The Lost Civilizations of the Stone Age-Richard Rudgley 2000-01-25 A British scholar challenges the conventional view of the Stone Age as minimally civilized, pointing out the many advances of its peoples, from their maps of the constellations to their innovations in boat building. Genesis Quest-Barry Verdi 2014-10-21 Are the stories in Genesis fact, myth, legend, the word of God, philosophy, or something else? Through time, what people think or remember about Genesis has become a mixture of fact and fable. For example, if you were to ask someone what fruit Adam and Eve were tempted by, most people might say, "An apple." If you were to ask what color the apple was, most people might state that they think the fruit was red. Are these actual facts? No, people are simply using artistic imagination. The stories in Genesis are multifaceted oral traditions about the human family that originated long before the established interpretations, dogmas, and doctrines of our contemporary world. One thing the stories do indicate is that we are all genetically connected regardless of our outward appearance, yet we are divided due to multiple factors related to our situation in life and personal beliefs. The Genesis Quest examines ancient roots of human thinking to strip away veneers of progressive interpretations and reveal the evolution of a philosophy — six principles of the human spirit looking for the soul of our communal life: God/creation, good and evil, sharing, mercy, saving life, and communicating. These principles are intended to help us understand what it means to be human. By the author of Ethiopia, The Unknown Land. Mystery of the White Lions-Linda Tucker 2010-06-01 This is Linda Tucker's firsthand account of her journey into the mysteries of the most sacred animal on the African continent: the legendary White Lion. This book reveals the knowledge and ceremonies of Old Africa and the overwhelming love that has driven her every action to save these magnificent beasts, against formidable odds.. After being rescued from a life-threatening encounter with lions in the Timbavati game region by a medicine woman known as the "Lion Queen," Linda embarked on a journey into the mysteries of the White Lion. It is a mystical journey into the knowledge and ceremonies of Old Africa, in which humans and lions are able to cross the species barrier—in accordance with the most guarded secrets of Ancient Egypt and humankind's greatest riddle, the sphinx. Scientists in our day have established that humankind's most significant evolutionary leap occurred as a result of our ancestors' interaction with great cats. The White Lion is a genetic rarity of Panthera leo, and occurred in just one region on earth: Timbavati. Today White Lions form the center of the notorious "canned" trophy hunting industry—hand-reared captive lions, shot in enclosures for gross sums of money. By contrast, shamans believe that killing a "lion sun god" is the ultimate sacrilege. How the human species treats such precious symbols of God in nature may determine how nature treats the human species. Whether we view them as prophetic "Lions of God" or simply as rare genetic mutations, the story of the White Lions is a true legend unfolding in our own extraordinary times. The Vatican Heresy-Robert Bauval 2014-03-01 Reveals how the largest Sun Temple in the world, built according to Hermetic principles, is located at one of Christianity's holiest sites: the Vatican • Shows how famous Renaissance philosophers and scientists called for a Hermetic reformation of Christianity by building a magical Temple of the Sun in Rome • Explains how the Vatican architect Bernini designed St. Peter's Square to reflect heliocentric and Hermetic principles • Reveals how the design was masterminded by Bernini, Jesuit scholars, the mystical Queen Christine of Sweden, and several popes in 16th century Italy, in the midst of the Renaissance, two powerful movements took hold. The first, the Hermetic Movement, was inspired by an ancient set of books housed in the library of Cosimo de' Medici and written by the Egyptian sage Hermes Trismegistus. The movement expounded the return of the "true religion of the world" based on a form of natural magic that could draw down the powers of the heavens and incorporate them into statues and physical structures. The other movement, the Heliocentric Movement launched by Copernicus, was a direct challenge to the Vatican's biblical interpretation of a geocentric world system. Declared a heresy by the Pope, those who promoted it risked the full force of the inquisition. Exploring the meeting point of these two movements, authors Robert Bauval and Chiara Hohenzollern reveal how the most outspoken and famous philosophers, alchemists, and scientists of the Renaissance, such as Giordano Bruno and Marsilio Ficino, called for a Hermetic reformation of the Christian religion by building a magical utopic city, an architectural version of the heliocentric system. Using contemporary documents and the latest cutting-edge theories, the authors show that this Temple of the Sun was built in Rome, directly in front of the Vatican's Basilica of St. Peter. They explain how the Vatican architect Bernini designed St. Peter's Square to reflect the esoteric principles of the Hermetica and how the square is the detailed representation of the heliocentric system. Revealing the magical architectural plan masterminded by the Renaissance's greatest minds, including Bernini, Jesuit scholars, Queen Christine of Sweden, and several popes, the authors expose the ultimate heresy of all time blessed by the Vatican itself. Am I Still My Brother's Keeper?-Robert Wafawanaka 2012-04-05 What does the Bible say about poverty and our responsibility toward the poor? This book examines the concept of "brother's keeper" in both the ancient Near East and the biblical world. Wafawanaka contends that biblical Israel failed to play the rightful role of brother's keeper and claims that we, too, have strayed from this responsibility. Am I Still My Brother's Keeper? reveals what we can learn about poverty from a biblical context and how we might appropriate those insights to fight poverty in our own communities. Beginning with the biblical mandate in Deuteronomy 15, Wafawanaka surveys the Hebrew Scriptures and challenges those with power and resources to reevaluate their response to the poor. Failure to revisit the notion of "brother's keeper" threatens to create a society that is increasingly disenfranchised and unjust. A glance at our world in light of biblical history suggests that poverty is an endemic global problem that requires a radical global solution.

