The Oxford Handbook of British Politics-Matthew Flinders 2009-07-16 The Oxford Handbook of British Politics provides the most sophisticated and up-to-date analysis of British politics to date. Essential for all those working in the area.

The Oxford Handbook of British Poetry, 1660-1800-Jack Lynch 2016 In the most comprehensive, up-to-date account of the poetry published in Britain between the Restoration and the end of the eighteenth century, a team of leading experts surveys the poetry of the age in all its richness and diversity. They provide a systematic overview, and restore these poetic works to a position of centrality in modern criticism.

The Oxford Handbook of British Philosophy in the Seventeenth Century-Peter R. Anstey 2013-06-27 The Oxford Handbook of British Philosophy in the Seventeenth Century comprises twenty-six new essays by leading experts in the field. This unique scholarly resource provides advanced students and scholars with a comprehensive overview of the current issues that are informing research on the subject, while at the same time offering new lines of research. The volume is ambitious in scope and far reaching in impact. It covers the whole of the seventeenthcentury, ranging from Francis Bacon, who flourished early in the century, to John Locke and Isaac Newton, who rose to prominence as the century drew to a close. In addition to dealing with canonical authors and celebrated texts, such as Thomas Hobbes and his Leviathan, the Handbook discusses many lesser knowfigures and debates from the period, whose importance is only now being appreciated.

The Oxford Handbook of British Romanticism-David Duff 2018-08-30 This handbook provides a comprehensive overview of British Romantic literature and an authoritative guide to all aspects of the movement including its historical, cultural, and intellectual contexts, and its connections with the literature and thought of other countries. All the major Romantic writers are covered alongside lesser known writers.

The Oxford Handbook of the British Musical-Robert Gordon 2016 The first comprehensive academic survey of British musical theatre from its origins, The Oxford Handbook of the British Musical offers both a historical account of musical theatre from 1728 and a range of in-depth critical analyses of key works and productions that illustrate its aesthetic values and sociocultural meanings.

The Oxford Handbook of British Philosophy in the Eighteenth Century-James A. Harris 2013-10-03 Philosophy in eighteenth-century Britain was diverse, vibrant, and sophisticated. This was the age of Hume and Berkeley and Reid, of Hutcheson and Kames and Smith, of Ferguson and Burke and Wollstonecraft. Important and influential works were published in every area of philosophy, from the theory of vision to theories of political resistance, from the philosophy of language to accounts of ways of governing the passions. The philosophers of eighteenth-century Britain were enormously influential, in France, in Italy, in Germany, and in America. Their ideas and arguments remain a powerful presence in philosophy three centuries later. This Oxford Handbook is the first book ever to provide comprehensive coverage of the full range of philosophical writing in Britain in the eighteenth century. It provides accounts of all the major figures, but also puts those figures in the context provided by a host of writers less well known today. The book has five principal sections: 'Logic and Metaphysics', 'The Passions', 'Morals', 'Criticism', and 'Politics'. Each section comprises four chapters, providing detailed coverage of all of the important aspects of its subject matter. There is also an introductory section, with chapters on the general character of philosophizing in eighteenth-century Britain, and a concluding section on the important question of the relation at this time between philosophy and religion. The authors of the chapters are experts in their fields. They include philosophers, historians, political theorists, and literary critics, and they teach in colleges and universities in Britain, in Europe, and in North America.

The Oxford Handbook of Roman Britain-Martin Millett 2016 This handbook is currently in development, with individual articles publishing online in advance of print publication. At this time, we cannot add information about unpublished articles in this handbook, however the table of contents will continue to grow as additional articles pass through the review process and are added to the site. Please note that the online publication date for this handbook is the date that the first article in the title was published online. Roman Britain is a critical area of research within the provinces of the Roman empire. Within the last 15-20 years, the study of Roman Britain has been transformed through an enormous amount of new and interesting work which is not reflected in the main stream literature.

