Overhead Lines-Konstantin O. Papailiou 2016-08-15 This handbook offers all aspects of Overhead Transmission Lines as the backbone of networks of electrical power. The content of the book includes, after a historical flash-back: Planning and management concepts, electrical and mechanical considerations, influences of the weather, and on the environment, detailed design of all line components, construction and maintenance aspects, line optimization, and asset management, as well as a comparison between overhead lines and underground cables. The book was written by more than 50 experts and assembled through the Cigré study committee on Overhead Lines. This guarantees valuable exchange and dissemination of unbiased information for technical but also non-technical audiences.

The CISG and its Impact on National Legal Systems-Franco Ferrari 2008-01-01 In force in 70 countries around the world and covering more than two thirds of world trade, the 1980 United Nations Convention on Contracts for the International Sale of Goods (CISG) is considered to be the most successful convention promoting international trade. According to many commentators, this success is due, among others, to the fact that the Convention does not directly impact on the domestic law of the various legal systems, as it applies only to international - as opposed to purely domestic - contracts. The Convention, in other words, does not impose changes in the domestic law, which makes it easier for States to adopt the Convention. This does not mean, however, that the Convention does not have any impact on the domestic law at all. This book analyzes - through 24 country reports as well as a general report submitted to the 1st Intermediate Congress of the International Academy of Comparative Law held in November 2008 in Mexico City - to what extent the Convention de facto influences domestic legal systems. In particular, the book examines the Convention's impact on the practice of law, the style of court decisions as well as the domestic legislation in the area of contract law.

Phytoplasmas: Plant Pathogenic Bacteria - III-Assunta Bertaccini 2019-11-10 Phytoplasma III is the last of three books in the series covering all the aspects of phytoplasma-associated diseases. Phytoplasmas are a major limiting factor in the quality and productivity of many ornamental, horticultural and economically important agriculture crops worldwide, and losses due to phytoplasma diseases have disastrous consequences for farming communities. As there is no effective cure for these diseases, management strategies focus on exclusion, minimizing their spread by insect vectors and propagation materials, and developing host plant resistance. This book provides an update on genomics, effectors and pathogenicity factors toward a better understanding of phytoplasma-host metabolic interactions. It offers a comprehensive overview of biological, serological and molecular characterization of the phytoplasmas, including recently developed approaches in diagnostics, such as transcriptomics studies, which have paved the way for analyzing the gene expression pattern in phytoplasmas on infection and revealed the up-regulation of genes associated with hormonal response, transcription factors, and signaling genes. Although phytoplasmas remain the most poorly characterized pathogens, recent studies have identified virulence factors that induce typical disease symptoms and have characterized the unique reductive evolution of the genome. Reviewing the advances in cultivation in axenic media together with the perspectives for future research to reduce the global incidence of these pathogens and the associated agricultural losses, the book is a valuable resource for plant pathologists, researchers in agriculture and PhD students.

They present and organize the knowledge from within the field of telematics and security, data analytics and Machine Learning, IoT and mobile computing.

Selling 101-Zig Ziglar 2003-04-01 Here in a short, compact and concise format is the basics of how to persuade more people more effectively, more ethically, and more often. Ziglar draws from his fundamental selling experiences and shows that while the fundamentals of selling may remain constant, sales people must continue learning, living, and looking: learning from the past without living there; living in the present by seizing each vital moment of every single day; and looking to the future with hope, optimism, and education. His tips will not only keep your clients happy and add to your income, but will also teach you ideas and principles that will, most importantly, add to the quality of your life. Content drawn from Ziglar on Selling.

Free, Fair, and Alive-David Bollier 2019-09-03 The power of the commons as a free, fair system of provisioning and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. Free, Fair, and Alive presents a foundational re-thinking of the commons — the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. Free, Fair, and Alive provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.

Jewish Translation History-Robert Singerman 2002-01-01 A classified bibliographic resource for tracing the history of Jewish translation activity from the Middle Ages to the present day, providing the researcher with over a thousand entries devoted solely to the Jewish role in the east-to-west transmission of Greek and Arab learning and science into Latin or Hebrew. Other major sections extend the coverage to modern times, taking special note of the absorption of European literature into the Jewish cultural orbit via Hebrew, Yiddish, or Judezmo translations, for instance, or the translation and reception of Jewish literature written in Jewish languages into other languages such as Arabic, English, French, German, or Russian. This polyglot bibliography, the first of its kind, contains over 2,600 entries, is enhanced by a vast number of additional bibliographic notes leading to reviews and related resources, and is accompanied by both an author and a subject index.

