

# [PDF] The Rule Of Law Tom Bingham

Eventually, you will utterly discover a further experience and finishing by spending more cash. still when? reach you agree to that you require to acquire those every needs once having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will guide you to comprehend even more all but the globe, experience, some places, once history, amusement, and a lot more?

It is your utterly own times to show reviewing habit. in the course of guides you could enjoy now is **the rule of law tom bingham** below.

The Rule of Law-Tom Bingham 2011-07-07 'The Rule of Law' is a phrase much used but little examined. The idea of the rule of law as the foundation of modern states and civilisations has recently become even more talismanic than that of democracy, but what does it actually consist of? In this brilliant short book, Britain's former senior law lord, and one of the world's most acute legal minds, examines what the idea actually means. He makes clear that the rule of law is not an arid legal doctrine but is the foundation of a fair and just society, is a guarantee of responsible government, is an important contribution to economic growth and offers the best means yet devised for securing peace and co-operation. He briefly examines the historical origins of the rule, and then advances eight conditions which capture its essence as understood in western democracies today. He also discusses the strains imposed on the rule of law by the threat and experience of international terrorism. The book will be influential in many different fields and should become a key text for anyone interested in politics, society and the state of our world.

The Rule of Law-Tom Bingham 2011-07-07 'What's wonderful about this book is that it's not a law book; it's for everybody. It explains, clearly, simply, powerfully, to a lay audience what the rule of law means and how important it is to everybody in modern society. Everyone should read this book' SHAMI CHAKRABARTI 'The Rule of Law' is a phrase much used but little examined. In this brilliant short book, Britain's former senior Law Lord, and one of the world's most acute legal minds, examines what the idea actually means. He makes clear that it is not an arid legal doctrine but the foundation of a fair and just society, a guarantee of responsible government, and an important contributor to economic growth. Tom Bingham examines the historical origins of the rule of law, advances eight conditions which capture its essence as understood in western democracies today - and explains why the rule of law offers the best means yet devised for securing peace and co-operation. 'Beautifully written . . . the book of the year that I am likely to read again and again' CHRIS PATTEN 'So compelling that its contents spill on to the page like a musical score' CONOR GEARTY, OBSERVER 'This closely argued and very readable work serves as a lucid restatement of the importance of the rule of law' GIDEON RACHMAN, FINANCIAL TIMES, BOOKS OF THE YEAR

The Rule of Law-Thomas Henry Bingham 2010 'The Rule of Law' is a phrase much used but little examined. The idea of the rule of law as the foundation of modern states and civilisations has recently become even more talismanic than that of democracy, but what does it actually consist of? In this brilliant short book, Britain's former senior law lord, and one of the world's most acute legal minds, examines what the idea actually means. He makes clear that the rule of law is not an arid legal doctrine but is the foundation of a fair and just society, is a guarantee of responsible government, is an important contribution to economic growth and offers the best means yet devised for securing peace and co-operation. He briefly examines the historical origins of the rule, and then advances eight conditions which capture its essence as understood in western democracies today. He also discusses the strains imposed on the rule of law by the threat and experience of international terrorism. The book will be influential in many different fields and should become a key text for anyone interested in politics, society and the state of our world.

Retrospectivity and the Rule of Law-Charles J. G. Sampford 2006 However controversial, retrospective rule-making is not at all uncommon, and has been used

by governments of all political persuasions for a number of applications. This text looks at the various ways in which laws may be seen as retrospective, as well as analysing the problems in defining retrospectivity.

Rule By Law-Tom Ginsburg 2008-05-08 Scholars have generally assumed that courts in authoritarian states are pawns of their regimes, upholding the interests of governing elites and frustrating the efforts of their opponents. As a result, nearly all studies in comparative judicial politics have focused on democratic and democratizing countries. This volume brings together leading scholars in comparative judicial politics to consider the causes and consequences of judicial empowerment in authoritarian states. It demonstrates the wide range of governance tasks that courts perform, as well as the way in which courts can serve as critical sites of contention both among the ruling elite and between regimes and their citizens. Drawing on empirical and theoretical insights from every major region of the world, this volume advances our understanding of judicial politics in authoritarian regimes.

