Rantoul and Chanute Air Force Base-Mark D. Hanson 2011-04-18 Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative. Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between these civilian and military establishments that would last for over 75 years. Chanute Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

Building Bamboo Fences-Isao Yoshikawa 2001 This book includes designs of traditional Japanese bamboo fences, as well as diagrams illustrating the basic techniques of crreating a fence including splitting bending, joining and tying bamboo. Paired with ste-by-step instructions, these designs will prove the perfect starting point for those who aspire to become a professional garden designer.

Asia-Pacific Conference on Science and Management of Coastal Environment-Yuk-Shan Wong 1997-11-30 Human beings have a long historical relationship with the coast. Initially it provided food and security, later forming important locations for industrial and commercial development. Now the emphasis has shifted towards leisure and conservation, although the former functions remain crucial. However, it is only very recently that people have started viewing the coast as a common and valuable resource that requires rational utilisation and scientific management in order to sustain its attractiveness. Of course, enlightened management comes only through understanding of the complicated coastal regions, which enables coastal managers to balance pressures from different sectors

and to minimize risks. Scientific knowledge will continue to be the most important basis for resolving the conflicts between coastal users and interest groups such as developers and ecologists. Coastal management has also shifted from traditional restorative or remedial actions towards planned avoidance of other conflicts. Despite rapid advancement in coastal sciences over recent decades, most of the major coastal issues have remained outstanding in the agenda. Control of shoreline erosion and protecting sea level rise continue to be crucial problems facing coastal scientists. Destructive coastal storms still cause tremendous damage, particularly in low altitudes. Wetland and estuary reclamation have led to the loss of the most valuable estuary wetlands which are required to sustain biological productivity and biodiversity. This volume includes papers on marine and coastal pollution, eutrophication, aquaculture, conservation and utilization, coastal wetlands, and coastal zone management.

Aerospace Marketing Management-Philippe Malaval 2013-11-12 This book presents an overall picture of both B2B and B2C marketing strategies, concepts and tools, in the aeronautics sector. This is a significant update to an earlier book successfully published in the nineties which was released in Europe, China, and the USA. It addresses the most recent trends such as Social Marketing and the internet, Customer Orientation, Project Marketing and Concurrent Engineering, Coopetition, and Extended Enterprise. Aerospace Marketing Management is the first marketing handbook richly illustrated with executive and expert inputs as well as examples from parts suppliers, aircraft builders, airlines, helicopter manufacturers, aeronautics service providers, airports, defence and military companies, and industrial integrators (tier-1, tier-2). This book is designed as a ready reference for professionals and graduates from both Engineering and Business Schools.

Motorized Obsessions-Paul R. Josephson 2007-08-22 From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Motorcycle Workshop Practice Techbook-John Haynes 2016-10-03 Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

Strange Bedfellows-Jeff Gelb 2004 The latest in the Hot Blood series is a collection of terrifying and titillating stories by authors who embrace the seductive side of horror--where what happens in the dark stays in the dark.

Sweet Dreams, Moon Baby-Elly Sienkiewicz 2003 The author used her applique expertise to create the Moon Baby and its supporting cast of sweet block designs like Wee Babe, Sleepy Star, and Smiling Sun. The six dreamy baby projects include the Moon Baby quilt, Golden Slumbers wall hanging and a mobile.

Dr. Breeding-J. Grayson 2015-03-27 Unable to conceive, Julia and Gavin Jones head to Hope Infertility Clinic. The couple is put through a series of embarrassing exams, testing the limit of their libidos. After receiving the results, Mr. Jones is outraged at the fault being his. Having once suffered a fate of infertility himself, Dr. Raymond Breeding has dedicated his life to the world of conception. If anyone can cure the couples' ailment, it's him. However, the closer he examines the female patient, the heavier his heart grows. Removing Gavin from the equation, he decides to cure her with an injection of his own. Warning: This 14,000 word story contains graphic language, erotic situations, medical exam, doctor/patient play, medical instruments, breeding, light bondage, oral sex, straight sex, bareback sex, anal sex, voyeurism, domination, submission, humiliation and is a story for adults (18+)

