Why Forests? Why Now?-Frances Seymour 2016-12-27 Tropical forests are an undervalued asset in meeting the greatest global challenges of our time—averting climate change and promoting development. Despite their importance, tropical forests and their ecosystems are being destroyed at a high and even increasing rate in most forest-rich countries. The good news is that the science, economics, and politics are aligned to support a major international effort over the next five years to reverse tropical deforestation. Why Forests? Why Now? synthesizes the latest evidence on the importance of tropical forests in a way that is accessible to anyone interested in climate change and development and to readers already familiar with the problem of deforestation. It makes the case to decisionmakers in rich countries that rewarding developing countries for protecting their forests is urgent, affordable, and achievable.

Antisemitism, Its History and Causes-Bernard Lazare 1903

A Jewish Voice from Ottoman Salonica-Aron Rodrigue 2012-01-11 This book presents for the first time the complete text of the earliest known Ladino-language memoir, transliterated from the original script, translated into English, and introduced and explicated by the editors. The memoirist, Sa'adi Besalel a-Levi (1820-1903), wrote about Ottoman Jews' daily life at a time when the finely wrought fabric of Ottoman society was just beginning to unravel. His vivid portrayal of life in Salonica, a major port in the Ottoman Levant with a majority Jewish population, thus provides a unique window into a way of life before it disappeared as a result of profound political and social changes and the World Wars. Sa'adi was a prominent journalist and publisher, one of the most significant creators of modern Sephardic print culture. He was also a rebel who accused the Jewish leadership of Salonica of being corrupt, abusive, and fanatical; that leadership, in turn, excommunicated him from the Jewish community. The experience of excommunication pervades Sa'adi's memoir, which documents a world that its author was himself actively involved in changing.

When Scotland Was Jewish-Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical

account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Vocabulary Development-Timothy Rasinski 2019-04-18 Knowledge of word meanings is critical to success in reading. A reader cannot fully understand a text in which the meaning to a significant number of words is unknown. Vocabulary knowledge has long been correlated with proficiency in reading. Yet, national surveys of student vocabulary knowledge have demonstrated that student growth in vocabulary has been stagnant at best. This volume offers new insights into vocabulary knowledge and vocabulary teaching. Articles range from a presentation of theories of vocabulary that guide instruction to innovative methods and approaches for teaching vocabulary. Special emphasis is placed on teaching academic and disciplinary vocabulary that is critical to success in content area learning. Our hope for this volume is that it may spark a renewed interest in research into vocabulary and vocabulary instruction and move toward making vocabulary instruction an even more integral part of all literacy and disciplinary instruction.

Europe's Invisible Migrants-Andrea L. Smith 2003 "Until now, these migrations have been overlooked as scholars have highlighted instead the parallel migrations of former "colonized" peoples. This multidisciplinary volume presents essays by prominent sociologists, historians, and anthropologists on their research with the "invisible" migrant communities. Their work explores the experiences of colonists returning to France, Portugal and the Netherlands, the ways national and colonial ideologies of race and citizenship have assisted in or impeded their assimilation and the roles history and memory have played in this process, and the ways these migrations reflect the return of the "colonial" to Europe."--BOOK JACKET.

Gender, migration and categorisation-Marlou Schrover 2014-02-08 All people are equal, according to Thomas Jefferson, but all migrants are not. This volume looks at how they are distinguished in France, the United States, Turkey, Canada, Mexico, the Netherlands, Sweden, and Denmark made through history between migrants and how these were justified in policies and public debates. The chapters form a triptych, addressing in three clusters the problematization of questions such as 'who is a refugee', 'who is family' and 'what is difference'. The chapters in this volume show that these are not separate issues. They intersect in ways that vary according to countries of origin and settlement, economic climate, geopolitical situation, as well as by gender, and by class, ethnicity, religion, and sexual orientation of the migrants.

Jewish Treasures of the Caribbean- 2016-12-28 This photographic essay highlights the little-known history of the first Jewish communities established in the New World dating to the 1600s. Award-winning photographer Wyatt Gallery documents the oldest synagogues and cemeteries on Barbados, Curacao, Jamaica, St. Thomas, St. Eustatius, and Suriname through his singular style of photos with histories written by Stanley Mirvis. The enclaves, formed by Sephardic Jews who fled the Catholic Inquisition, became so influential that they helped fuel the success of the American Revolution and partially finance the first synagogues in New York City and Newport, Rhode Island. Once home to thousands, today these historic communities are rapidly dwindling and could soon disappear. Only five historic synagogues remain in use, and many of the cemeteries have been damaged or lost to natural disasters, vandalism, and pollution. These photographs bear witness to the legacy of New World Judaism and provide a record for future generations.

First Form Latin Student Text- 2009-10-16 First Form s grammar-first approach focuses on grammar forms and vocabulary because those are the grammar

stage skills suitable for the grammar stage student. However, the First Form Series is for students of all ages because all beginners, regardless of age, are in the grammar stage of learning. Syntax (how to use the grammar) and translation are logic and rhetoric stage skills, respectively, and quickly overwhelm the student unless they are introduced at a slow, gentle pace and taught for mastery. First Form is the ideal text for all beginners, grades 5 & up, or is a great follow-up to Latina Christiana I at any age. Now every school and homeschool can have a truly successful Latin program that creates Latin scholars rather than Latin drop-outs After mastering First Form, the student will have a solid grasp on the six indicative active tenses of the first two verb conjugations, five noun declensions, first and second declension adjectives, and 185 vocabulary words."