The Rule of Law in America-Ronald A. Cass 2003 What is the rule of law? Why does it matter? How well does America conform to the rule of law? And why do Americans, who profess such respect for the law, complain so often about our legal system? Drawing upon extensive experience in law, government service, teaching, and research, Boston University law school dean Ronald Cass offers a welcome contribution to the ongoing public discussion on law and society. After opening his discussion with chapters on the rule of law in American society, Cass turns to the hard case of its application to the president of the United States. Through this prism Cass examines the behavior of judges who may not always act according to a "perfect model." They may not always be perfectly constrained by law or achieve perfect justice through law. That, however, is the wrong thing to ask. Instead, says Cass, "looking at the ordinary case -- and asking not whether the decision advances particular aspirations for society, but whether it conforms to basic aspects of legal authority -- produces a more law-governed view of America judging." In fact, this book provides a much-needed corrective to criticism of the American legal system raised all too frequently by members of the academy and by politicians. Rather than concentrating on relatively minor inconsistencies in the law and slight departures from the ideal of perfectly constrained decision making, Cass argues that the energies of his fellow scholars could be better spent on more serious defects in the legal system. With a special section on the 2000 presidential election, including the Florida recount and Supreme Court decision, *The Rule of Law in America* offers a timely look at a subject of interest to legal scholars and general readers alike..

Constitutionalism and the Rule of Law-Maurice Adams 2017-02-02 Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order. Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters from leading international scholars cover a diverse range of topics and case studies to test the hypothesis that the best normative theories, including those regarding the role of constitutions, constitutionalism and the rule of law, conceive of the ideal and the real as mutually regulating.

Authoritarian Rule of Law-Jothie Rajah 2012 Through a focus on Singapore, this book presents an analysis of authoritarian legalism, showing how prosperity, public discourse, and a rigorous observance of legal procedure enable a reconfigured rule of law - liberal form but illiberal content. It shows how institutions and process become tools to constrain dissenting citizens while protecting those in political power.

The Rule of Crisis-Pierre Auriel 2018-03-17 This book analyzes emergency legislations formed in response to terrorism. In recognition that different countries, with different legal traditions, have different solutions, it adopts a comparative point of view. The countries profiled include America, France, Israel, Poland, Germany and United Kingdom. The goal is not to offer judgment on one response or the other. Rather, the contributors offer a comprehensive and thoughtful examination of the entire concept. In the process, they draw attention to the inadaptability of traditional legal and philosophical categories in a new and changing political world. The contributors first criticize the idea of these legislations. They then go on to develop different models to respond to these crises. They build a general analytical framework by answering such questions as: What is an emergency legislation? What kinds of emergencies justify laws of this nature? Why is contemporary terrorism such a specific emergency justifying new laws? Using legal and philosophical reflections, this study looks at how we are changing society. Coverage also provides historical experiences of emergency legislations to further illustrate this point. In the end, readers will gain insight into the long-term consequences of these legislations and how they modify the very work of the rule of law.

Handbook on the Rule of Law-Christopher May 2018-08-31 The discussion of the norm of the rule of law has broken out of the confines of jurisprudence and is

of growing interest to many non-legal researchers. A range of issues are explored in this volume that will help non-specialists with an interest in the rule of law develop a nuanced understanding of its character and political implications. It is explicitly aimed at those who know the rule of law is important and while having little legal background, would like to know more about the norm.

The Rule of Four-Ian Caldwell 2012 Endeavoring to decipher a five-hundred-year old text that weaves a mathematical labyrinth within a love story, researchers Tom Sullivan and Paul Harris obtain a diary that may contain the key to the code, but when a fellow researcher is killed, they realize that the book contains a dangerous secret. 100,000 first printing.

How to Save a Constitutional Democracy-Tom Ginsburg 2018-10-05 Democracies are in danger. Around the world, a rising wave of populist leaders threatens to erode the core structures of democratic self rule. In the United States, the election of Donald Trump marked a decisive turning point for many. What kind of president calls the news media the "enemy of the American people," or sees a moral equivalence between violent neo-Nazi protesters in paramilitary formation and residents of a college town defending the racial and ethnic diversity of their homes? Yet, whatever our concerns about the current president, we can be assured that the Constitution offers safeguards to protect against lasting damage--or can we? How to Save a Constitutional Democracy mounts an urgent argument that we can no longer afford to be complacent. Drawing on a rich array of other countries' experiences with democratic backsliding, Tom Ginsburg and Aziz Z. Huq show how constitutional rules can either hinder or hasten the decline of democratic institutions. The checks and balances of the federal government, a robust civil society and media, and individual rights--such as those enshrined in the First Amendment--do not necessarily succeed as bulwarks against democratic decline. Rather, Ginsburg and Huq contend, the sobering reality for the United States is that, to a much greater extent than is commonly realized, the Constitution's design makes democratic erosion more, not less, likely. Its structural rigidity has had the unforeseen consequence of empowering the Supreme Court to fill in some details--often with doctrines that ultimately facilitate rather than inhibit the infringement of rights. Even the bright spots in the Constitution--the First Amendment, for example--may have perverse consequences in the hands of a deft communicator, who can degrade the public sphere by wielding hateful language that would be banned in many other democracies. But we--and the rest of the world--can do better. The authors conclude by laying out practical steps for how laws and constitutional design can play a more positive role in managing the risk of democratic decline.