Secret Chamber Revisited-Robert Bauval 2014-10-09 A firsthand, behind-the-scene account of the controversies surrounding modern explorations at Giza • Investigates the recent scandals at Giza and claims of secret excavations and tunneling inside the Great Pyramid • Reveals the historical evidence in support of secret chambers in the Great Pyramid and beneath the Great Sphinx • Exposes the secret agendas behind the latest explorations on the Giza plateau Since 1993 Robert Bauval has been embroiled in the many controversies involving the search for the lost treasures of the pyramid builders and the quest for the legendary Hall of Records of Atlantis. The strange but true story that he unfolds implicates American business moguls, the prestigious National Geographic Society, several Ivy League universities, the Edgar Cayce Foundation, the Freemasons, Christian fundamentalists, Zionists, and the Egyptian government. In this fully updated edition of Secret Chamber, including new color photographs, Robert Bauval pursues his in-depth investigation of clandestine events at Giza and the role played by the controversial ex-Minister of Antiquities Dr. Zahi Hawass. What lies behind the mysterious doors at the end of the star shafts in the Great Pyramid? What do the mysterious inscriptions found behind the Gantenbrink door mean? What is the real purpose of the Relief Chambers and the red ochre "graffiti" in them? Who is behind the secretly tunneling and excavating in these chambers, and why? Is there really a hidden Hall of Records from Atlantis beneath the Great Sphinx? Is the Great Pyramid just a tomb or does it serve a higher purpose involving a lost science of immortality? Why do the ancient texts ascribe the Pyramid's design to the supreme god of wisdom Thoth, the writer of the fabled Books of Hermes? Will the Great Pyramid prove to be the "missing link" to our true origins or a "metaphysical machine" to access the world beyond? Providing a firsthand account of the strange events that have taken place at the Giza plateau in the last three decades, Bauval reveals the hidden agendas behind these events and raises important questions about the meaning of Egypt's ancient structures and the very origins of civilization.

The Mars Mystery-Graham Hancock 1998 An investigation at the leading edge of the worldwide debate about the true antiquity and origins of human civilization. In particular, it examines all the recent controversies about the pyramids and sphinx at Giza, and how they relate to the planet Mars.

The Mars Mystery-Graham Hancock 2010-08-11 An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, The Mars Mystery is both an illumination of our ancient past and a warning—that we still have time to heed—about our ultimate fate.