The Oxford Handbook of Modern British Political History, 1800-2000-David Brown 2018-04-05 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed, the duties of the state, and its role in the wider world. Powerful processes—from the development of democracy, the changing nature of the social contract, war, and economic dislocation—have challenged, and at times threatened to overwhelm, both governors and governed. Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics. This Handbook shows the ways in which political historians have responded to these challenges, providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies. It comprises thirty-three thematic essays by leading and emerging scholars in the field. Collectively, these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research. The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought-provoking 'long view' for those interested in current political challenges.

The Oxford Handbook of the English Revolution-Michael J. Braddick 2015 This handbook brings together leading historians of the events surrounding the English revolution, exploring how the events of the revolution grew out of, and resonated, in the politics and interactions of the each of the Three Kingdoms - England, Scotland, and Ireland. It captures a shared British and Irish history, comparing the significance of events and outcomes across the Three Kingdoms. In doing so, theHandbook offers a broader context for the history of the Scottish Covenanters, the Irish Rising of 1641, and the government of Confederate Ireland, as well as the British and Irish perspective on the English civil wars, the English revolution, the Regicide, and Cromwellian period. The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies. The events are approached not simply as political, economic, and social crises, but as challenges to the predominant forms of religious and political thought, social relations, and standard forms of cultural expression. The contributors provide up-to-date analysis of the political happenings, considering the structures of social and political life that shaped and were re-shaped by the crisis. The Handbook goes on to explore the long-term legacies of the crisis in the Three Kingdoms and their impact in a wider European context.

The Oxford Handbook of British and Irish War Poetry-Tim Kendall 2007-02-22 The Handbook ranges widely and in depth across 20th-century war poetry, incorporating detailed discussions of some of the key poets of the period. It is an essential resource for scholars of particular poets and for those interested in wider debates. Contributors include some of the most important international poetry critics of our time.

The Oxford Handbook of the Ends of Empire-Martin Thomas 2019-02-06 This handbook is currently in development, with individual articles publishing online in advance of print publication. At this time, we cannot add information about unpublished articles in this handbook, however the table of contents will continue to grow as additional articles pass through the review process and are added to the site. Please note that the online publication date for this handbook is the date that the first article in the title was published online.

The Oxford Handbook of the British Sermon 1689-1901-William Gibson 2012-10-04 The period 1689-1901 was 'the golden age' of the sermon in Britain. Sermons out-sold other books until the mid-nineteenth century and were a key part of peoples' religious worship. Sermons influenced the outcome of elections, they challenged science and were used as vehicles for popular campaigns such as that for the abolition of slavery. The popularity of sermons should not be underestimated. Preachers attracted huge crowds, the Baptist minister Charles Spurgeonregularly preached to 5,000 people, and the popular demand for sermons was never higher. Sermons were also taken by missionaries and clergy across the British empire. Sermons varied widely in form, andthis enabled preaching to be adopted and shaped by every denomination, so that in this period most religious groups could lay claim to a sermon culture.

The Oxford Handbook of the American Revolution-Edward G. Gray 2013-01-10 The Oxford Handbook of the American Revolution introduces scholars, students and generally interested readers to the formative event in American history. In thirty-three individual essays, the Handbook provides readers with in-depth analysis of the Revolution's many sides.

The Oxford Handbook of Business and Government-David Coen 2010-02-25 This text provides an introduction to the ways in which five different disciplines have approached the study of business and government. It examines how business interacts with government in different parts of the world, including the United States, the EU, China, Japan and South America.

The Oxford Handbook of Business History-Geoffrey Jones 2008-01-24 This Handbook shows that Business History is a wide-ranging and dynamic area of study, producing compelling empirical data, which has sometimes confirmed and sometimes contested widely-held views in management and the social sciences. A key reference work for scholars of Business History, and a fascinating resource for social scientists in general.

The Oxford Handbook of Comparative Politics-Susan Carol Stokes 2007 The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 48 top scholars in the discipline of comparative politics

The Oxford Handbook of Work and Organization-Stephen Ackroyd 2006 Aims to bring together, present, and discuss what is known about work and organizations and their connection to broader economic change in Europe and America. This volume contains a range of theoretically informed essays, which give comprehensive coverage of changes in work, occupations, and organizations.