Brain Freeze: World Book Day 2018-Tom Fletcher 2018-02-22 A little girl discovers that eating ice cream from her grandfather's old ice-cream truck gives her the power to travel through time, in this brilliant, funny and heartwarming story from bestselling author Tom Fletcher.

Democracy and the Rule of Law-Adam Przeworski 2003-07-21 Sample Text

The Rule of Law in the Real World-Paul Gowder 2016-02-09 In The Rule of Law in the Real World, Paul Gowder defends a new conception of the rule of law as the coordinated control of power and demonstrates that the rule of law, thus understood, creates and preserves social equality in a state. In a highly engaging, interdisciplinary text that moves seamlessly from theory to reality, using examples ranging from Ancient Greece through the present, Gowder sheds light on how societies have achieved the rule of law, how they have sustained it in the face of political upheaval, and how it may be measured and developed in the future. The Rule of Law in the Real World is an essential work for scholars, students, policymakers, and anyone else who believes the rule of law is critical to the proper functioning of society.

Law, Liberty, and the Rule of Law-Imer B. Flores 2012-09-29 In recent years, there has been a substantial increase in concern for the rule of law. Not only have there been a multitude of articles and books on the essence, nature, scope and limitation of the law, but citizens, elected officials, law enforcement officers and the judiciary have all been actively engaged in this debate. Thus, the concept of the rule of law is as multifaceted and contested as it's ever been, and this book explores the essence of that concept, including its core principles, its rules, and the necessity of defining, or even redefining, the basic concept. Law, Liberty, and the Rule of Law offers timely and unique insights on numerous themes relevant to the rule of law. It discusses in detail the proper scope and limitations of adjudication and legislation, including the challenges not only of limiting legislative and executive power via judicial review but also of restraining active judicial lawmaking while simultaneously guaranteeing an independent judiciary interested in maintaining a balance of power. It also addresses the relationship not only between the rule of law, human rights and separation of powers but also the rule of law, constitutionalism and democracy.

Public Law in East Asia-Albert H.Y. Chen 2017-07-05 Public Law in East Asia is a collection of the leading English-language articles on constitutional and

administrative law in the Asian region, written by many of the leading scholars from this area. The region has its own distinct legal and political traditions, and its systems of government have facilitated dynamic economic growth, but the role of public law has not been well understood. Covering a wide range of jurisdictions in a single volume, this collection provides insights into the ways in which institutions of Western origin have been integrated into Asian political and legal cultures, producing new syntheses.

**Trials of the State-Jonathan Sumption 2019-08-29 A SUNDAY TIMES BESTSELLER** In the past few decades, legislatures throughout the world have suffered from gridlock. In democracies, laws and policies are just as soon unpicked as made. It seems that Congress and Parliaments cannot forge progress or consensus. Moreover, courts often overturn decisions made by elected representatives. In the absence of effective politicians, many turn to the courts to solve political and moral questions. Rulings from the Supreme Courts in the United States and United Kingdom, or the European court in Strasbourg may seem to end the debate but the division and debate does not subside. In fact, the absence of democratic accountability leads to radicalisation. Judicial overreach cannot make up for the shortcomings of politicians. This is especially acute in the field of human rights. For instance, who should decide on abortion or prisoners' rights to vote, elected politicians or appointed judges? Expanding on arguments first laid out in the 2019 Reith Lectures, Jonathan Sumption argues that the time has come to return some problems to the politicians.

**The Endurance of National Constitutions-Zachary Elkins 2009-10-12** Constitutions are supposed to provide an enduring structure for politics. Yet only half live more than nine years. Why is it that some constitutions endure while others do not? In *The Endurance of National Constitutions* Zachary Elkins, Tom Ginsburg and James Melton examine the causes of constitutional endurance from an institutional perspective. Supported by an original set of cross-national historical data, theirs is the first comprehensive study of constitutional mortality. They show that whereas constitutions are imperilled by social and political crises, certain aspects of a constitution's design can lower the risk of death substantially. Thus, to the extent that endurance is desirable - a question that the authors also subject to scrutiny - the decisions of founders take on added importance.