Telematics and Computing-Miguel Felix Mata-Rivera 2019-12-06 This book constitutes the thoroughly refereed proceedings of the 8th International Congress on Telematics and Computing, WITCOM 2019, held in Merida, Mexico, in November 2019. The 31 full papers presented in this volume were carefully reviewed and selected from 78 submissions. The papers are organized in topical sections: GIS & climate change; telematics & electronics; artificial intelligence & machine learning; software engineering & education; internet of things; and informatics security.

Irrigation With Reclaimed Municipal Wastewater - A Guidance Manual-G.Stuart Pettygrove 2018-01-18 Irrigation with Reclaimed Municipal Wastewater - A Guidance Manual is for use in the planning, design, and operation of agricultural and landscape irrigation systems using reclaimed municipal wastewater. It is written for civil and sanitary engineers, agricultural engineers, and agricultural extension workers and consultants. The manual is also useful as a reference for public works officials, municipal wastewater treatment plant operators, and students at colleges and universities. The text emphasizes irrigation for the purpose of optimizing crop production; therefore, it includes detailed instruction in the calculation of crop water requirements. Furthermore, the benefits and limitations of using reclaimed municipal wastewater for agricultural and landscape irrigation are discussed, as are other topics of special interest, including water management for salinity and sodicity control, and economic and legal aspects of reclaimed wastewater irrigation.

Along the Many Paths of God-José María Vigil 2008 Latin American theology is associated with liberation,

basic Christian communities, primacy of praxis and option for the poor. The present volume shows that Latin American theologians added new themes to the previous ones: religious pluralism, inter-religious dialogue and macro-ecumenism. It is the fruit of a program of the Theological Commission of the Ecumenical Association of Third World Theologians (EATWOT) in Latin America, to work out a liberating theology of religions.

Invitation to Discrete Mathematics-Ji%r Matousek 2009 Invitation to Discrete Mathematics is an introduction and a thoroughly comprehensive text at the same time. Well Played-Beau Sia 2020-06-08 These poems began as an answer. In the face of the undeniable, they became a reckoning. Of the lies that are lived to feel belonging. Of the lies that are told to hide shame. Of the lies that are believed to maintain within illusions. Well Played is a warning to the present, a welcoming of the truth, and a poet working to earn his way.

Theater of the Mind-Neil Verma 2012-06-29 For generations, fans and critics have characterized classic American radio drama as a "theater of the mind." This book unpacks that characterization by recasting the radio play as an aesthetic object within its unique historical context. In Theater of the Mind, Neil Verma applies an array of critical methods to more than six thousand recordings to produce a vivid new account of radio drama from the Depression to the Cold War. In this sweeping exploration of dramatic conventions, Verma investigates legendary dramas by the likes of Norman Corwin, Lucille Fletcher, and Wyllis Cooper on key programs ranging from The Columbia Workshop, The Mercury Theater on the Air, and Cavalcade of America to Lights Out!, Suspense, and Dragnet to reveal how these programs promoted and evolved a series of models of the imagination. With close readings of individual sound effects and charts of broad trends among formats, Verma not only gives us a new account of the most flourishing form of genre fiction in the mid-twentieth century but also presents a powerful case for the central place of the aesthetics of sound in the history of modern experience.

Manual of Cultivated Trees and Shrubs Hardy in North America-Alfred Rehder 2001-08-01 Alfred Rehder was the curator of the Herbarium of the Arnold Arboretum. He was German-born and a self-taught taxonomist, arriving at the Arboretum in 1898 and first employed to weed the shrub collection. His keen taxonomic judgment was quickly recognized, however. The Manual of Cultivated Trees and Shrubs Hardy in North America Exclusive of the Subtropical and Warmer Temperate Regions, best known as "Rehder's Manual," was first published in 1927. Here we have reprinted the second edition, published in 1940.

The World Bank Glossary-World Bank 1996 This edition of the World Bank has been revised and expanded by the Terminology Unit in the Languages Services Division of the World Bank in collaboration with the English, Spanish, and French Translation Sections. The Glossary is intended to assist the Bank's translators and interpreters, other Bank staff using French and Spanish in their work, and free-lance translator's and interpreters employed by the Bank. For this reason, the Glossary contains not only financial and economic terminology and terms relating to the Bank's procedures and practices, but also terms that frequently occur in Bank documents, and others for which the Bank has a preferred equivalent. Although many of these terms, relating to such fields as agriculture, education, energy, housing, law, technology, and transportation, could be found in other sources, they have been assembled here for ease of reference. A list of acronyms occurring frequently in Bank texts (the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.