The Oxford Handbook of Archaeology-Barry W. Cunliffe 2009 This handbook provides an authoritative guide to the full range of archaeological activities past and present. It will give the reader a sense of the history of the subject and of the main theoretical debates, as well as a taste of the excitement generated by archeological exploration.

The Oxford Handbook of British Philosophy in the Nineteenth Century-William J. Mander 2014-02 This is the first book to provide comprehensive coverage of the full range of philosophical writing in Britain in the nineteenth century. A team of experts provide new accounts of both major and lesser-known thinkers, and explores the diverse approaches in the period to logic and metaphysics, the passions, morality, criticism, and politics.--

The Oxford Handbook of Contemporary British and Irish Poetry-Peter Robinson 2013-09-26 This title offers an authoritative and up-to-date collection of original essays bringing together ground breaking research into the development of contemporary poetry in Britain and Ireland.

The Oxford Handbook of Management-Adrian Wilkinson 2017-03-09 Management - the pursuit of objectives through the organization and co-ordination of people - has been and is a core feature, and function, of modern society. Some 'classic' forms of corporate and bureaucratic management may come to be seen as a prevalent form of organization and organizing in the 20th century, and in the post-Fordist, global, knowledge driven contemporary world we are seeing different patterns, principles, and styles of management as old models are questioned. The functions, ideologies, practices, and theories of management have changed over time, as recorded by many scholars; and may vary according to different models of organization; and between different cultures and societies. OThe purpose of this Handbook is to analyse and explore the evolution of management; the core functions and how they may have changed; its position in the culture/zeitgeist of modern society; the institutions and ideologies that support it; and likely challenges and changes in the future. This book looks at what management is, and how this may change over time. It provides an overview of management - its history, development, context, changing function in organization and society, key elements and functions, and contemporary and future challenges.

The Oxford Handbook of the Welfare State-Francis G. Castles 2012-09-06 The Oxford Handbook of the Welfare State is the authoritative and definitive guide to the contemporary welfare state. In a volume consisting of nearly fifty newly-written chapters, a broad range of the world's leading scholars offer a comprehensive account of everything one needs to know about the modern welfare state. The book is divided into eight sections. It opens with three chapters that evaluate the philosophical case for (and against) the welfare state. Surveys of the welfare state's history and of the approaches taken to its study are followed by four extended sections, running to some thirty-five chapters in all, which offer a comprehensive and in-depth survey of our current state of knowledge across the whole range of issues that the welfare state embraces. The first of these sections looks at inputs and actors (including the roles of parties, unions, and employers), the impact of gender and religion, patterns of migration and a changing public opinion, the role of international organisations and the impact of globalisation. The next two sections cover policy inputs (in areas such as pensions, health care, disability, care of the elderly, unemployment, and labour market activation) and their outcomes (in terms of inequality and poverty, macroeconomic performance, and retrenchment). The seventh section consists of seven chapters which survey welfare state experience around the globe (and not just within the OECD). Two final chapters consider questions about the global future of the welfare state. The individual chapters of the Handbook are written in an informed but accessible way by leading researchers in their respective fields giving the reader an excellent and truly up-to-date knowledge of the area under discussion. Taken together, they constitute a comprehensive compendium of all that is best in contemporary welfare state research and a unique guide to what is happening now in this most crucial and contested area of social and political development.

The Oxford Handbook of Eighteenth-Century Satire-Paddy Bullard 2019-07-24 Eighteenth century Britain thought of itself as a polite, sentimental, enlightened place, but often its literature belied this self-image. This was an age of satire, and the century's novels, poems, plays, and prints resound with mockery and laughter, with cruelty and wit. The street-level invective of Grub Street pamphleteers is full of satire, and the same accents of raillery echo through the high scepticism of the period's philosophers and poets, many of whom were part-time pamphleteers themselves. The novel, a genre that emerged during the eighteenth century, was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets. This Handbook is a guide to the different kinds of satire written in English during the 'long' eighteenth century. It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789. Outlier chapters extend the story back to first decade of the seventeenth century, and forward to the second decade of the nineteenth. The scope of the volume is not confined by genre, however. So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature. The Oxford Handbook of Eighteenth-Century Satire reflects developments in historical criticism of eighteenth-century writing over the last two decades, and provides a forum in which the widening diversity of literary, intellectual, and socio-historical approaches to the period's texts can come together.