**Property and the Law of Finders-Robin Hickey 2010-01-20** Are finders keepers? This most simple of questions has long evaded a satisfactory legal answer. Generally it seems to have been accepted that a finder acquires a property right in the object of her find and can protect it from subsequent interference, but even this turns out to be the baldest statement of principle, resting on obscure and confused authority. This first full-length treatment of finders sets them in their legal-historical context, and discovers a fascinating area of law lying at the crossroads of crime, obligations, and property. That on the same facts a finder might be thief, bailee, and/or property right holder has clouded our conceptual analysis, and prevented us from stating simply our rules about finding. Nonetheless, when the applicable doctrines and policies of our property law (particularly the central concept of possession) are explored and understood in the light of countervailing rules of crime and tort, we can argue confidently that, despite centuries of doubt and confusion, English law has succeeded in producing a body of law that is theoretically and practically coherent. *Property and the Law of Finders* makes this argument, and will appeal to anyone specifically interested in the law of personal property, and also to those with broader concerns about the evolution of common law concepts and their ability to yield workable, practical solutions.

**Administrative Law and Governance in Asia-Tom Ginsburg 2008-10-30** This book examines administrative law in Asia, exploring the profound changes in the legal regimes of many Asian states that have taken place in recent years. Political democratization in some countries, economic change more broadly and the forces of globalization have put pressure on the developmental state model, wherein bureaucrats governed in a kind of managed capitalism and public-private partnerships were central. In their stead, a more market-oriented regulatory state model seems to be emerging in many jurisdictions, with emphases on transparency, publicity, and constrained discretion. This book analyses the causes and consequences of this shift from a socio-legal perspective, showing clearly how decisions about the scope of administrative law and judicial review have an important effect on the shape and style of government regulation. Taking a comparative approach, individual chapters trace the key developments in the legal regimes of major states across Asia, including China, Japan, Korea, Malaysia, Taiwan, Hong Kong, Indonesia, Singapore, the Philippines, Thailand and Vietnam. They demonstrate that, in many cases, Asian states have shifted away from traditional systems in which judges were limited in terms of their influence over social and economic policy, towards regulatory models of the state involving a greater role for judges and law-like processes. The book also considers whether judiciaries are capable of performing the tasks they are being given, and

assesses the profound consequences the judicialization of governance is starting to have on state policy-making in Asia.

**The 48 Laws of Power**-Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**The Oxford Handbook of Law and Politics**-Keith E. Whittington 2010-06-10 The study of law and politics is one of the foundation stones of the discipline of political science, and it has been one of the most productive areas of cross-fertilization between the various subfields of political science and between political science and other cognate disciplines. This Handbook provides a comprehensive survey of the field of law and politics in all its diversity, ranging from such traditional subjects as theories of jurisprudence, constitutionalism, judicial politics and law-and-society to such re-emerging subjects as comparative judicial politics, international law, and democratization. The Oxford Handbook of Law and Politics gathers together leading scholars in the field to assess key literatures shaping the discipline today and to help set the direction of research in the decade ahead.

**Bard of Erin**-Ronan Kelly 2008-04-24 Colm Tóibín has called Thomas Moore 'the most influential figure in shaping the Irish political psyche'. In *Bard of Erin*, Ronan Kelly tells the story of Moore's extraordinary life - from humble beginnings in Dublin to glittering social and literary success in London (at one point his popularity was eclipsed only by that of Sir Walter Scott and his close friend Lord Byron). Ronan Kelly's biography is a gripping and definitive account of a great romantic figure. 'A stirring tale of the diminutive would-be duellist whom his friend Byron described as "Masking and humming, / Fifing and drumming, / Guitarring and strumming" in a way we'd not quite see again until the rise of Bob Dylan' Paul Muldoon, TLS Books of the Year 'Thanks to Ronan Kelly's enthralling new biography, [Moore] is about to become an important part of our cultural landscape again ... There hasn't been a better biography published in Ireland for many a year' Irish Independent 'Vividly absorbing ... an enthusiastic, persuasive and highly readable attempt to restore a full picture of the man ... Everything in this eloquent and intelligent life shows that Moore's achievement decisively transcended the "poetical"' Roy Foster, The Times 'a major reassessment ... scholarly and comprehensive ... Kelly makes it clear what fun Moore was' Irish Daily Mail 'This new biography of Thomas Moore delights in the reading. Ronan Kelly has done his groundwork well ... A substantial, highly readable examination of the life, social development and cultural significance of a figure who occupies a pivotal position in Irish history, both as an Irish writer of the Romantic period and as "Ireland's National Poet" of a pre-partition era' Sunday Business Post 'Definitive ... a fascinating story' John Montague, Irish Times

