Young Mr. Obama-Edward McClelland 2010-10-19 Barack Obama's inspirational politics and personal mythology have overshadowed his fascinating history. Young Mr. Obama gives us the missing chapter: the portrait of the politician as a young leader, often too ambitious for his own good, but still equipped with a rare ability to inspire change. The route to the White House began on the streets of Chicago's South Side. Edward McClelland, a veteran Chicago journalist, tells the real story of the first black president's political education in the capital of the African American political community. Obama's touch wasn't always golden, and the unflappable and charismatic campaigner we know today nearly derailed his political career with a disastrous run for Congress in 2000. Obama learned from his mistakes, and rebuilt his public persona. Young Mr. Obama is a masterpiece of political reporting, peeling away the audacity, the T-shirts, and the inspiring speeches to craft a compelling and surprisingly readable account of how local politics shaped a national leader.

The Toughest Gun Control Law in the Nation-James B. Jacobs 2019-11-05 A comprehensive assessment of real gun reform legislation with recommendations for common sense gun control A month after the Sandy Hook Elementary School shooting, New York State passed, with record speed, the first and most comprehensive state post-Sandy Hook gun control law. In The Toughest Gun Control Law in the Nation, James B. Jacobs and Zoe Fuhr ask whether the 2013 SAFE Act —hailed by Governor Andrew Cuomo as “the nation’s toughest gun control law” - has lived up to its promise. Jacobs and Fuhr illuminate the gap between gun control on the books and gun control in action. They argue that, to be effective, gun controls must be capable of implementation and enforcement. This requires realistic design, administrative and enforcement capacity and commitment and ongoing political and fiscal support. They show that while the SAFE Act was good symbolic politics, most of its provisions were not effectively implemented or, if implemented, not enforced. Gun control in a society awash with guns poses an immense regulatory challenge. The Toughest Gun Control Law in the Nation takes a tough-minded look at the technological, administrative, fiscal and local political impediments to effectively keeping guns out of the hands of dangerous persons and eliminating some types of guns altogether.

Citizen-Protectors-Jennifer Carlson 2015-04-01 From gang- and drug-related shootings to mass shootings in schools, shopping centers, and movie theatres, reports of gun crimes fill the headlines of newspapers and nightly news programs. At the same time, a different kind of headline has captured public attention: a steady surge in pro-gun sentiment among Americans. In Citizen-Protectors, Jennifer Carlson offers a compelling portrait of gun carriers, shedding light on Americans' complex relationship with guns. Delving headlong into the world of guns, Carlson participated in firearms training classes, attending pro-gun events, and carried a firearm herself. Through these experiences, she explores the role guns play in the lives of Americans who carry them and shows how, against a backdrop of economic insecurity and social instability, gun carrying becomes a means of being a good citizen. A much-needed counterpoint to the rhetorical battles over gun control, Citizen-Protectors is a captivating and revealing look at gun culture in America, and a must-read for anyone with a stake in this heated debate.

Pre-incident Indicators of Terrorist Incidents-Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Industrialists in Olive Drab-John H. Ohly 1999-04 NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT--OVERSTOCK SALE -- Significantly reduced list price while supplies last! Industrialists in Olive Drab: The Emergency Operation of Private Industrial Facilities by the War Department During World War II by John H. Ohly, the individual most closely involved with this effort, recounts the unique story of Ohly and his compatriots who were charged with the mission of guaranteeing that private companies sustained the vital war production of weapons, munitions, and other materiel needed by America's fighting men and the Allies to achieve victory overseas. Organized and improved to facilitate the understanding of present-day readers, this carefully edited and revised version by Clayton D. Laurie remains true to Ohly's impressive research, recounting of events, basic facts, and interpretations. For those in the field of defense acquisition, Ohly's history has many lessons, not the least being the resolution of conflicting interests between the needs of the state and those of the private sector within the framework of our constitutional democracy. Historical researchers from high school to graduate school students, and historians as well as veterans, defense acquisitions/procurement teams, and soldiers may find this resource helpful in present day defense acquisitions. Haunted-Randy Wayne White 2015-01-01 "When a wealthy Palm Beach widow hires Hannah Smith to prove that she was sold "stigmatized property" without full disclosure, Hannah realizes she can stop the historic, some say haunted, house from being replaced by condos while tracking her family history. Although she doesn't believe in ghosts, she will learn some things are more dangerous than ghosts"--

