Motorcycle-Steven E. Alford 2008-01-03 Easy Rider. Motocross Grand Prix. James Dean in Rebel Without a Cause. The motorcycle is a global icon of untamed freedom, symbolizing a daring and reckless lifestyle of adventure. Yet there are few books that chronicle how and when this legendary vehicle roared down the open road. Motorcycle explores the roots of the rebel's ultimate ride. After early incarnations as a nineteenth-century steam-powered bicycle and multi-wheeled vehicles, the modern motorcycle came into its own as a cheap, mobile military asset during World War I. From there, it rapidly spread through modern culture as a symbol of rebellion and subversive power, and Motorcycle tracks the symbolic role that the bike has played in literature, art, and film.

The authors also investigate the international subcultures that revolve around the motorcycle and scooter. They chart the emergence of American biker culture in the 1950s, when decommissioned fighter pilots sought new ways to satiate their desire for thrill and danger, and explore how the motorcycle came to represent the untamed nonconformity of the American West. In contrast, smaller scooters such as the Vespa and moped became the utilitarian vehicle of choice in space-starved metropolises across Europe and Asia. Ultimately, the authors argue, the motorbike is the exemplary Modernist object, dependent on the perfect balance of man and machine. An unprecedented and wholly engrossing account, *Motorcycle* is an essential reading for the Harley-Davidson roadhog, bike collector, or anyone who's felt the power of the unmistakable king of the road.

Beautiful Things in Popular Culture-Alan McKee 2008-04-15 This is an innovative book that addresses the question of how consumers make decisions about what is good and what is bad in popular culture. An entertaining and informative guide to the range of aesthetic criteria that goes into judging mass culture's most celebrated texts and objects - from Batman to motor bikes, and pop stars to internet pornography Brings together a series of accessible and engaging essays written by connoisseurs of various areas of popular culture Tackles the core question of how consumers make decisions about what is good popular culture and what is bad popular culture Offers an entertaining and educative read for academic readers as well as purveyors of culture; moving beyond a 'greatest hits' list of popular culture to debate broader issues.

The Book of the Classic MV Agusta Fours-Ian Falloon 2011-10-15

Always produced in small numbers, the MV Agusta Fours are now considered amongst the most classic of motorcycles from the 1960s and 1970s. These were the first motorcycles that made Grand Prix technology available to the public, albeit at an almost prohibitive cost.

MV Agusta F4-Otto Grizzi 2012-03-01 The world came to know the MV Agusta F4 in the autumn of 1997. After 20 years of oblivion, the legendary marque makes its comeback with this 4-cylinder in line front gear masterpiece, the classic "architecture" of the glorious Italian school. Those in the know have no doubts: the "most beautiful motorcycle in the world" is still the MV Agusta F4.

Legendary Motorcycles-Luigi Corbetta 2013-01-01 Motorcycles connote freedom and free spirits. They have inspired songs like "Born to Be Wild" and have helped make the image of James Dean. They've come a long way from their ungainly two- and three-wheeled ancestors that first appeared in the late nineteenth-century. Packed with archival and specially commissioned photographs, this stunning volume traces the evolution of the motorcycle, documenting the major milestones in this illustrious history and spotlighting the most influential models that have emerged over the last century. Among the many manufacturers whose bikes are represented are BMW, Ducati, Harley-Davidson, Honda, Moto Guzzi, Suzuki, Triumph, and Yamaha, all of which are showcased in hundreds of brilliant color photographs.

Accompanying the extraordinary photographs are the stories behind the vehicles, with a wealth of technical information about each motorcycle.

More Than a Motorcycle-Rich Teerlink 2000-09-18  
In the late 1980s, Harley-Davidson beat back an assault by Japanese competitors and engineered a remarkable financial turnaround. But it subsequently faced an even more formidable challenge: maintaining and improving on its success in the absence of an external crisis. To answer this challenge, then-CEO Rich Teerlink, partnering with organizational consultant Lee Ozley, threw out the top-down strategies that had just saved the company and began building a different Harley-one that would be driven not by top management, but by employees at every level. What happened next is the stuff of turnaround legend. More Than a Motorcycle is the story behind the story of the purposeful transformation of an American icon, as told by the two individuals most deeply involved in that decade-long process. The book chronicles the victories and setbacks along Harley's difficult journey from a traditional "command-and-control" culture to an open, participative learning environment. Teerlink and Ozley deliver three fundamental messages: people are a company's only sustainable competitive advantage; there is no "quick fix" to effect lasting, beneficial organizational change; and leadership is not a person, but a process to which everyone must contribute. They provide practical, reality-tested prescriptions for critical tasks like developing employee alignment, building structures that support participation, and implementing effective reward programs. Finally, they draw lessons from the Harley experience-lessons about values, trust, and community-that apply broadly to any business. An against-the-odds

story of a business road less traveled, this book encourages today's leaders to look around the next bend-and to give every employee a view of the road from the driver's seat.

McQueen's Machines-Matt Stone 2010-11-06 No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. McQueen's Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, McQueen's Machines draws a fascinating picture of one outsized man's driving passion. Now in paperback.