Biodegradative Bacteria-Hideaki Nojiri 2013-11-01 Biodegradative Bacteria highlights the novel nature of bacterial cell functions in the field of biodegradation by putting them into three parts: (1) Genetic and genomic systems, (2) Degradative enzyme systems, and (3) Bacterial behavior in natural environmental

systems. The first part of the book includes cell functions as degradative machinery, genome systems for effective degradation, and the evolution of degradative systems by mobile genetic elements. The second part deals with the structure, function, evolution, diversity, and application of degradative and related enzymes. The third part presents cell or genomic behaviors of biodegradative bacteria in natural ecosystems. Bacterial metabolic capacity, which plays an important role in the global material cycle, contributes significantly to the buffering capacity for the huge and unintended release of various chemicals. Recently, however, the prosperity and globalization of material civilization has led not only to severe local contamination by hazardous chemicals, but also to continuous increment of contaminant concentrations worldwide. To solve such urgent global issues, bacterial functions that are involved in biodegradation of hazardous chemicals have been analyzed. The term "biodegradative bacteria" refers to those bacteria that have the ability to degrade such xenobiotic (man-made) and/or hazardous chemicals. Analyses of biodegradative bacteria include diverse areas of study, such as genetics, enzymology, genomics, cell physiology, ecology, and evolutionary biology. In other words, the targets investigated in research on biodegradative bacteria include single molecules, single cell systems, bacterial consortia (interaction with surrounding microorganisms), and interaction with surrounding biotic and abiotic materials. Such complexity makes the research on biodegradative bacteria difficult but quite interesting.

Principles of Molecular Virology (Standard Edition)-Alan J. Cann 2001-03-01 Principles of Molecular Virology, Third Edition provides an essential introduction to modern virology in a clear and concise manner. It is a highly enjoyable and readable text with numerous illustrations that enhance the reader's understanding of important principles. This edition has been updated and revised with new figures and text. New to the Third Edition: Viruses and Apoptosis (Chapter 6) Bacteriophages and Human Disease (Chapter 7) Learning objectives for each chapter Pronunciation section in Glossary and abbreviations section (Appendix 1) Key events in the history of virology (Appendix 3) Addition of colour in text and figures to enhance understanding of key points Also: Self assessment questions at the end of each chapter Classification of Subcellular Infectious agents Approx. 20% new material and completely revised throughout Over 120 figures

Feminism and the Politics of Travel After the Enlightenment-Yaël Rachel Schlick 2012-01 Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert George Sand, Robyn Davidson, and Sara Wheeler.

Twenty Fathoms Down-L. Ron Hubbard 2013-05-17 Daring and defiant there's no stopping diver Hawk Ridley as he takes the plunge into a briny world of untold riches and danger. The Caribbean is a fortune hunter's dream, salted with the gold of galleons long ago claimed by the deep. Now Hawk's headed for the Windward Passage of Haiti to stake his claim. But a rival team has also picked up the scent, and they're willing to turn the sea red with blood to get to the gold first. Fighting off ruthless competitors is nothing new to Hawk ... but fighting off a beautiful woman is a different story. Is she an innocent stowaway or a seductive saboteur? Between the cool millions lying on the bottom of the ocean, and the boiling-hot race to grab it, Hawk's about to find the answer and make a discovery Twenty Fathoms Down that will blow you out of the water. Howling at the Moon-Walter Yetnikoff 2004-03-02 Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got

blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Islam in the West-Max Farrar 2012-06-29 "In recent years the debate on multiculturalism in the UK and other Western societies has focused principally on Islam, and the specific 'problems' said to be posed by Muslims have been invoked to justify the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.

The Art of Assassin's Creed Unity-Andy McVittie 2014-11-11 Presents concept art, scenery landscapes, and character designs of video game "Assassin's Creed Unity."

Stranger by Night-Jeff Gelb 2011-02-23 Beguiling and bewitching stories from Ramsey Campbell, Brian Lumley, Graham Masterton, and others will give you goosebumps—in more ways than one . . . Sex and horror, intertwined since the beginning of the human race, take on all new twists, turns, and contortions in *Stranger by Night*, sixth in the *Hot Blood* erotic horror anthology series—with one of its most illustrious lists of contributors. Two of the United Kingdom's greatest horror writers, Ramsey Campbell and Brian Lumley, both appear. Actress and scream queen Brinke Stevens contributes original fiction. Comics illustrator and TV writer Bruce Jones features in the *Hot Blood* series for the first time, while Graham Masterton returns with another classic. Lucy Taylor and Brian Hodge are among the other brilliant horror writers, eighteen stories in all, that probe every dark desire. The *Heliocentric Net* said, "whatever your tastes, be prepared to be titillated and terrorized," and according to *Deathrealm*, "*Stranger by Night* demonstrates that the *Hot Blood* books haven't lost their steam in any sense of the phrase." Praise for the *Hot Blood* series "Read *Hot Blood* late at night when the wind is blowing hard and the moon is full." —*Playboy* "Outstanding . . . A daring combination of sex and terror." —*Cemetery Dance* "Will appeal to your every kink." —*Locus* "Seek out this one (or its predecessors) for some naughty fun." —*Booklovers*

Raising Dad-Art Rainer 2007-05 The truth that parents learn as much from their children as their children learn from them is poignantly captured in this book by father and son.