Oxford Handbook of GUM and HIV-Laura Mitchell 2019-04-25 The Oxford Handbook of Genitourinary Medicine, HIV, and Sexual Health returns for a third edition, fully updated to encompass the changes in the British Association for Sexual Health and HIV, British HIV Association, and Faculty of Sexual & Reproductive Healthcare guidelines and recommendations. Developments in sexual healthcare provision, including identifying child sexual exploitation, legal obligations in regard to female genital mutilation, and gender diversity, are covered in new chapters and topics. HIV management is covered in greater detail, including PrEP for prophylaxis, drug interactions during treatment, and antiretroviral toxicity, with expanded topics on managing pregnancy with HIV. More colour plates are included, to feature a greater number of common dermatological presentations in genitourinary medicine and HIV to better aid diagnosis. Maintaining the concise yet comprehensive style of the Oxford Handbook series, The Oxford Handbook of Genitourinary Medicine, HIV, and Sexual Health provides a wealth of detailed, evidence-based, and clinically focused information on all aspects of the discipline, from STI diagnosis and management to medico-legal issues. This Handbook is a key single reference work for healthcare professionals, sexual health specialists, trainee doctors, and nurses with an interest in the field, making it an indispensable resource to keep on hand at all times.

The Oxford Handbook of Fascism-R. J. B. Bosworth 2010 The essays in this Handbook, written by an international team of distinguished scholars, combine to explore the way in which fascism is understood by contemporary scholarship, as well as pointing to areas of continuing dispute and discussion. From a focus on Italy as, chronologically at least, the 'first Fascist nation', the contributors cover a wide range of countries, from Nazi Germany and the comparison with Soviet Communism to fascism in Yugoslavia and its successor states. The book also examines the roots of fascism before 1914 and its survival, whether in practice or in memory, after 1945. The analysis looks at both fascist ideas and practice, and at the often uneasy relationship between the two. The book is not designed to provide any final answers to the fascist problem and no quick definition emerges from its pages. Readers will rather find there historical debate. On appropriate occasions, the authors disagree with each other and have not been forced into any artificial 'consensus', offering readers the chance to engage with the debates over a phenomenon that, more than any other single factor, led humankind into the catastrophe of the Second World War.

The Oxford Handbook of Later Medieval Archaeology in Britain-Christopher Gerrard 2018-01-18 The Middle Ages are all around us in Britain. The Tower of London and the castles of Scotland and Wales are mainstays of cultural tourism and an inspiring cross-section of later medieval finds can now be seen on display in museums across England, Scotland, and Wales. Medieval institutions fromParliament and monarchy to universities are familiar to us and we come into contact with the later Middle Ages every day when we drive through a village or town, look up at the castle on the hill, visit a local church or wonder about the earthworks in the fields we see from the window of a train.The Oxford Handbook of Later Medieval Archaeology in Britain provides an overview of the archaeology of the later Middle Ages in Britain between AD 1066 and 1550. 61 entries, divided into 10 thematic sections, cover topics ranging from later medieval objects, human remains, archaeological science,standing buildings, and sites such as castles and monasteries, to the well-preserved relic landscapes which still survive. This is a rich and exciting period of the past and most of what we have learnt about the material culture of our medieval past has been discovered in the past two generations.This volume provides comprehensive coverage of the latest research and describes the major projects and concepts that are changing our understanding of our medieval heritage.

The Oxford Handbook of Anglo-Saxon Archaeology-Helena Hamerow 2011-03-31 Written by a team of experts and presenting the results of the most up-to-date research, The Handbook of Anglo-Saxon Archaeology will both stimulate and support further investigation into a society poised at the interface between prehistory and history.

