A Perfect Pet for Peyton-Gary Chapman 2012-12-26 Gary Chapman and Rick Osborne help children learn about the importance of love in this wonderfully imaginative and classically illustrated children's hardcover book featuring four-color illustrations (with hidden details!) by Wilson Williams, Jr., and based on Gary's bestselling *The 5 Love Languages*. Each child in this entertaining and playful story learns that they have a primary love language that when "spoken" by others, makes them feel loved. As the five children in the story interact with Mr. Chapman and the unique animals at his special zoo/museum/theme park/birthday party palace, they come to understand their own love language! Readers, especially children ages 5-8, are sure to recognize their own love language as the story develops, and at the end of the book is a fun quiz that will help parents and children identify their own love language. The cast of child characters in this whimsical story include: Penny, Peyton's twin sister, who receives love best when others spend quality time with her. Mr. Chapman introduces Penny to Horace, a Ragdoll Cat who just wants to be with Penny. Jayla, one of Penny's close friends, is always saying nice things about people. Her love language is words of affirmation. Jayla's perfect pet pal is Pamela, an African Grey Parrot, who repeats the nice things Jayla says about others. Kevin, one of Peyton's close friends, enjoys giving things to people. So does his special pet Chipo, a Capuchin Monkey! Sofia loves to pet the animals, and to show her love for others with special hugs. Physical touch is Sofia's love language. Snuggles

Making the Perfect Pet: Book 1 of The Pet Series-C. R. Waters 2020-04-04 A compilation of stories following a rather unusual family as it grows. Dr. Chag has made many creations along with his two scientist friends from the planet Scyceldry, Dr. Lucretia and Dr. Onesimus in an attempt to make the perfect obedient being. Putere is one of Dr. Chag's first creations, a mix of Earthling DNA and all three types of Scyceldry DNA; she is infected with one of the first strands of the vampire virus that causes immortality. Dr. Chag created Bayt and his siblings for Putere so she could play mom but that didn't stop Dr. Chag from experimenting when he made them for her. Bayt appears to be human most of the time but since he has grasshopper and kangaroo DNA in him he can take on a number of forms and since he is infected with one of the most advanced strands of the vampire virus he is immortal and very strong. Zevulon's mother was a young woman from the village above Dr. Chag's lab where the three doctors had impregnated the women with many types of alien DNA. Half of Zevulon's DNA is human and the other half is from the planet Ebgaudia. He was a kind and beautiful young boy till he becomes infected with a contagious strand of the vampire virus that causes immortality, fast healing, great strength, and an insatiable thirst for blood. Zevulon in turn infects Dr. Chag giving him a thirst for blood as well. This story follows these four immortals and their friends and family both mortal and immortal as the world around them develops and changes. A

journey over thousands of years of happiness, sadness, revenge, forgiveness, and evolution. Though this is the first in a series of books with these characters and their friends and family, this is a stand alone book as are all the books in the series.
