A Beginner's Guide to Immortality-Clifford Pickover 2009-04-13 A Beginner's Guide to Immortality is a celebration of unusual lives and creative thinkers who punched through ordinary cultural norms while becoming successful in their own niches. In his latest and greatest work, world-renowned science writer Cliff Pickover studies such colorful characters as Truman Capote, John Cage, Stephen Wolfram, Ray Kurzweil, and Wilhelm Rontgen, and their curious ideas. Through these individuals, we can better explore life's astonishing richness and glimpse the diversity of human imagination. Part memoir and part surrealistic perspective on culture, A Beginner's Guide to Immortality gives readers a glimpse of new ways of thinking and of other worlds as he reaches across cultures and peers beyond our ordinary reality. He illuminates some of the most mysterious phenomena affecting our species. What is creativity? What are the religious implications of mosquito evolution, simulated Matrix realities, the brain's own marijuana, and the mathematics of the apocalypse? Could we be a mere software simulation living in a matrix? Who is Elisabeth Kübler-Ross and Emanuel Swedenborg? Did church forefathers eat psychedelic snails? How can we safely expand our minds to become more successful and reason beyond the limits of our own intuition? How can we become immortal?

The beauty and extraordinariness of words used in literature may help increase students' aesthetic and intellectual growth. Studying literature is not merely cognitive oriented but also transformative. By gaining knowledge about literature from a variety of culture across the world, students can grow their sense of becoming human beings so as to develop their global citizenship, tolerance and ethical responsibility. Only then can people foster positive attitudes, put aside resentment and bigotry, remove anger and bitterness. The purpose of this guidebook is thus to make students aware of the joy, charm and fascination of reading literary works, while cultivating their artistic, affective and social aspects of life through the power of words.
