The Battle for the Keys-Justin Bass 2014-04-07 There has been a lack of serious historical investigation of the famous creedal statement 'Christ descended into hell' that was universally affirmed by the church for the first 1500 years of Church history. This unique book is an in-depth investigation of the history of the doctrine of Christ's descent and how Revelation 1:18 alludes to that significant doctrine. The author demonstrates a real passion and a rigorous argument for Christ's triumphal descent into the underworld in order that he would 'fill all things' (Eph 4:10).

Revelation-Robert W. Wall 1991 Horsemen, signs, seals, weeks this volume in Hendrickson's popular New International Biblical Commentary tackles the New Testament book that puzzles and intrigues laypeople and students alike. Wall takes a sane, common-sense approach to Revelation, explaining both its historical setting and its apocalyptic character. Like other NIBC volumes, this commentary uses the NIV for clarity and accessibility. Wall s commentary is a valuable contribution to the study of Revelation. It interacts well with most of the leading contemporary scholarship in the field. It provides an angle of perspective on John s vision that opens some new vistas into its meaning and provides healthy correctives of many misconceptions. This is a useful resource for college and seminary classes on Revelation and a helpful tool for those with theological/biblical training who would lead Bible studies on Revelation. M. Heavenly Realms and Earthly Realities in Late Antique Religions-Ra'anan S. Boustan 2004-08-16 The idea of heaven held a special place in the late antique imagination, which was marked by a poignant sense of the relevance of otherworldly realities for earthly life. Such concerns can be found not only in Judaism and Christianity but also in the Greco-Roman religious, philosophical, scientific, and 'magical' traditions. Transcending social, regional and creedal boundaries, the preoccupation with heaven in Late Antiquity serves as a focus for an interdisciplinary approach to understanding this formative era in Western culture and history. Drawing upon the expertise of scholars of Classics, Ancient History, Jewish Studies and Patristics, this volume explores the different functions of heavenly imagery in different texts and traditions in order to map the patterns of unity and diversity within the religious landscape of Late Antiquity.

Agent Zero (An Agent Zero Spy Thriller—Book #1)-Jack Mars 2019-06-28 “You will not sleep until you are finished with AGENT ZERO. The author did a superb job creating a set of characters who are fully developed and very much enjoyable. Neighbors, Not Friends-Dilip Hiro 2003-09-02 This highly controversial and topical book provides the first full, balanced account of how Iraq cheated the UN inspectors on disarmament and how the US manipulated and infiltrated the UN inspection teams and other staff to gather intelligence on Iraq to overthrow Saddam Hussein. Aimed at the general reader, it follows and assesses the role of Saddam Hussein who became president of Iraq in 1979. Dilip Hiro, an experienced journalist who has written extensively on the region, provides a historical and accessible perspective to the relationship between Iraq and Iran and examines the consequences of internationally significant events such as the death of Ayatollah Khomeini in Iran a year after the end of the 1980-88 Iran-Iraq War and the 1990 invasion of Kuwait by Saddam Hussein. Providing a full account and analysis of events in Iraq since the 1991 Gulf War, he contrasts the long totalitarianism under Hussein with the evolution of the political-religious system in Iran and the development of its internal politics. This is an essential overview to the conflicts in the Gulf, and should be read by anyone with an interest in the region, its politics and its interactions with the US and UN.
