Rhetoric Retold-Cheryl Glenn 1997 After explaining how and why women have been excluded from the rhetorical tradition from antiquity through the Renaissance, Cheryl Glenn provides the opportunity for Sappho, Aspasia, Diotima, Hortensia, Fulvia, Julian of Norwich, Margery Kempe, Margaret More Roper, Anne Askew, and Elizabeth I to speak with equal authority and as eloquently as Plato, Aristotle, Cicero, and Augustine. Her aim is nothing less than regendering and changing forever the history of rhetoric. To that end, Glenn locates women's contributions to and participation in the rhetorical tradition and writes them into an expanded, inclusive tradition. She regenders the tradition by designating those terms of identity that have promoted and supported men's control of public, persuasive discourse -- the culturally constructed social relations between, the appropriate roles for, and the subjective identities of women and men. Glenn is the first scholar to contextualize, analyze, and follow the migration of women's rhetorical accomplishments systematically. To locate these women, she follows the migration of the Western intellectual tradition from its inception in classical antiquity and its confrontation with and ultimate appropriation by evangelical Christianity to its force in the medieval Church and in Tudor arts and politics. Glenn sets the scope of her study from antiquity to the Renaissance for several reasons, not the least of which is that the Enlightenment saw the end of classical rhetoric as the dominant and most influential system of education and communication. Equally important, the Enlightenment brought about the demise of the one-sex model of humanity that centered on the telos of perfect maleness --with women and children being perceived as undeveloped men. Glenn expands the history of rhetoric by including the contributions of women. She is not writing a compensatory history or a history of rhetoric by women; she is integrating the rhetorical accomplishments of women into the context of the male-dominated and male-documented rhetorical tradition and, in the process, enriching that tradition.

The Hodges' Harbrace Handbook and the Writer's Harbrace Handbook-Cheryl Glenn 2012-01-01

Unspoken-Cheryl Glenn 2004 In our talkative Western culture, speech is synonymous with authority and influence while silence is frequently misheard as passive agreement when it often signifies much more. In her groundbreaking exploration of silence as a significant rhetorical art, Cheryl Glenn articulates the ways in which tactical silence can be as expressive and strategic an instrument of human communication as speech itself. Drawing from linguistics, phenomenology, feminist studies, anthropology, ethnic studies, and literary analysis, Unspoken: A Rhetoric of Silence theorizes both a cartography and grammar of silence. By mapping the range of spaces silence inhabits, Glenn offers a new interpretation of its complex variations and uses. Glenn contextualizes the rhetoric of silence by focusing on selected contemporary examples. Listening to silence and voice as gendered positions, she analyzes the highly politicized

silences and words of a procession of figures she refers to as "all the President's women," including Anita Hill, Lani Guiner, Gennifer Flowers, and Chelsea Clinton. She also turns an investigative ear to the cultural taciturnity attributed to various Native American groups—Navajo, Apache, Hopi, and Pueblo—and its true meaning. Through these examples, Glenn reinforces the rhetorical contributions of the unspoken, codifying silence as a rhetorical device with the potential to deploy, defer, and defeat power. *Unspoken* concludes by suggesting opportunities for further research into silence and silencing, including music, religion, deaf communities, cross-cultural communication, and the circulation of silence as a creative resource within the college classroom and for college writers.

Rhetorical Education in America-Cheryl Jean Glenn 2009-03-15 A timely collection of essays by prominent scholars in the field—on the past, present, and future of rhetoric instruction. From Isocrates and Aristotle to the present, rhetorical education has consistently been regarded as the linchpin of a participatory democracy, a tool to foster civic action and social responsibility. Yet, questions of who should receive rhetorical education, in what form, and for what purpose, continue to vex teachers and scholars. The essays in this volume converge to explore the purposes, problems, and possibilities of rhetorical education in America on both the undergraduate and graduate levels and inside and outside the academy. William Denman examines the ancient model of the "citizen-orator" and its value to democratic life. Thomas Miller argues that English departments have embraced a literary-research paradigm and sacrificed the teaching of rhetorical skills for public participation. Susan Kates explores how rhetoric is taught at nontraditional institutions, such as Berea College in Kentucky, where Appalachian dialect is espoused. Nan Johnson looks outside the academy at the parlor movement among women in antebellum America. Michael Halloran examines the rhetorical education provided by historical landmarks, where visitors are encouraged to share a common public discourse. Laura Gurak presents the challenges posed to traditional notions of literacy by the computer, the promises and dangers of internet technology, and the necessity of a critical cyber-literacy for future rhetorical curricula. Collectively, the essays coalesce around timely political and cross-disciplinary issues. *Rhetorical Education in America* serves to orient scholars and teachers in rhetoric, regardless of their disciplinary home, and help to set an agenda for future classroom practice and curriculum design.
