The Aspiring Principal 50-Baruti K. Kafele 2019-05-14 So, you want to be a principal? Are you a new principal who could benefit from the wisdom of a successful four-time principal? Could you use help preparing for a school administrator job interview? Then this is the book for you. In *The Aspiring Principal 50*, school leadership expert Baruti Kafele presents reflective questions aimed at assisting both new and aspiring school leaders as they work to become effective school leaders and consider making a leap to a leadership position, respectively. This book will help aspiring principals determine whether "The Principal" is truly who they want to be and help new principals grow and thrive in the principalship. Additionally, the book contains an entire chapter devoted to preparing for the school administrator job interview. Kafele infuses the book from beginning to end with succinct advice on everything from remaining focused on the principal's number one priority—student achievement—to addressing maintenance concerns, managing budget allocations, and ensuring that the school's website puts the school in the best

possible light. With *The Aspiring Principal 50*, you can increase the likelihood that your tenure as principal will be a successful, beneficial, and healthful one.

*The Assistant Principal 50*—Baruti K. Kafele 2020-05-11 You're an Assistant Principal. Whatever your status—the sole AP in your school, one of two or more APs in your school, a career AP, an AP aspiring to the principalship—yours is one of the most misunderstood and underutilized positions in education. Positioned between teachers and the principal, you are an instructional leader. However, you are not the leader of the school. Therefore, you must carefully navigate your way to ensure that you thrive in your role without "stepping on the toes" of your principal. In *The Assistant Principal 50*, award-winning, four-time principal Baruti Kafele presents reflective questions that encompass the breadth and depth of the assistant principalship—from finding your leadership "lane" to thriving and being an asset to your principal. Kafele infuses the book (which also includes guidance and insights for principals and aspiring assistant principals) from beginning to end with personal anecdotes and accounts of both failures and successes from his years as an assistant principal. He arms you with tools and insights that will drive you to view the assistant principalship as critical to the climate and culture of your school as well as to student achievement. You, assistant principal, play a critical role in your school's success. The questions that Kafele asks you to consider will aid you as you hone your leadership skills toward becoming an effective leader in your school.

Rethinking Teacher Supervision and Evaluation-Kim Marshall 2009-10-30 In this important book, education expert Kim Marshall shows how to break away from the typical and often ineffective evaluation approaches in which principals use infrequent classroom visits or rely on standardized test scores to assess a teacher's performance. Marshall proposes a broader framework for supervision and evaluation that enlists teachers in improving the performance of all students. Emphasizing trust-building and teamwork, Marshall's innovative, four-part framework shifts the focus from periodically evaluating teaching to continuously analyzing learning. This book offers school principals a guide for implementing Marshall's framework and shows how to make frequent, informal classroom visits followed by candid feedback to each teacher; work with teacher teams to plan thoughtful curriculum units rather than focusing on individual lessons; get teachers as teams involved in low-stakes analysis of interim assessment results to fine-tune their teaching and help struggling students; and use compact rubrics for summative teacher evaluation. This vital resource also includes extensive tools and advice for managing time as well as ideas for using supervision and evaluation practices to foster teacher professional development.

Composing Research-Cindy Johaneke 2000-04 Cindy Johaneke offers a new perspective on the ideological conflict between qualitative and quantitative research approaches, and the theories of knowledge that inform them. With a paradigm that is sensitive to the context of one's research questions, she argues, scholars can develop less dichotomous forms that invoke the strengths of both research traditions. Context-oriented approaches can lift the narrative from beneath the numbers in an experimental study, for example, or bring the useful clarity of numbers to an ethnographic study. A pragmatic scholar, Johaneke moves easily across the boundaries that divide the field, and argues for contextualist theory as a lens through which to view composition research. This approach brings with it a new focus, she writes. "This new focus will call us to attend to the contexts in which rhetorical issues and research issues converge, producing varied forms, many voices, and new knowledge, indeed reconstructing a discipline that will be simultaneously focused on its tasks, its knowledge-makers, and its students." Composing Research is a work full of personal voice and professional commitment and will be a welcome addition to the research methods classroom and to the composition researcher's own bookshelf. 2000 Outstanding Scholarship Award from the International Writing Centers Association.

Handbook of Research on Family Business will be the reference for scholars in family business for many years to come. It will also stimulate new ideas in research. John L. Ward, IMD, Switzerland and Northwestern University, US The Handbook of Research on Family Business provides a comprehensive first port of call for those wishing to survey progress in the theory and practice of family business research. In response to the extensive growth of family business as a topic of academic inquiry, the principal objective of the Handbook is to provide an authoritative and scholarly overview of current thinking in this multidisciplinary field. The contributors examine recent advances in the study of family business, which has undertaken significant strides in terms of theory building, empirical rigour, development of sophisticated survey instruments, systematic measurement of family business activity, use of alternative research methodologies and deployment of robust tools of analysis. A wide selection of empirical studies addressing the current family business research agenda are presented, and issues and topics explored include: validation of the protagonist role that family firms play in social-economic spheres; operational and definitional issues surrounding what constitutes a family business; historical development of the field of family business; methodologies encompassing micro and macro perspectives; challenges to the orthodox microeconomic view of homo-economicus firms by highlighting the virtues of family influence and social capital. Comprising contributions from leading researchers credited with shaping the family business agenda, this Handbook will prove an invaluable reference tool for students, researchers, academics and practitioners involved with the family business arena.

Turning Over a New Leaf-Erik Kwakkel 2012 "Books before print - manuscripts- were modified continuously throughout the medieval period. Focusing on the ninth and twelfth centuries, this volume explores such material changes as well as the varying circumstances under which handwritten books were produced, used and collected. An important theme is the relationship between the physical book and its users. Can we reflect on reading practices through an examination of the layout of a text? To what extent can we use the contents of libraries to understand the culture of the book? The volume explores such issues by focusing on a broad palette of texts and through a detailed analysis of manuscripts from all corners of Europe"--Publisher's description.