Reducing Gun Violence in America-Daniel W. Webster 2013-01-28 The staggering toll of gun violence“which claims 31,000 U.S. lives each year“is an urgent public health issue that demands an effective evidence-based policy response. The Johns Hopkins University convened more than 20 of the world's leading experts on gun violence and policy to summarize relevant research and recommend policies that are both constitutional and have broad public support. Collected for the first time in one volume, this reliable, empirical research and legal analysis will help lawmakers, opinion leaders, and concerned citizens identify policy changes to address mass shootings, along with the less-publicized gun violence that takes an average of 80 lives every day. Selected recommendations include:
• Background checks: Establish a universal background check system for all persons purchasing a firearm from any seller.
• High-risk individuals: Expand the set of conditions that disqualify an individual from legally purchasing a firearm.
• Mental health: Focus federal restrictions on gun purchases by persons with serious mental illness on the dangerousness of the individual.
• Trafficking and dealer licensing: Appoint a permanent director to ATF and provide the agency with the authority to develop a range of sanctions for gun dealers who violate gun sales or other laws.
• Personalized guns: Provide financial incentives to states to mandate childproof or personalized guns.
• Assault weapons and high-capacity magazines: Ban the future sale of assault weapons and the future sale and possession of large-capacity ammunition magazines.
• Research funds: Provide adequate federal funds to the Centers for Disease Control and Prevention, National Institutes of Health, and National Institute of Justice for research into the causes and solutions of gun violence. The book includes an analysis of the constitutionality of many recommended policies and data from a national public opinion poll that reflects support among the majority of Americans“including gun owners“for stronger gun policies.

Steal This Book-Abbie Hoffman 2002-02-25 A handbook of survival and warfare for the citizens of Woodstock Nation A classic of counterculture literature and one of the most influential–and controversial–documents of the twentieth century, Steal This Book is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists. Conceived as an instruction manual for radical social change, Steal This Book is divided into three sections–Survive! Fight! and Liberate! Ever wonder how to start a guerrilla radio station? Or maybe you want to brush up on your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection–“Great when you're stoned.”) Packed with information, advice, and Abbie's unique outlaw wisdom (“Avoid all needle drugs–the only dope worth shooting is Richard Nixon.”), Steal This Book is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."-- Studs Terkel