The Oxford Handbook of Global Justice-Thom Brooks 2020-02-27 Global justice is an exciting area of refreshing, innovative new ideas for a changing world facing significant challenges. Not only does work in this area often force us to rethink about ethics and political philosophy more generally, but its insights contain seeds of hope for addressing some of the greatest global problems facing humanity today. The Oxford Handbook of Global Justice has been selective in bringing together some of the most pressing topics and issues in global justice as understood by the leading voices from both established and rising stars across twenty-five new chapters. This Handbook explores severe poverty, climate change, egalitarianism, global citizenship, human rights, immigration, territorial rights, and much more.

The Oxford Handbook of Publishing-Angus Phillips 2019-04-18 Publishing is one of the oldest and most influential businesses in the world. It remains an essential creative and knowledge industry, worth over \$140 billion a year, which continues to shape our education and culture. Two trends make this a particularly exciting time. The first is the revolution in communications technology that has transformed what it means to publish; far from resting on their laurels and retreating into tradition, publishers are doing as they always have - staying on the cutting edge. The second is the growing body of academic work that studies publishing in its many forms. Both mean that there has never been a more important time to examine this essential practice and the current state of knowledge. The Oxford Handbook of Publishing marks the coming of age of the scholarship in publishing studies with a comprehensive exploration of current research, featuring contributions from both industry professionals and internationally renowned scholars on subjects such as copyright, corporate social responsibility, globalizing markets, and changing technology. This authoritative volume looks at the relationship of the book publishing industry with other media, and how intellectual property underpins what publishers do. It outlines the complex and risky economics of the industry and examines how marketing, publicity, and sales have become ever more central aspects of business practice, while also exploring different sectors in depth and giving full treatment to the transformational and much discussed impact of digital publishing. This Handbook is essential reading for anyone interested in publishing, literature, and the business of media, entertainment, culture, communication, and information.

Oxford Handbook of Integrated Dental Biosciences-Hugh Devlin 2018-03-09 Practical, comprehensive, and concise, the Oxford Handbook of Integrated Dental Biosciences has been designed to reflect problem-based teaching scenarios, with extensive diagrams and illustrations to aid clinical understanding of the main text. Summary and key point boxes have been incorporated throughout to allow quick reference and easy assimilation of the content. Formally known as the Oxford Handbook of Applied Dental Sciences, this second edition has been completely rewritten by a brand new author team, to closely integrate the non-clinical and clinical aspects of dentistry. Featuring separate sections detailing the relevant clinical application and putting the science into context, this handbook is ideal for dental students, dental trainees studying for higher qualifications, and practitioners as a useful aide memoire.

The Oxford Handbook of National Security Intelligence-Loch K. Johnson 2010-03-12 The Oxford Handbook of National Security Intelligence is a state-of-the-art work on intelligence and national security. Edited by Loch Johnson, one of the world's leading authorities on the subject, the handbook examines the topic in full, beginning with an examination of the major theories of intelligence. It then shifts its focus to how intelligence agencies operate, how they collect information from around the world, the problems that come with transforming "raw" information into credible analysis, and the difficulties in disseminating intelligence to policymakers. It also considers the balance between secrecy and public accountability, and the ethical dilemmas that covert and counterintelligence operations routinely present to intelligence agencies. Throughout, contributors factor in broader historical and political contexts that are integral to understanding how intelligence agencies function in our information-dominated age. The book is organized into the following sections: theories and methods of intelligence studies; historical background; the collection and processing of intelligence; the challenges of intelligence dissemination; counterintelligence and counterterrorism; covert action; intelligence and accountability; and strategic intelligence in other nations.