The Global Challenge of Marine Biotechnology-Raymond A. Zilinskas 1995 In 1966 Congress passed the National Sea Grant College Program Act to promote marine research, education, and extension services in institutions along the nation's ocean and Great Lakes coasts. In Maryland a Sea Grant Program -- a

partnership among federal and state governments, universities, and industries -- began in 1977, and in 1982 the University of Maryland was named the nation's seventeenth Sea Grant College. The Maryland Sea Grant College focuses its efforts on the Chesapeake Bay, with emphasis on the marine concerns of fisheries, seafood technology, and environmental quality. This report addresses the emerging science and developing technologies encompassed by marine biotechnology. It contains a broad overview of marine biotechnology, sets forth industrial realities, and assesses the future potential of this new field of biotechnology. The report has eight chapters. The first contains a wide range of major scientific achievements in marine biotechnology. The subjects encompassed within marine biotechnology are grouped within six areas: aquaculture, marine animal health, marine natural health, marine natural products, biofilm and bioadhesion in the marine environment, bioremediation, and marine ecology and biological oceanography. The remaining chapters detail an extensive survey and status report on marine biotechnology in the United States, Japan, Australia, and Norway.

Financial and Managerial Accounting Using Excel for Success-James Reeve 2011-04-29 FINANCIAL AND MANAGERIAL ACCOUNTING USING EXCEL FOR SUCCESS leads students to accounting mastery while increasing Excel proficiency. Built with the modern business world in mind, this adaptation of the introductory textbook, FINANCIAL AND MANAGERIAL ACCOUNTING, 11E offers an innovative 4-step system for students to: (1) Read the accounting concept and illustration. (2) Follow the same concept using the Excel Success Example. (3) Practice using the Try It Tutorial online. (4) Apply knowledge by completing the Excel Success problem in the homework. This text reinforces key accounting concepts through 6 basic Excel formulas. Students build an Excel portfolio to demonstrate basic competencies in accounting and Excel. Each new copy of the book comes packaged with an access code that allows students to use the online Excel Try It Tutorials. These tutorials guide students through the hands-on process of entering formulas and understanding how to Excel for accounting. Excel Success Special Activities at the end of the chapter require students to manipulate spreadsheets and save the files to demonstrate Excel competency. Within the auto-graded online homework products (CengageNOW and Aplia), students are asked to document their Excel processes. For a complete demo of the Excel Success system, visit www.cengage.com/community/warren. Handbook of Marine Natural Products-Ernesto Fattorusso 2012-04-21 "Handbook of Marine Natural Products" takes a fresh approach to describing the major themes of research in this rapidly developing field. This two volume reference work begins with a section that provides a taxonomic survey of the secondary metabolites of diverse marine life including microbes, algae, and invertebrates. This is followed by a demonstration of the techniques and strategies employed in modern structure elucidation of complex natural products. The natural roles of marine natural products are then explored in a series of focused chapters which include the topics of symbiosis, anti-predation and antifouling, chemical interactions, and defence against UV stress. Various routes which facilitate the understanding of marine natural product biosynthesis are subsequently explained and these are followed by an extensive set of chapters on the biomedical potential of marine natural products. The latter portion of this section considers the technologies and scientific disciplines necessary for advancing bioactive marine natural product lead compounds into actual pharmaceuticals. The reference work finishes with a selection of chapters describing marine toxins and their impact on public health and seafood resources. Final thoughts presented at the end of the second volume focus on the future of this field of investigation and discovery research. This publication is presented as a reference handbook and general concepts are emphasized and illustrated with numerous interesting examples, graphical information, and a comprehensive index. "Handbook of Marine Natural Products" introduces students who are at advanced undergraduate and entry graduate student levels to this fascinating multidisciplinary field. It is an ideal desk companion for courses focusing on this contemporary area.

Ride Right with Daniel Stewart-Daniel Stewart 2015-07-01 Most riders concentrate endless hours on their horses: warming them up; improving their strength

and stamina with gymnastic exercises; cultivating specialized diets to keep them in peak condition; and ensuring that through proper turn-out, time off, and companionship, they remain psychologically content. What is often forgotten is that the horse is half of an athletic partnership. The rider's own physical and mental fitness affects the end performance of the team, and warming up, conditioning, diet, and psychological stability apply to them as well. This highly illustrated book helps equestrians improve their own bodies and minds on the ground, so they can better perform on a horse.

