Learning Targets-Connie M. Moss 2012-07-02 In Learning Targets, Connie M. Moss and Susan M. Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson--what they call "today's lesson"--or it doesn't happen at all. The key to making today's lesson meaningful? Learning targets. Written from students' point of view, a learning target describes a lesson-sized chunk of information and skills that students will come to know deeply. Each lesson's learning target connects to the next lesson's target, enabling students to master a coherent series of challenges that ultimately lead to important curricular standards. Drawing from the authors' extensive research and professional learning partnerships with classrooms, schools, and school districts, this practical book - Situates learning targets in a theory of action that students, teachers, principals, and central-office administrators can use to unify their efforts to raise student achievement and create a culture of evidence-based, results-oriented practice. - Provides strategies for designing learning targets that promote higher-order thinking and foster student goal setting, self-assessment, and self-regulation. - Explains how to design a strong performance of understanding, an activity that produces evidence of students' progress toward the learning target. - Shows how to use learning targets to guide summative assessment and grading. Learning Targets also includes reproducible planning forms, a classroom walk-through guide, a lesson-planning process guide, and guides to teacher and student self-assessment. What students are actually doing during today's lesson is both the source of and the yardstick for school improvement efforts. By applying the insights in this book to your own work, you can improve your teaching expertise and dramatically empower all students as stakeholders in their own learning.

Ishi's Brain: In Search of Americas Last "Wild" Indian-Orin Starn 2005-06-17 From the mountains of California to a forgotten steel vat at the Smithsonian, this "eloquent and soul-searching book" (Lit) is "a compelling account of one of American anthropology's strangest, saddest chapters" (Archaeology). After the Yahi were massacred in the mid-nineteenth century, Ishi survived alone for decades in the mountains of northern California, wearing skins and hunting with bow and arrow. His capture in 1911 made him a national sensation; anthropologist Alfred Kroeber declared him the world's most "uncivilized" man and made Ishi a living exhibit in his museum. Thousands came to see the displaced Indian before his death, of tuberculosis. Ishi's Brain follows Orin Starn's gripping quest for the remains of the last of the Yahi.

Slide-Jill Hathaway 2012-03-27 Vee Bell is certain of one irrefutable truth—her sister's friend Sophie didn't kill herself. She was murdered. Vee knows this because she was there. Everyone believes Vee is narcoleptic, but she doesn't actually fall asleep during these episodes: When she passes out, she slides into somebody else's mind and experiences the world through that person's eyes. She's slid into her sister as she cheated on a math test, into a teacher sneaking a drink before class. She learned the worst about a supposed "friend" when she slid into her during a school dance. But nothing could have prepared Vee for what happens one October night when she slides into the mind of someone holding a bloody knife, standing over Sophie's slashed body. Vee desperately wishes she could share her secret, but who would believe her? It sounds so crazy that she can't bring herself to tell her best friend, Rollins, let alone the police. Even if she could confide in Rollins, he has been acting distant lately, especially now that she's been spending more time with Zane. Enmeshed in a terrifying web of secrets, lies, and danger and with no one to turn to, Vee must find a way to unmask the killer before he or she strikes again.

Lila-Marilynne Robinson 2014-10-07 Winner of the National Book Critics Circle Award National Book Award Finalist A new American classic from the Pulitzer Prize-winning author of Gilead and Housekeeping Marilynne Robinson, one of the greatest novelists of our time, returns to the town of Gilead in an unforgettable story of a girlhood lived on the fringes of society in fear, awe, and wonder. Lila, homeless and alone after years of roaming the countryside, steps inside a small-town Iowa church—the only available shelter from the rain—and ignites a romance and a debate that will reshape her life. She becomes the wife of a minister, John Ames, and begins a new existence while trying to make sense of the life that preceded her newfound security. Neglected as a toddler, Lila was rescued by Doll, a canny young drifter, and brought up by her in a hardscrabble childhood. Together they crafted a life on the run, living hand to mouth with nothing but their sisterly bond and a ragged blade to protect them. Despite bouts of petty violence and moments of desperation, their shared life was laced with moments of joy and love. When Lila arrives in Gilead, she struggles to reconcile the life of her makeshift family and their days of hardship with the gentle Christian worldview of her husband which paradoxically judges those she loves. Revisiting the beloved characters and setting of Robinson's Pulitzer Prize-winning Gilead and Home, a National Book Award finalist, Lila is a moving expression of the mysteries of existence that is destined to become an American classic.

The Landmark Julius Caesar-Kurt A. Raaflaub 2019-01-29 Between 58 and 50 B.C., Caesar led his army to twice invade Britain and conquer most of the land that is now France, Belgium, and Switzerland. The Gallic Wars served two purposes- to offer a record of Caesar's travels and insights into his military strategies, and to present the Roman public with a portrait of Caesar as a compelling, effective leader-which would be a key part of his public image as he fought off his rivals for control of the empire. Caesar chronicles his struggle to rule in The Civil Wars, from his crossing of the Rubicon in 49 B.C. through the death of his chief rival, Pompey, and the ongoing efforts of Pompey's heirs and

followers to remove Caesar from power. As with the other volumes in the Landmark series, this edition-edited by Robert B. Strassler and Kurt A. Raaflaub-supplements the text with detailed maps, images, and annotations to place the work in historical and political context. And with stunning endpapers and color illustrations, this beautifully produced, large-format paperback makes a terrific gift for history buffs and fans of the classics.
