Paroxysm-Jean Baudrillard 1998 Jean Baudrillard is one of the most controversial and stimulating figures in contemporary philosophy and cultural criticism. Whether embraced or reviled for his reflections on 'hyperreality', he never fails to evoke strong reactions. Yet, all too often, discussion of Baudrillard's ideas takes place at one remove, with much imputed to him. It is sometimes claimed that his writing is too abstract or obscure to analyse rigorously. The Indifferent Paroxyst offers the reader a new way to approach Baudrillard's ideas through the use of the interview format. Closely questioned by French journalist Philippe Petit, Baudrillard covers a vast range of topics, including Fukuyama; 1989 and the collapse of Communism; Bosnia, the Gulf War, Rwanda and the New World Order; globalisation and universalisation; the return of ethnic nationalisms; the nature of war; revisionism and Holocaust denial; Deleuze, Foucault, Bataille and Virilio; nihilism and the apocalyptic; the practice of writing; virtual reality; the West and the East; the culture of victimhood and repentance; human rights and citizenship; French intellectuals and engagement; the nature of capitalism today; consumer society and social exclusion; liberation; death, violence and necrophilia; reality, illusion and the media; and destabilisation of all aspects of life, including sexuality. Baudrillard's answers—which span politics, philosophy and culture—are concise, witty and trenchant, and they serve both as an accessible introduction to his ideas for the newcomer and as a fascinating clarification of recent positions for the connoisseur.

Oxford Bookworms Library: Stage 6: Cry Freedom-John Briley 2008 They said Steve Biko was a man of violence; then why did he talk of peace? They said he wanted revolution; so why did he talk of friendship? They said he died of hunger; why was his body broken and bruised ? This is the story of a man's fight with the government of South Africa. It is the story of all people who prefer truth to lies. It is the story of all people who cry 'Freedom', and who are not afraid to die.

The Commissariat of Enlightenment-Ken Kalfus 2009-02-24 Russia, 1910. Leo Tolstoy lies dying in Astapovo, a remote railway station. Members of the press from around the world have descended upon this sleepy hamlet to record his passing for a public suddenly ravenous for celebrity news. They have been joined by a film company whose cinematographer, Nikolai Gribshtin, is capturing the extraordinary scene and learning how to wield his camera as a political tool. At this historic moment he comes across two men – the scientist, Professor Vorobev, and the revolutionist, Joseph Stalin – who have radical, mysterious plans for the future. Soon they will accompany him on a long, cold march through an era of brutality and absurdity. The Commissariat of Enlightenment is a mesmerizing novel of ideas that brilliantly links the tragedy and comedy of the Russian Revolution with the global empire of images that occupies our imaginations today.

Corporate Mobility Breakthrough 2020-Lukas Neckermann 2017-02-17 The world of mobility is undergoing a vast transformation. This book highlights the changes inherent in the mobility revolution, and how corporate and commercial users are playing a key role in supporting a breakthrough by 2020.

The Mobility Revolution-Lukas Neckermann 2015-04-28 We stand at the cusp of a mobility revolution unlike anything we have seen since the days of Gottlieb Daimler and Henry Ford, 130 years ago. Three massively significant and converging automotive trends – electrification, self-driving technology and car-sharing – will together transform the way we live, work, and move about in our increasingly urban environment. This book coins the term 'Mobility Revolution' and is a summary of the 'three zeroes' that are already defining the future for the automobile industry: Zero Emissions, Zero Accidents and Zero Ownership. The impact will go beyond the automotive industry and its suppliers – urban infrastructure, construction, logistics – and even local cafés will need to think and operate differently. Based on countless interviews, the book is highly current and thoroughly researched, whilst also fun to read. It is an eye-opener to the new world that awaits us as the Mobility Revolution unfolds. The Mobility Revolution is a must-read for anyone interested in the future of the automobile industry, our cities, and the way we live.

