Act of Retribution-J.P. Phillips 2010-03-17 My quest for an answer to the riddle of President Kennedys assassination first began in April 1967 following a talk given by Warren Commission critic and best-selling author, Mark Lane at Michigan State University where I was a graduate student. My search has lasted well over twenty years. Gathering every scrap of information I could find on the assassination, I have arrived at what I believe is the most credible thesis to date. As a result of meticulous research, I am able to identify probable suspects in what I have come to believe was a far-reaching conspiracy which involved not only renegade elements from the CIA and organized crime figures, but one which extended to the highest echelons of the U. S. government. By pulling together existing knowledge of the assassination, while introducing new evidence, my book focuses primarily on six main principals (persons of interest), their motives and their activities in relation to the assassination and the links that connect them: 1. LEE HARVEY OSWALD: Accused by the Warren Commission In 1964 of being the sole assassin of President Kennedy. 2. JACK RUBY: Dallas night-club owner who, two days following the Presidents assassination, shot and killed Oswald. 3. CARLOS MARCELLO: Reputed crime boss of the New Orleans- Dallas Mafia during the time of the assassination. 4. GENERAL CHARLES PEARE CABELL: Deputy Director of the CIA from 1953 to 1962 when he was dismissed by President Kennedy along with other high-ranking intelligence officials for the failure of the Bay of Pigs invasion. 5. EARLE CABELL: Younger brother of General Charles P. Cabell who was Mayor of Dallas the day President Kennedy was assassinated. 6. FRED KORTH: Fort Worth businessman and banker who was Secretary of the Navy from 1962 to October 1963 when he was forced by President Kennedy to resign for his involvement in the TFX controversy. As to the motives of those individuals involved in the Presidents murder, I believe that the assassination was planned and carried out with a dual purpose in mind: 1. as an act of vengeance by those ex-high government officials who were dismissed by the President either for alleged wrongdoing as in the case of Fred Korth, or for incompetence as in General Cabells case. 2. to prevent the Presidents domestic and foreign policies- particularly in reference to his stand on the Vietnam conflict- from being implemented. Viewed in this light, the assassination of President Kennedy was an act of retribution by a group of mean-spirited, vengeance-seeking individuals who acted in the misguided belief that by assassinating this president they were furthering the national interest. Notwithstanding his immense popularity with the American people, President Kennedy was perceived by his killers to be a clear and present danger to the country and to its interests at home and abroad for several reasonsfor his stand on civil rights and racial equality; for his attempt to closely regulate the oil and gas industry; for his desire to normalize relations with Cuba; for his desire to ease tensions between the superpowers through a reduction in armaments; for his crackdown on organized crime; for his stated intention to withdraw U.S. forces from Vietnam. Removing him from office by political murder, therefore, excused his killers in their own eyes from any wrongdoing, for by killing this President, they were convinced that they were acting in the national interest against the seemingly dangerous policies of a chief executive who, if allowed to finish his presidency, would lead the nation to ruin. A wise mind will never censure anyone for having employed any extraordinary means for {preserving} a kingdom. Believing, like Machiavelli, that they were acting to preserve and maint

Norman Granz-Tad Hershorn 2011-10-17 "Any book on my life would start with my basic philosophy of fighting racial prejudice. I loved jazz, and jazz was my way of doing that," Norman Granz told Tad Hershorn during the final interviews given for this book. Granz, who died in 2001, was iconoclastic, independent, immensely influential, often thoroughly unpleasant—and one of jazz's true giants. Granz played an essential part in bringing jazz to audiences around the world, defying racial and social prejudice as he did so, and demanding that African-American performers be treated equally everywhere they toured. In this definitive biography, Hershorn recounts Granz's story: creator of the legendary jam session concerts known as Jazz at the Philharmonic; founder of the Verve record label; pioneer of live recordings and worldwide jazz concert tours; manager and recording producer for numerous stars, including Ella Fitzgerald and Oscar Peterson.

They offer clear teaching about the church in a hurting world. As veteran leaders who practice these principles, they speak from experience, not theory. Through touching true stories and practical guidelines for connecting with fallen, sinful people, Cook and Baldwin announce the good news. The church is not broken, and it is the broken people who can change the world.

Mingus-Brian Priestley 1984-03-22 It would be no exaggeration to call Charles Mingus the greatest bass player in the history of jazz; indeed, some might even regard it as understatement, for the hurricane power of his work as a composer, teacher, band leader, and iconoclast reached far beyond jazz while remaining true to its heritage in the music of Duke Ellington, Charlie Parker, and Thelonious Monk. In this new biography Brian Priestley has written a masterly study of Mingus's dynamic career from the early years in Swing, to the escapades of the Bebop era, through his musical maturity in the '50s when he directed a band that redefined collective improvisation in jazz. Woven in with exacting assessments of Mingus's artistic legacy is the story of his volatile, unpredictable, sometimes dangerous personality. The book views Mingus as a black artist increasingly politicized by his situation, but also unreliable as a witness to his own persecution. Capturing him in all his furious contradictions-passionate, cool, revolutionary but with a keen sense of tradition-Brian Priestley has produced what can be called, again without exaggeration, the best biography of a jazz musician we have ever seen.

Traitors Beware-Eric Beckemeier 2008-02-01 The Minutemen, under Robert DePugh's leadership, existed for a relatively short period of years during the 1960s. They were a vicously anti-Communist, militant organization that believed a Communist invasion of the United States was imminent, most likely through internal subversion. The organization advocated extremist tactics in what they believed was going to be a geurrilla war against communism on American soil. Eventually the Minutemen's extreme nature and propensity for violence brought them to the attention of law enforcement, most specifically the FBI. After Robert DePugh and other members were convicted of firearms violations and sent to prison, the leaderless organization faded into obscurity. The aim of this book is to provide an accurate historical record of the Minutemen because previous research concerning the Minutemen has often been severely biased against the organization. This book is for the reader who is interested in militant organizations and right-wing extremist groups.