God's Own the Genesis of Mathematical Story-telling-Nma (Beautiful) Jacob 2016-01-25 In the beginning God created woman in His own like image, blessed her to go out to be fruitful and multiply, to replenish the earth, subdue it, and have dominion over everything on it. Genesis 1: 27-28. God's Own: The Genesis of Mathematical Story-Telling is about the creativity of God (The Absolute Infinite) as He is reflected in women. It is about the power of The Absolute Infinite to perform signs and wonders reflected in mathematical symbols, patterns, numbers, and graphs. It is a book on His word according to John 1:1, in the beginning was the word, the word was with God, and the word was God. God's Own: The Genesis of Mathematical Story-Telling is a mathematical, cultural, and spiritual story of Dr. Nkechi (God's own) Madonna Adeleine Agwu, aka Nma (Beautiful) Jacob. Dr. Agwu is an African female leader in mathematics and statistics education. Her life trajectory includes experiences of displacement, homelessness, living in refugee camps, single-parenting of a child with hearing and speech needs, and many other issues that from all indications could have set her up for failure, but for God's divine intervention. God's Own: The Genesis of Mathematical Story-Telling is about Dr. Agwu's journey as an ethno-mathematician to her present scholarship in African culture and women's stories in science, technology, engineering, and mathematics (STEM) related fields. It is about how she found her identity as a mathematical story-teller of members of the Organization of Nigerian Women in Agricultural Research and Development (NIWARD). It is a story about the beauty, strength, courage, and nurturing spirit of women. In this era of globalization, African people face the urgent need to foster world-wide education about their mathematics, science, technology, history and culture (Gerdes, 1998). All groups of people have made significant contributions to the development of mathematics. However, the contributions of Africans other than those related to the early beginnings of algebra and geometry in ancient Egypt, are still highly unacknowledged in the history of mathematics (Lumpkin, 1997). This is partly due to our oral traditions, slavery, colonialism, neo-colonialism, globalization, and the fact that our indigenous mathematics, scientific and technological knowledge as a people is often shrouded in our spirituality. This notwithstanding, efforts must be made to document the mathematical contributions of Africans to enrich the curriculum in a multicultural and interdisciplinary way by providing a wide repertoire of examples of mathematical concepts illustrated from the African context. God's Own: The Genesis of Mathematical Story-Telling does this. In particular, it highlights the indigenous mathematical knowledge and cultural beauty of the Ndebele people of Southern Africa. God's Own: The Genesis of Mathematical Story-Telling is a story about creativity, innovation, and adaptation. It is a story about necessity as the mother of innovation. It is about the philosophy of "do what you can, from where you are, with what you have." It is a story about Nma (Beautiful) Jacob, the survivor, overcomer, successor and faithful servant of God. It is a story that The Absolute Infinite is ever present in our lives shaping our mathematical genomes. Emmanuel - God is with us! His Angels are around us, protecting and guiding us! The Epic of Gilgamesh-Maureen Gallery Kovacs 1989 Since the discovery over one hundred years ago of a body of Mesopotamian poetry preserved on clay tablets, what has come to be known as the Epic of Gilgamesh has been considered a masterpiece of ancient literature. It recounts the deeds of a hero-king of ancient Mesopotamia, following him through adventures and encounters with men and gods alike. Yet the central concerns of the Epic lie deeper than the lively and exotic story line: they revolve around a man's eternal struggle with the limitations of human nature, and encompass the basic human feelings of loneliness, friendship, love, loss, revenge, and the fear of oblivion of death. These themes are developed in a distinctly Mesopotamian idiom, to be sure, but with a sensitivity and intensity that touch the modern reader across the chasm of three thousand years. This translation presents the Epic to the general reader in a clear narrative.

Batavia-Peter Fitzsimons 2012 Carrying the surname of his uncle and Immortal Reg, Mark Gasnier had blinding pace, a shimmy, a step and an innate sense of timing. Whether it was for St George Illawarra, NSW or Australia, he could seemingly sniff out a try at will. As former NSW coach Phil Gould once remarked: "Mark Gasnier, the best centre I have seen." Yet for a game that came to him so naturally, Gasnier's career was never so straightforward. His famous bloodlines and the notorious hoodoo that had seen the Dragons fail to win a premiership in three decades meant the weight of expectation never went away. A drunken phone call during a NSW bonding session that led to his sacking on the eve of his Origin debut, the curse of injury and the ultimate decision to walk away from the game and play rugby union for Paris glamour club Stade Francais only add to his complex journey. Those obstacles only made the finish - when he returned to the NRL to win the grand final with St George Illawarra - sweeter ... before he shocked everyone again with the early announcement of his retirement. Throughout his career, Gasnier was guarded with the media. For the first time, he candidly tells his story.

Keeper of the Olympic Flame-Michael J. Burgess 2016-05-16 Just three years after he streaked past the best skaters in the world and won two gold medals in the 1932 Lake Placid Olympics, Jack Shea took a principled stand to boycott the 1936 games in Nazi Germany. His strong Christian faith and his family's close relationship with the local Jewish population led him to reject Hitler's discrimination and violence against Germany's Jews. A brilliant young athlete born and raise in Lake Placid, Shea vigorously challenged the acquiescence of Avery Brundage, President of the American Olympic Committee, and others who supported participating in the 1936 games. Shea's principled stand and his gold medal fame put him at the intersection of the on-going larger story of international politics and Olympics sports.
