A Therapist's Guide to Child Development-Dee C. Ray 2015-10-14 A Therapist's Guide to Child Development gives therapists and counselors the basics they need to understand their clients in the context of development and to explain development to parents. The chapters take the reader through the various physical, social, and identity developments occurring at each age, explaining how each stage of development is closely linked to mental health and how that is revealed in therapy. This ideal guide for students, as well as early and experienced professionals, will also give readers the tools to communicate successfully with the child's guardians or teachers, including easy-to-read handouts that detail what kind of behaviors are not cause for concern and which behaviors mean it's time to seek help. As an aid to practitioners, this book matches developmental ages with appropriate, evidence-based mental health interventions.

The Counselor's Steps for Progress Notes-Rhonda Sutton 2015-06-21 Dr. Rhonda Sutton's second edition of the straightforward guide to progress notes includes additional examples, information, documentation, and clinical language that expands on the utility and readability of the first book. Additional case studies provide examples of how to use the STEPs to format notes. New chapters include information on clinical language and documentation. This book covers everything about progress notes, from how to write them, to how to store them, and even what to do when someone requests to them. In addition, clinical terms and abbreviations are included as well as suggestions for other clinical documentation such as termination letters, privacy statements, and professional disclosure statements. Suited for all types of mental health clinicians, this book will help therapists improve upon their progress notes and other forms of clinical documentation.

Case Documentation in Counseling and Psychotherapy: A Theory-Informed, Competency-Based Approach-Diane R. Gehart 2015-02-27 CASE DOCUMENTATION IN COUNSELING AND PSYCHOTHERAPY teaches counselors and psychotherapists how to apply counseling theories in real-world settings. Written in a clear, down-to-earth style, the text provides a comprehensive introduction to case documentation using four commonly used clinical forms: case conceptualization, clinical assessment, treatment plan, and progress note. These documents incorporate counseling theory and help new practitioners understand how to use theory in everyday practice. Case studies illustrate how to complete documentation using each of seven counseling models. Readers also learn about the evidence base for each theory as well as applications for specific populations. Designed to produce measurable results that have value beyond the classroom, the text employs learning-centered, outcome-based pedagogy to engage students in an active learning process. Its case documentation assignments-created using national standards-help students apply concepts and develop professional skills early on in their training. When students become practicing mental health professionals they can use this book-with its practical overviews of theories, conceptualization, treatment planning, and documentation-as a clinical reference manual. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Gospel According to Mamma-Annette Bridges 2014-05-14 The Gospel According to Mamma is a collection of twenty-one extraordinary lessons the author learned from her charming and captivating mamma. These “mamma teachings” are packed with sassy inspiration, practical insights and real-life anecdotes. Leaving Georgia with her mamma late one September night when her daddy was en route to end their lives marked the beginning of a lifetime of instruction. How to maintain faith in God and yourself, love the hell out of folks and be happy when there's no obvious reason to be are just a few of the messages you'll find in this book. PRAISE FOR THE GOSPEL ACCORDING TO MAMMA “Annette’s first book is a winner! She picked the perfect subject - her irrepressibly joyous mother, who has given her daughter important and inspiring words of wisdom to cherish. If you yearn to help your daughter navigate life experiences with assurance and spunk, give her The Gospel According to Mamma.” —Mary Jo Beebe, coauthor of Jesus’ Healings and New Testament Healings “If only there

were more mothers like Annette Bridges' mamma: always encouraging, always believing the best of her children, a 'steel magnolia' whose motherly advice is based on the Bible and common sense. Remembering events in her own past, Annette gives us 21 valuable life lessons based on the wisdom of her indefatigable Southern mamma."—Renee Corley, former editor at UPI's religionandspirituality.com "Once you get to the end of reading about Mamma and her wonderful lessons, you will walk away a little wiser. Annette puts life in perspective. She lives a fulfilling life, just as her Mamma taught her. Whether to find your faith, believe in your self or master the ability to see the good in others, Mamma lessons help you find the positive. There is much to learn from these strong and inspiring women." —SingleMom.com "A look into the heart and soul of Annette Bridges. It could be anyone's story, but it couldn't be told any better." —Bob Belcher, Managing Editor, Corsicana Daily Sun "For anyone who has ever had a mother (and you know who you are), synthesizing that experience can leave many of us speechless. It is 'good news' that Annette Bridges is at no loss for words. She liberally shares her mom's gospel in deep drafts of down-to-earth good sense and faith, liberally laced with Southern humor." —Susan J. Cobb, author of Virgin Territory: How I Found My Inner Guadalupe "Irresistibly heartfelt. Perfect for all mothers and daughters, past, present and future!" —Jennifer Bridges, author's daughter and Ph.D. student "I have been hearing stories about Nellie, Annette's Mamma for the last 25 years. Annette makes you feel like you are sitting down with her in her ranch house or on that beach she talks about going to while she shares her Mamma with you from her perspective, with the insights she has gained over her lifetime. I hope you enjoy getting to know Nellie and Annette, 2 Georgia peaches transplanted to Texas. I love the way Annette brings the Bible into her daily life and shares it with us so that we can feel the love of God that is so present today in her life and illustrates how the Bible can show us how to go in ours. Way to go Girlfriend... you finally did it! You wrote a book and it's a winner! I can't wait to share this with my family and friends!" —Kathy Glover, friend to both Annette and her mamma