The Oxford Handbook of Samuel Taylor Coleridge-Frederick Burwick 2012-02-23 A practical and comprehensive reference work, the Oxford Handbook provides the best single-volume source of original scholarship on all aspects of Coleridge's diverse writings. Thirty-seven chapters, bringing together the wisdom of experts from across the world, present an authoritative, in-depth, and up-to-date assessment of a major author of British Romanticism. The book is divided into sections on Biography, Prose Works, Poetic Works, Sources and Influences, and Reception. The Coleridge scholar today has ready access to a range of materials previously available only in library archives on both sides of the Atlantic. The Bollingen edition, of the Collected Works of Samuel Taylor Coleridge, forty years in production was completed in 2002. The Coleridge Notebooks (1957-2002) were also produced during this same period, five volumes of text with an additional five companion volumes of notes. The Clarendon Press of Oxford published the letters in six volumes (1956-1971). To take full advantage of the convenient access and new insight provided by these volumes, the Oxford Handbook examines the entire range and complexity of Coleridge's career. It analyzes the many aspects of Coleridge's literary, critical, philosophical, and theological pursuits, and it furnishes both students and advanced scholars with the proper tools for assimilating and illuminating Coleridge's rich and varied accomplishments, as well as offering an authoritative guide to the most up-to-date thinking about his achievements.

The Oxford Handbook of Early Christian Archaeology-David K. Pettegrew 2019-01-21 "This handbook brings together work by leading scholars of the archaeology of early Christianity in the Mediterranean and surrounding regions. The 34 essays to this volume ground the history, culture, and society of the first seven centuries of Christianity in the latest currents of archaeological method, theory, and research."--

Oxford Handbook of Dental Patient Care-Crispian Scully 2005 This pocket guide bridges the gap between dental and medical knowledge. It provides practical information for the dental professional on how to take a full medical history, examine the patient, perform the appropriate investigations, appreciate the patient's medical problems and their implications on dental management, and treat their patients in a safe and effective way. This edition includes new material on the management of emergencies, patients with bleeding tendencies, cardiac problems, diabetes, and infections.

The Oxford Handbook of Virtuality-Mark Grimshaw 2014-02 The book is a compendium of thinking on virtuality and its relationship to reality from the perspective of a variety of philosophical and applied fields of study. Topics covered include presence, immersion, emotion, ethics, utopias and dystopias, image, sound, literature, AI, law, economics, medical and military applications, religion, and sex.

Oxford Handbook of Oral and Maxillofacial Surgery-Luke Cascarini 2011-11-17 A quick-reference, introductory guide to the essential information which a practitioner needs to know and understand when working in oral and maxillofacial medicine. Practical and concise, this handbook is the definitive guide to all common complaints and presentations.

Oxford Handbook of Clinical Haematology-Drew Provan 2009-02-19 Providing essential information needed in clinical practice for the diagnosis and management of patients with blood disorders, this handbook covers haematological investigations and their interpretation, and commonly used protocols.

The Oxford Handbook of Electoral Systems-Erik S. Herron 2018-03-15 No subject is more central to the study of politics than elections. All across the globe, elections are a focal point for citizens, the media, and politicians long before—and sometimes long after—they occur. Electoral systems, the rules about how voters' preferences are translated into election results, profoundly shape the results not only of individual elections but also of many other important political outcomes, including party systems, candidate selection, and policy choices. Electoral systems have been a hot topic in established democracies from the UK and Italy to New Zealand and Japan. Even in the United States, events like the 2016 presidential election and court decisions such as Citizens United have sparked advocates to promote change in the Electoral College, redistricting, and campaign-finance rules. Elections and electoral systems have also intensified as a field of academic study, with groundbreaking work over the past decade sharpening our understanding of how electoral systems fundamentally shape the connections among citizens, government, and policy. This volume provides an in-depth exploration of the origins and effects of electoral systems.

Oxford Handbook of Clinical Dentistry-David Mitchell 2014 This essential pocket guide covers clinical dentistry in a concise format. All the fundamentals of clinical practice are included in a readily accessible style. Now completely revised, it includes a wealth of new information and full colour throughout.

The Oxford Handbook of Criminology-Rod Morgan 2012-04-12 With contributions from leading academics, The Oxford Handbook of Criminology provides an authoritative collection of chapters covering the topics studied on criminology courses. Each chapter details relevant theory, recent research, policy developments, and current debates, and includes extensive references to aid further research.