The Hanoverian Dimension in British History, 1714-1837-Brendan Simms 2007-02-08 For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Renault-Hector Mackenzie-Wintle 1998 This photographic record celebrates a 100-year history of Renault cars, drawing on Renault's long history of innovative engineering, dominating characters, flair for business and organization. The title also looks at Renault in the Nazi era. By World War II, the Renault firm was one of France's major industrial concerns and Louis Renault was among the richest and most powerful French industrialists of his day. Later, the Renault company prospered without him, and has continued to design and mass produce a succession of practical and sometimes ground-breaking vehicles. This title is aimed at readers with an interest in Renault, and European automobiles.

The Route 66 Encyclopedia-Jim Hinckley 2012-11-15 An encyclopedia with a twist, The Route 66 Encyclopedia presents alphabetical entries on Route 66 history, landmarks, personalities, and culture, from Bobby Troup's anthem "Route 66" to The Grapes of Wrath to the Wigwam Motel, illustrated with over 1,000 old and new, color and black-and-white photos and memorabilia. You'll learn about Jack Rittenhouse and Will Rogers as well as the contributions of lesser-known figures like Arthur Nelson and Angel Delgadillo. With references to the old (including the history of the U Drop Inn Café in Texas) and new (including a section about the recent Cars movie), The Route 66 Encyclopedia provides a sweeping look at a highway that has become more than just a road. These pages cover the history of Route 66 and the people who played a role in its transformation from highway to icon between 1926 and the present, but like the highway itself, this work does not fit within the traditional confines of generalities or terminology. Yes, this is an encyclopedia, a reference book for all things Route 66. However, it is also a time capsule, a travel guide, a history book, a memorial, a testimonial, and a chronicle of almost a century of societal evolution.

Route 66 Lost & Found-Russell A. Olsen 2006-07-01 Much more than a ribbon of crumbling asphalt, Route 66 is a cultural icon revered the world over for its nostalgia value—an east-west artery pointing America toward all the promise that the great West represented. But as stretches of Steinbeck's "Mother Road" were bypassed and fell into disuse, so too did most of the bustling establishments that had sprouted up from Illinois to California to cater to weary travelers and hopeful vacationers alike.div /DIVdivMotor courts, cafes, main streets, filling stations, and greasy spoons—all are represented in this second volume of Lost & Found images from photographer Russell Olsen. As with its predecessor, Route 66 Lost & Found (2004), this new installment presents dozens of locations along Route 66's entire 2,297 miles, showing them both as in their heydays in period photographs and postcards and as they appear today. Each site is accompanied by a capsule history tracing the locale's rise and fall (and sometimes rebirth), as well as an exclusive map pointing out its location along Route 66./DIVdiv /DIV

Eros-Alberto Bevilacqua 1996 Translated from the Italian by Ann McGarrell Half-memoir, half-meditation, 'Eros' presents an account of the commanding role of physical love in a man's life. The tone is intimate, the details are frank, the love described is always physical, though this is far from being a salacious booked. Attacked by some women, defended by others, the narrator's love of women as women, as physical complements of men, as the object of desire, is always at the centre and Bevilacqua's goal is to identify the deepest meaning of congress.

Sociocultural Anthropology-Barbara Miller 2019-12-12 This is the first multi-volume collection of major writings on cultural anthropology, the sub-field of anthropology which is concerned with how people in different places live and understand the world around them. It covers key methodologies (participant observation, ethnography) and topics (kinship, ritual, values) and maps the development of the field from its beginnings in the mid-nineteenth century through to recent and current debates on the 'critique of anthropology' and the rise of new methodologies such as multi-sited research. The four volumes are arranged thematically and each is separately introduced. Drawing upon essays from anthropology and related disciplines, the volumes together chart the origins of the field, explore its core theories and methods, and trace the proliferation of sub-fields that it has generated, including anthropology of art, urban anthropology, medical anthropology and the anthropology of gender and sexuality.
