When Hannah Campbell attends a memorial service for the neurosurgeon who once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

The Role and Functions of the Civilian Police in the United Nations Peace-keeping Operations-Institute of Policy Studies (Singapore) 1996 This is the second book based on a series of conferences, held under the auspices of the United Nations Institute for Training and Research (UNITAR) and the Institute of Policy Studies (IPS) of Singapore, on various aspects of UN peace-keeping operations. This new book covers the 1995 conference, which dealt with the role and functions of civilian police, and brought together nine of the eleven police commissioners involved in past and present UN peace-keeping operations, as well as heads of national police, policy makers, UN staff, lawyers and academics.

The book is divided into two segments: the Executive Summary, followed by the papers presented. The Executive Summary, a concise and frank synthesis of debates, is divided into five parts as follows: Part 1 provides an overall introduction to the current problems and the general background within which civilian police components of UN peace-keeping operations are required to function; Part II presents an outline of the common problems and challenges faced by many police commissioners in the conduct of their mandates; Part III highlights some of the key attributes and functions of civilian police, notably in the areas of institution building, human rights monitoring and community policing; Part IV reviews existing training at national, regional and international levels; and Part V offers general recommendations.