The Perfect Vehicle: What It Is About Motorcycles-Melissa Holbrook Pierson 2011-01-12 "This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

The Upper Half of the Motorcycle-Bernt Spiegel 2019-08-06 Bernt Spiegel's The Upper Half of the Motorcycle was a best-selling

motorcycling book in its original German with multiple editions and printings to its credit. Now translated into English, its provocative message is available to a wider audience. Spiegel's metaphor considers the rider and the motorcycle as a single unit, the rider being the upper half. Taking a multidisciplinary approach, the author draws on anthropology, psychology, biology, physics, and other disciplines to analyze the theory and function of the man-machine unit. Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves. The ultimate goal for riders is the integration of the man-machine interface and subsequent skill development to the point of virtuosity. Spiegel considers the various aspects of motorcycle riding that must be understood, practiced, and mastered before virtuosity can be attained. Many anecdotes, supplementary material, and in-depth treatment of specialized topics is contained in sidebars and footnotes. Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set.

advertising and pop culture and his fan base spans from car lovers to racing enthusiasts to motorcycle obsessives. In his movies, McQueen's character always had an envy-inducing motorcycle or car, but in his personal life, motorcycles were always McQueen's first true love. McQueen's Motorcycles focuses on the bikes that the King of Cool raced and collected. From the first Harley McQueen bought when he was an acting student in New York to the Triumph "desert sleds" and Huskys he desert raced all over California, Mexico, and Nevada, McQueen was never without a stable of two wheelers. His need for speed propelled him from Hollywood into a number of top off-road motorcycle races, including the Baja 1000, Mint 400, Elsinore Grand Prix, and even as a member of the 1964 ISDT team in Europe. Determined to be ahead of the pack, McQueen maintained his body like it was a machine itself. He trained vigorously, weight lifting, running, and studying martial arts. Later in his life, as he backed away from Hollywood, his interests turned to antique bikes and he accumulated an extensive collection, including Harley-Davidson, Indian, Triumph, Brough Superior, Cyclone, BSA, and Ace motorcycles. Today, McQueen still has the Midas touch; anything that was in the man's possession is a hot commodity. McQueen's classic motorcycles sell for top dollar at auctions, always at a multiple of what the same bike is worth without the McQueen pedigree. McQueen's Motorcycles reveals these highly sought-after machines in gorgeous photography and full historical context.

Race Tech's Motorcycle Suspension Bible-Paul Thede 2010-06-19

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

The Build-Robert Hoekman, Jr. 2020-07 The urge has found you daydreaming more than once. The urge to define, bend, shape, fabricate, invent, shove, break. To slide your leg over the seat you finally got back from the leather shop. To twist back the throttle grip you wrapped yourself. To lunge into the darkness of an open highway on a creation all your own. More than a motorcycle, this is about your identity. It's about building something as unique as you are. In The Build, Robert Hoekman Jr compiles insights from today's best builders to help you plot out your own beautiful beast. Loaded with photos, The Build features firsthand advice from the masters of moto design, including John Ryland (Classified Moto), Alan Stulberg (Revival Cycles), Jared Johnson (Holiday Customs), Jarrod DelPrado (DP Customs), and the legendary Max Hazan (Hazan Motorworks). You've seen what can be done. It's time to do it yourself. Get The Build.

The Ducati 750 Bible-Ian Falloon 2006-08-10 The Ducati 750 motorcycles were among the last pure, unadulterated sporting motorcycles built--representing a time before cost accounting and government design requirements--and have, unsurprisingly, inspired a new generation of retro classics.

Roadshow-Neil Peart 2007-05-14 In 2004, after three decades, twenty gold albums and thousands of performances spanning four continents, Rush embarked on a 30th Anniversary World Tour that they called R30. They performed 57 gigs in 9 countries. Uniquely Peart chose to do his travelling between shows by motorcycle riding a total of 21,000 miles of back roads and highways in North America and Europe. Roadshow illuminates the rigours of a major concert tour and explores the scenic locales among the way. Written in Peart's evocative and entertaining prose, Roadshow takes the reader along for the ride.

Classic Motorcycles-Pat Hahn 2017-01-01 Finally! The world's most incredible motorcycles are given the artful representation they deserve. The motorcycle should have disappeared with the advent of the inexpensive automobile, since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation, but a funny thing happened on the way to extinction - the motorcycle not only survived but thrived. Enough people were enamored of the thrill and beauty of the two-wheeled mechanical beast to ensure it would continue to exist indefinitely. And exist they have! Many of the motorcycles manufactured over the past century truly fit the description of "classic," and many consider these machines works of art. Written by noted motorcycle author Patrick Hahn, Classic Motorcycles presents the history of motorcycling as told through the most significant, iconic, classic motorcycles of all time, with both period photography and modern portrait photography. All the best domestic and international makes are represented here, from BMWs, Indians, and Triumphs to Vincents, Ducatis, and Harley-Davidsons - the most classic models. You'll drool over the 1933 Matchless Silver Hawk. Each motorcycle was shot in a studio setting using photographer Tom Loeser's light-painting technique. Period ads and relevant historic photos and documents are spread throughout the book to supplement the portraits of the bikes, really evoking a sense of time and place. Prepare to be in awe of the undeniably classic motorcycles in this collection. It's the only motorcycle history you'll need.
