MCQs for MRCOG Part 1-Richard de Courcy-Wheeler 2003-09-26

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random

to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

More specifically, this Guide provides a way for any organization to measure its CSR performance, so enabling comparison over time and against organization and third-party benchmarks. Using a questionnaire with 25 focused CSR indicators, this CSR Self-Assessment Guide helps users to investigate five key CSR-related areas that are common to most business: - Governance- Environment- Labor Relations- Community Relations- Business Environment The answers are then analysed and scored by the assessor in a robust, logical and defensible way. For each indicator, the scoring method and scoring criteria are explained to help show assessors how the assessment should work. Benefits of completing this Self-Assessment are: - Clear, usable outcomes- Get CSR insights to help your organization.- Unforeseen, positive outcomes can be achieved - streamlining CSR actions and responsibilities. The benefits of using this Guide over others are that you will: - Identify what works well and in what areas the organization has achieved its CSR goals.- Better understand the issues that are helping or hindering the organization achieve better CSR performance.- Show areas within the business that are operating in harmony with CSR goals and those that are problematic. It will be easier then to put things right

savings/opportunity for AUTOSAR improvements? How did the AUTOSAR manager receive input to the development of a AUTOSAR improvement plan and the estimated completion dates/times of each activity? Does the AUTOSAR performance meet the customer's requirements? Have the types of risks that may impact AUTOSAR been identified and analyzed? How can skill-level changes improve AUTOSAR? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role... In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' For more than twenty years, The Art of Service's Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc... - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in AUTOSAR assessment. Featuring 372 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which AUTOSAR improvements can be made. In using the questions you will be better able to: - diagnose AUTOSAR projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in AUTOSAR and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the AUTOSAR Index, you will develop a clear picture of which AUTOSAR areas need attention. Included with your purchase of the book is the AUTOSAR Self-Assessment downloadable resource, containing all questions and Self-Assessment areas of the book.

This enables ease of (re-)use and enables you to import the questions in your preferred management tool. Access instructions can be found in the book. You are free to use the Self-Assessment contents in your presentations and materials for customers without asking us - we are here to help. This Self-Assessment has been approved by The Art of Service as part of a lifelong learning and Self-Assessment program and as a component of maintenance of certification. Effective Learning in the Life Sciences-David J. Adams 2011-09-28  
Effective Learning in the Life Sciences is intended to help ensure that each student achieves his or her true potential by learning how to solve problems creatively in laboratory, field or other workplace setting. Each chapter describes state of the art approaches to learning and teaching and will include case studies, worked examples and a section that lists additional online and other resources. All of the chapters are written from the perspective both of students and academics and emphasize and embrace effective scientific method throughout. This title also draws on experience from a major project conducted by the Centre for Bioscience, with a wide range of collaborators, designed to identify and implement creative teaching in bioscience laboratories and field settings. With a strong emphasis on students thinking for themselves and actively learning about their chosen subject Effective Learning in the Life Sciences provides an invaluable guide to making the university experience as effective as possible.

Successful Accreditation in Echocardiography-Sanjay Banypersad 2011-12-14 Sitting an accreditation examination is a daunting prospect for many trainee echocardiographers. And with an increasing drive for the accreditation of echocardiography laboratories and individual echocardiographers, there is a need for an all-encompassing revision aid for those seeking accreditation. The editors of this unique book have produced the only echocardiography revision aid based on the syllabus and format of the British Society of Echocardiography (BSE) national echocardiography accreditation examination and similar examinations administered across Europe. Written by BSE accredited members, fully endorsed by the BSE, and with a foreword by BSE past-president, DR. Simon Ray, this indispensable guide provides a valuable insight into how echocardiography accreditation exams are structured. Crucially, to support students with the more challenging video section of the exam, a companion website provides video cases, and with clear and concisely-structured explanations to all questions, this is an essential tool for anyone preparing to sit an echocardiography examination.
