt down a human female with the knowledge to destroy the Realm. A woman with eyes like emeralds, a brain to match his own, and a passion that might destroy them both—if the enemy on their heels doesn't do so first. Olivia Roberts has foregone relationships with wimpy metro-sexuals in favor of pursuing a good story, bound and determined to uncover the truth, any truth. When her instincts start humming about missing proprietary information, she has no idea her search for a story will lead her to a ripped, sexy, and dangerous male beyond any human man. Setting aside the unbelievable fact that he's a vampire and she's his prey, she discovers that trusting him is the only chance they have to survive the danger stalking them both. TRICKED
Former police psychologist Ronni Alexander had it all before a poison attacked her heart and gave her a death sentence. Now, on her last leg, she has an opportunity to live if she mates a vampire. A real vampire. One night of sex and a good bite, and she'd live forever with no more weaknesses. Well, except for the vampire whose dominance is over the top, and who has no clue how to deal with a modern woman who can take care of herself. Jared Reese, who has no intention of ever mating for anything other than convenience, agrees to help out his new sister in law by saving her friend's life with a quick tussle in bed. The plan seems so simple. They'd mate, and he move on with his life and take risks as a modern pirate should. Except after one night with Ronni, one moment of her sighing his name, and he wants more than a mating of convenience. Now all he has to do is convince Ronni she wants the same thing. Good thing he's up for a good battle. TANGLED
Ginny O'Toole has spent a lifetime repaying her family's debt, and she's finally at the end of her servitude with one last job. Of course, it couldn't be easy. After stealing the computer files that will free her once and for all, she finds herself on the run from a pissed off vampire who has never fallen for her helpless act. A deadly predator too sexy for his own good. If he doesn't knock it off, he's going to see just how powerful she can really be. Theo Reese had been more than irritated at the beautiful yet helpless witch he'd known a century ago, thinking she was just useless fluff who enjoyed messing with men's heads. The second he discovers she's a ruthless thief determined to bring down his family, his blood burns and his interest peaks, sending his true nature into hunting mode. When he finds her, and he will, she'll understand the real meaning of helpless. **Every 1001 Dark Nights novella is a standalone story. For new readers, it's an introduction to an author's world. Duty—or desire?
Vampire soldier Adare O'Ceairbhall's default setting is cranky. Or irritated. Or down-right hostile. The Past Never Stays
Buried Anna Albertini is settling into a routine while ignoring the fact that the blue-eyed Irishman she'd allowed into her bed has up and disappeared on her. Two weeks without a phone call is no big deal, but still. With her hottie Italian boss goofing up the prosecuting attorney's office, she at least has something to fix. Until she appears in court, across from her sister Tessa's dirtbag ex. Then she has a mission. Unfortunately, Anna isn't the only person who wants the ex put behind bars...or in the ground. Which is not a problem until she and a local cop find the ex-boyfriend deader than dead...with both her sister and Aiden standing over the body. As a prosecuting attorney, it's Anna's job to build a case against Tessa and Aiden. As a sister, it's SO her job to get Tess out of this mess. As Aiden's...what? Lover—girlfriend—friend from the past—it's Anna's job to figure out who the heck he really is. She has to dig out the truth, regardless of her ambitious boss or the cranky cop trying to thwart her every move. Sometimes a woman has to take matters into her own hands, regardless of the consequences.

Bullets and Kisses Can Burn
The last person Anna Albertini expects to see in an orange jumpsuit in District Court—a place she SO doesn't belong as a new prosecuting attorney—is Aiden Devlin, the man who'd saved her life when they were kids. For years, she has dreamed about him. Now here he is—his eyes blue, his chest wide, and his hands in cuffs. Sure, Aiden says he doesn't want her help, and his ties to a deadly motorcycle club should give her warning. Yes, her new boss is a sexy Italian bad boy who might be using the case to climb to the top. Plus, the detective assigned to the case, with his green eyes and broad shoulders, wants her to stay out of his way. With so much testosterone surrounding her all of a sudden, most women would find it hard to concentrate. This might be why the case leads Anna to yelp during a spa appointment, fall out of a tree, and chase a naked old man around the courtroom. It's a good thing Anna learned a long time ago to be her own hero, no matter how fast the bullets fly or the kisses consume.

the top of the list of alpha male ass-kickers. And he knows exactly what Sarah's up against. The Demon-Haunted World-Carl Sagan 2011-07-06 A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought." —Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for The Demon-Haunted World "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle
