Mechanistic-empirical Pavement Design Guide Implementation Plan-Todd E. Hoerner 2007 As AASH is expected to eventually adopt the MEPDG at its primary pavement design method, it is critical that the SDDOT become familiar with the MEPGD documentation and associated design software. The research conducted under this project was a first step toward achieving this goal.

Health Care Quality Management-Thomas K. Ross 2013-12-12 In today's challenging health care environment, health care organizations are faced with improving patient outcomes, redesigning business processes, and executing quality and risk management initiatives. Health Care Quality Management offers an introduction to the field and practice of quality management and reveals the best practices and strategies health care organizations can adopt to improve patient outcomes and program quality. Filled with illustrative case studies that show how business processes can be restructured to achieve improvements in quality, risk reduction, and other key business results and outcomes Clearly demonstrates how to effectively use process analysis tools to identify issues and causes, select corrective actions, and monitor implemented solutions Includes vital information on the use of statistical process control to monitor system performance (variables) and outcomes (attributes) Also contains multiple data sets that can be used to practice the skills and tools discussed and reviews examples of where and how the tools have been applied in health care Provides information on root cause analysis and failure mode effects analysis and offers, as discussion, the clinical tools and applications that are used to improve patient care By emphasizing the tools of statistics and information technology, this book teaches future health care professionals how to identify opportunities for quality improvement and use the tools to make those improvements.

Business Process Oriented Implementation of Standard Software-Mathias Kirchmer 1999-03-11 Here, the author, an SAP R/3 expert and president of a consulting firm, shows readers how companies can achieve strategic goals through business process oriented implementation of software such as SAP R/3, Oracle, or Peoplesoft. The updated second edition of this best-selling title will help managers and consultants understand the necessary methods and tools.

Restorative Care Nursing for Older Adults-Elizabeth Galik, PhD, CRNP 2011-12-05 Named a 2013 Doody's Essential Purchase! "This is a terrific text with good basic information and a level of detail, tools, and practicality that make it a useful resource to get older adults mobilized in any setting."--The Gerontologist "[This] book provides a practical hands-on perspective for implementing function focused care in all settings...[It] is a unique resource that is relevant for all nurses and health care providers working with older adults. In addition to addressing functional decline, function-focused care provides a fresh and practical solution to many of the problems that tend to arise with older adults such as infections, falls, and pressure ulcers all known to be associated with immobility." From the Foreword by Colin Milner CEO, International Council on Active Aging "This book encourages individualization, which is difficult to achieve with more prescriptive approaches. This second edition includes chapters on cognitively impaired adults, ethical issues, and patient-centered care, all of which are so important in long-term care. I found it to be very motivating in the way it helped me apply the philosophy and strategies to elders with whom I come in contact. I would highly recommend this book to anyone working with elders. Score: 95, 4 Stars-- Doody's Medical Reviews The purpose of restorative care nursing (often referred to as function-focused care) is to take an active role in helping older adults maintain their highest level of function, thereby preventing excess disability. This is the only volume to educate caregivers about both the philosophy of restorative care and how to integrate it into all care settings for older adults. Now in its second edition, the text contains updated content in each chapter along with two entirely new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered care. The book provides a complete six-week education program in restorative care for nurses and other caregivers, numerous practical suggestions for beneficial activities that will enhance function, and strategies for motivating both older adults and caregivers to engage in restorative care. Woven throughout the text is research that documents the benefits and expected outcomes of restorative care. The book also includes the requirements for restorative care across all settings, and the necessary documentation. Restorative Care Nursing for Older Adults will help formal and informal caregivers and administrators at all levels assimilate the philosophy of restorative care and be able to develop and implement successful restorative care programs. This New Edition Features: Completely updated information, including two new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered care A six-week education program that teaches practical application of restorative care nursing Helpful suggestions and strategies for motivating older adults and caregivers Education materials designed for nursing home, assisted living, and acute care settings, including required documentation and goal-setting forms Educational materials for family caregivers

Guidelines for Restoring and Creating Wetlands Associated with Highway Projects in South Dakota-Charles R. Berry 2000

Children's and Women's Rights in Nigeria-Adesegun Fatusi 2007