Suing the Gun Industry-Timothy D. Lytton 2009-04-21 "Mass tort litigation against the gun industry, with its practical weaknesses, successes, and goals, provides the framework for this collection of thoughtful essays by leading social scientists, lawyers, and academics. . . . These informed analyses reveal the complexities that make the debate so difficult to resolve. . . . Suing the Gun Industry masterfully reveals the many details contributing to the intractability of the gun debate." -New York Law Journal "Second Amendment advocate or gun-control fanatic, all Americans who care about freedom need to read Suing the Gun Industry." -Bob Barr, Member of Congress, 1995-2003, and Twenty-First Century Liberties Chair for Freedom and Privacy, American Conservative Union "The source for anyone interested in a balanced analysis of the lawsuits against the gun industry." -David Hemenway, Professor of Health Policy & Director, Harvard Injury Control Research Center Harvard School of Public Health Health Policy and Management Department, author of Private Guns, Public Health "Highly readable, comprehensive, well-balanced. It contains everything you need to know, and on all sides, about the wave of lawsuits against U.S. gun manufacturers." -James B. Jacobs, Warren E. Burger Professor of Law and author of Can Gun Control Work? "In Suing the Gun Industry, Timothy Lytton has assembled some of the leading scholars and advocates, both pro and con, to analyze this fascinating effort to circumvent the well-known political obstacles to more effective gun control. This fine book offers a briefing on both the substance and the legal process of this wave of lawsuits, together with a better understanding of the future prospects for this type of litigation vis-à-vis other industries." -Philip J. Cook, Duke University "An interesting collection, generally representing the center of the gun-control debate, with considerable variation in focus, objectivity, and political realism." -Paul Blackman, retired pro-gun criminologist and advocate Gun litigation deserves a closer look amid the lessons learned from decades of legal action against the makers of asbestos, Agent Orange, silicone breast implants, and tobacco products, among others. Suing the Gun Industry collects the diverse and often conflicting opinions of an outstanding cast of specialists in law, public health, public policy, and criminology and distills them into a complete picture of the intricacies of gun litigation and its repercussions for gun control. Using multiple perspectives, Suing the Gun Industry scrutinizes legal action against the gun industry. Such a broad approach highlights the role of this litigation within two larger controversies: one over government efforts to reduce gun violence, and the other over the use of mass torts to regulate unpopular industries. Readers will find Suing the Gun Industry a timely and accessible picture of these complex and controversial issues. Contributors: Tom Baker Donald Braman Brannon P. Denning Tom Diaz Howard M. The History of Smith and Wesson Firearms-Dean K. Boorman 2002 This fascinating book provides a detailed history of one of the most famous, and controversial, firearms manufacturers, and its products. Smith & Wesson, founded in 1852 by two men, Horace Smith and Daniel B. Wesson who shared a dream of developing a new type of firearm. Their ideas moved firearms manufacturing out of the muzzle- loading era that had dominated the industry since the invention of the hand cannon in the 14th century. Complete with more than 200 full-color photographs, this stunning book describes the range of Smith & Wesson firearms in detail, and features cutaway drawings to show the mechanisms, along with detailed technical evaluations. As well as being of interest to enthusiasts and historians, it will be an excellent reference work and an invaluable guide for collectors.

Congressional Record-United States. Congress 2005 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) Gunsmoke and Saddle Leather-Charles G. Worman 2005 The gun, like the axe and the plow, was an essential tool in the exploration and settlement of the trans-Mississippi West. It provided food for the cooking pot as well as protection against two- or four-legged marauders. As the century progressed, firearms also provided various forms of recreation for both men and women, primarily target and competition shooting. Of course the employment of the gun, whether for good or evil, depended upon the user. The men and women who lived the nineteenth-century western experience sometimes described in detail the role firearms played in their lives. Such accounts included a trapper in the 1830s, a woman crossing the plains by wagon in the 1850s, a drover ("cowboy" in modern terminology) enduring the dangers of a long cattle drive, a professional hunter engaged in the slaughter of the once seemingly endless herds of bison, or a soldier campaigning against American Indians.

Each account adds to our knowledge of firearms and our awareness of the struggle faced by those who were a part of the western experience. Gunsmoke and Saddle Leather describes the gun's impact on the lives of those in the West—men and women, whites and American Indians—using their own words to tell that story wherever possible.

How To Win Friends And Influence People-Dale Carnegie 2014-01-28 With an enduring grasp of human nature, Dale Carnegie's How to Win Friends and Influence People teaches his readers how to handle people without letting them feel manipulated, how to make people feel important without inspiring resentment, how win people over to your point of view without causing offence, and how to make a friend out of just about anyone. Published in 1937, Carnegie's How to Win Friends and Influence People, was originally written as a companion book to his lectures on how to be a good salesperson. However, what began as a basic sales primer, quickly exploded into an overnight success, eventually selling more than 15 million copies worldwide, and pioneering an entire genre of self-help and personal success books.