Marine Auxiliary Machinery-H. D. McGeorge 2013-10-22 Marine Auxiliary Machinery, Seventh Edition is a 16-chapter text that covers the significant advances in marine auxiliary machinery relevant to the certification of competency examinations. The introductory chapters deal with the basic components of marine machineries, such as propulsion system, heat exchanger, valves, and pipelines. The succeeding chapters describe the pumps and pumping system, specifically the tanker and gas carrier cargo pumps. Considerable chapters are devoted to the operation of machinery's major components, including the propeller shaft, steering gear, auxiliary power, bow thrusters, and stabilizers. Other chapters consider the refrigeration, heating, ventilation, and air conditioning systems. The final chapters tackle the safety system of marine auxiliary machinery, particularly the fire protection, safety, instrumentation, and control systems. This book will prove useful to marine and mechanical engineers.

Seafoods: Chemistry, Processing Technology and Quality-Fereidoon Shahidi 2012-12-06 Seafoods are important sources of nutrients for humans. Proteins and non protein nitrogenous compounds play an important role in the nutritional value and sensory quality of seafoods. Consumption of fish and marine oils is also actively encouraged for the prevention and treatment of cardio vascular diseases and rheumatoid arthritis. Highly unsaturated long-chain omega-3 fatty acids are regarded as the active components of marine oils and seafood lipids. The basic chemical and biochemical properties of seafood proteins and lipids, in addition to flavour-active components, their microbiological safety and freshness quality, are important factors to be considered. A presentation of the state-of-the-art research results on seafoods with respect to their chemistry, processing technology and quality in one volume was made possible by cooperative efforts of an international group of experts. Following a brief overview, the book is divided into three sections. In Part 1 (chapters 2 to 8) the chemistry of seafood components such as proteins, lipids, flavorants (together with their properties and nutritional significance) is discussed. Part 2 (chapters 9 to 13) describes the quality of seafoods with respect to their freshness, preservation, micro biological safety and sensory attributes. The final section of the book (chapters 14 to 16) summarizes further processing of raw material, underutilized species and processing discards for production of value added products.

Bible Synopsis-Deep River Books 2014-04-15 Have you ever listened to a sermon at church and felt overwhelmed because you did not understand the biblical references? Do you feel embarrassed because your kids seem to know more about the Bible than you do? Do you struggle to understand what certain books of the Bible are all about? If you answered yes to any of these questions, then Bible Synopsis is for you! Bible Synopsis is a "Reader's Digest" version of the Bible. Each chapter of the Bible is condensed into a clear and concise summary-no "thee's and thou's"-giving you "bottom-line," who-did-what type information. The book follows the same order as the books of the Bible, and includes helpful indexes at the end as well as a summary of important Bible characters. It can be used as an aid in personal or group Bible studies, and a complete CD with richly illustrated PowerPoint slides is available from Dr. Miller's website, Biblesynopsis.com. Bible Synopsis is a must read for anyone desiring to increase their understanding of the Bible. The Word will never be more succinct!

They Killed Our President-Jesse Ventura 2013-10-01 Unless you've been living under a rock for the past fifty years, you're aware of the many hypotheses that the assassination of President John F. Kennedy was not done by one man. Whether you've read one or a dozen of the books on this topic, there's no way to fully grasp the depth of this conspiracy. For the first time ever, New York Times bestselling authors Jesse Ventura and Dick Russell have teamed up with some of the most respected and influential assassination researchers to put together the ultimate compendium that covers every angle—from the plot to the murder—of JFK. They Killed Our President will not only discuss the most famous of theories, but will also bring to light new and recently discovered information, which together shows that the United States government not only was behind this egregious plot, but took every step to make sure that the truth would not come out. With 2013 marking the fiftieth anniversary of JFK's assassination, this is the perfect time for They Killed Our President to be available to readers. The research

and information in this book are unprecedented, and there's nobody better to bring this to everyone's attention than the former governor of Minnesota and US Navy SEAL, Jesse Ventura.

2nd Grade Language Development: Variety of Texts-Janet Palazzo-Craig 2003-12-15 Language Development: Variety of Texts aids students in approaching different types of text, from articles, to fiction, to poetry. Curriculum-correlated activities help learners recognize different writing styles, understand what they are reading, and think critically about writing, and pre- and post-assessments aid teachers in individualizing instruction, diagnosing the areas where students are struggling, and measuring achievement, and support standards.
