Economic Development and Political Action in the Arab World-M.A. Mohamed Salih 2014-03-05 Analysis of North African revolt against authoritarianism, known as the 'Arab Spring', embraced reductionist explanations such as the social media, youth unemployment and citizens' agitations to regain dignity in societies humiliated by oppressive regimes. This book illustrates that reductionist approaches can only elucidate some symptoms of a social problem while leaving unexplained the economic and political structures which contributed to it. One outcome of quiescence, resource-based ethnic and sectarian conflicts and faulty development paradigm is deepened inequality and a wedge between winners and losers or affluence, wealth and power vis-à-vis poverty and hunger among humiliated jobless and hope-less masses. The book blends theories of development and transition to explain the complex factors which contributed to North Africans' revolt against authoritarianism and its long-term consequences for political development in the Arab World. This timely book is of great interest to researchers and students in Development Studies, Economics and Middle Eastern Studies as well as policy makers and democracy, human rights and social justice activists in the Arab world.

Rethinking Political Islam-Shadi Hamid 2017 The "twin shocks" of the Egyptian coup and the rise of ISIS have challenged conventional wisdom on political Islam, forcing scholars and Muslim activists to reconsider some of the basic assumptions about Sunni Islamist movements. While ISIS and other jihadist groups garner the most media attention, the vast majority of Islamists are of the mainstream variety, seeking gradual change and participating in parliamentary politics when they're allowed to. It is these groups that are the focus of this book. They not only represent the future of what we call "political Islam," but they also - in their own struggles adapting to the changes of recent years - provide a fascinating window into a rapidly changing Middle East. The breadth of the book is expansive, covering the experience of Islamist groups in twelve countries: Egypt, Tunisia, Morocco, Syria, Yemen, Libya, Saudi Arabia, Kuwait, Jordan, and Pakistan, as well as Malaysia and Indonesia. In each of these cases, contributors consider how Muslim Brotherhood and Brotherhood-inspired Islamist movements have grappled with fundamental questions, including gradual versus revolutionary approaches to change, the use of tactical or situational violence, attitudes toward the nation-state, and how ideology and political variables interact. The case studies include authoritarian and democratic states and are not solely focused on the Arab world, allowing readers to consider a greater diversity of Islamist experiences.