Fatherhood-H. Elizabeth Peters 2014-03-18 How much power does a father have to influence his children's development? A lively and often heated public debate on the role and value of the father in a family has been underway in the United States for the past decade. Nevertheless, we are far from understanding the complex ways in which fathers make contributions to their families and children. *Fatherhood: Research, Interventions, and Policies* addresses the central questions of the role of fathers: • What is the impact of father involvement on child outcomes? • What factors predict increased involvement of fathers? Bringing together papers presented at the Conference on Father Involvement, this volume includes contributions by leading scholars in anthropology, demography, economics, family science, psychology, and sociology. Many of the contributors also address the implications of father involvement for family policy issues, including family leave, child care, and child support. Furthermore, the discussion of fatherhood ranges well beyond the case of intact, middle-class, white families to include fathers from various ethnic groups and socioeconomic classes and of varied marital status, including fathers of nonmarital children, single-father families, and nonresident fathers. *Fatherhood: Research, Interventions, and Policies* addresses both practical and theoretical concerns, including: the redefinition of fatherhood changes over time in research on fatherhood the predictive power of fathers' activities on their children's adult outcomes the correlation between fathers' income and their involvement with their nonmarital children the influence of fathers on their sons' probability of growing up to become responsible fathers the effects of divorce on father-son and father-daughter relationships interventions that help to keep divorced fathers in touch with their children This comprehensive, powerful book combines pioneering empirical research with thoughtful consideration of the social and psychological implications of fatherhood. It is essential reading for researchers, policymakers, psychologists, and students of family studies, human development, gender studies, social policy, sociology, and human ecology.

Dominant Wives Society and Their Cuckold Husbands Volume 9-Candy Kross 2016-05-12 I was home for a couple of hours and then I heard the front door open and Anna came inside. I heard her giggling and another man's voice. I was in the guest room, just in case she did bring a man home with her. "So, are you married?" I heard the stranger's voice say. "No way. You think a man can tame me long enough to marry me?" Anna said in her sultry voice I immediately recognized. She had used it on me many times before. "You're so damn hot." The stranger said. I knew my Anna was hot. She always gathered stares from men who looked at her for the first time. It was hard to take your eyes away from her. I walked to the top of the stairs and watched as they held each other and kissed. I was beginning to feel jealous. I guess when she said she wanted sex with other men, I didn't fathom that kissing would be involved. But, then I thought to myself, of course it would be. It goes along with sex. I just thought in my mind that kissing was intimate.

Children and the Internet-Sonia Livingstone 2013-05-06 Is the internet really transforming children and young people's lives? Is the so-called 'digital generation' genuinely benefiting from exciting new opportunities? And, worryingly, facing new risks? This major new book by a leading researcher addresses these pressing questions. It deliberately avoids a techno-celebratory approach and, instead, interprets children's everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity. Uniquely, Children and the Internet reveals the complex dynamic between online opportunities and online risks, exploring this in relation to much debated issues such as: Digital in/exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity, development, education and participation, this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet - from governments, teachers, parents and children themselves. It concludes with a forward-looking framework for policy and regulation designed to advance children's rights to expression, connection and play online as well as offline.

Theoretical Principles of Distance Education-Desmond Keegan 2005-08-15 According to UNESCO statistics, 10 million of the world's 600 million students study at a distance. Theoretical Principles of Distance Education seeks to lay solid foundations for the education of these students and for the structures within which they study. As a more industrialised form of education provision, distance education is well adapted to the use of new communication technologies, and brings to education many of the strengths and dangers of post-industrialism. The central focus of the study of distance education is the placing of the student at home or at work and the justification of the abandonment in this form of education of interpersonal, face-to-face communication, previously considered to be a cultural imperative for education in both east and west. This book explores the problems that distance education poses to the theorist, bringing together an international team of distance educators to address these issues for the first time in a systematic way. The team comprises theoreticians, administrators, experts in educational technology and adult education, experts in learning from video machines, from computers and other forms of technology. Contributions from Italy, and Scandinavia contrast with viewpoints provided by scholars from the US, Canada, Australia, and the UK.