**Trust in the Law**-Tom R. Tyler 2002-10-10 Public opinion polls suggest that American's trust in the police and courts is declining. The same polls also reveal a disturbing racial divide, with minorities expressing greater levels of distrust than whites. Practices such as racial profiling, zero-tolerance and three-strikes laws, the use of excessive force, and harsh punishments for minor drug crimes all contribute to perceptions of injustice. In *Trust in the Law*, psychologists Tom R. Tyler and Yuen J. Huo present a compelling argument that effective law enforcement requires the active engagement and participation of the communities it serves, and argue for a cooperative approach to law enforcement that appeals to people's sense of fair play, even if the outcomes are not always those with which they agree. Based on a wide-ranging survey of citizens who had recent contact with the police or courts in Oakland and Los Angeles, *Trust in the Law* examines the sources of people's favorable and unfavorable reactions to their encounters with legal authorities. Tyler and Huo address the issue from a variety of angles: the psychology of decision acceptance, the importance of individual personal experiences, and the role of ethnic group identification. They find that people react primarily to whether or not they are treated with dignity and respect, and the degree to which they feel they have been treated fairly helps to shape their acceptance of the legal process. Their findings show significantly less willingness on the part of minority group members who feel they have been treated unfairly to trust the motives to subsequent legal decisions of law enforcement authorities. Since most people in the study generalize from their personal

experiences with individual police officers and judges, Tyler and Huo suggest that gaining maximum cooperation and consent of the public depends upon fair and transparent decision-making and treatment on the part of law enforcement officers. Tyler and Huo conclude that the best way to encourage compliance with the law is for legal authorities to implement programs that foster a sense of personal involvement and responsibility. For example, community policing programs, in which the local population is actively engaged in monitoring its own neighborhood, have been shown to be an effective tool in improving police-community relationships. Cooperation between legal authorities and community members is a much discussed but often elusive goal. Trust in the Law shows that legal authorities can behave in ways that encourage the voluntary acceptance of their directives, while also building trust and confidence in the overall legitimacy of the police and courts. A Volume in the Russell Sage Foundation Series on Trust

Dodge City-Tom Clavin 2017-02-28 The instant New York Times bestseller! Dodge City, Kansas, is a place of legend. The town that started as a small military site exploded with the coming of the railroad, cattle drives, eager miners, settlers, and various entrepreneurs passing through to populate the expanding West. Before long, Dodge City's streets were lined with saloons and brothels and its populace was thick with gunmen, horse thieves, and desperadoes of every sort. By the 1870s, Dodge City was known as the most violent and turbulent town in the West. Enter Wyatt Earp and Bat Masterson. Young and largely self-trained men, the lawmen led the effort that established frontier justice and the rule of law in the American West, and did it in the wickedest place in the United States. When they moved on, Wyatt to Tombstone and Bat to Colorado, a tamed Dodge was left in the hands of Jim Masterson. But before long Wyatt and Bat, each having had a lawman brother killed, returned to that threatened western Kansas town to team up to restore order again in what became known as the Dodge City War before riding off into the sunset. #1 New York Times bestselling author Tom Clavin's Dodge City tells the true story of their friendship, romances, gunfights, and adventures, along with the remarkable cast of characters they encountered along the way (including Wild Bill Hickock, Jesse James, Doc Holliday, Buffalo Bill Cody, John Wesley Hardin, Billy the Kid, and Theodore Roosevelt) that has gone largely untold—lost in the haze of Hollywood films and western fiction, until now.

Facing the Limits of the Law-Erik Claes 2009-04-21 Many legal experts no longer share an unbounded trust in the potential of law to govern society efficiently and responsibly. They often experience the 'limits of the law', as they are confronted with striking inadequacies in their legal toolbox, with inner inconsistencies of the law, with problems of enforcement and obedience, and with undesired side-effects, and so on. The contributors to this book engage in the challenging task of making sense of this experience. Against the background of broader cultural transformations (such as globalisation, new technologies, individualism and cultural diversity), they revisit a wide range of areas of the law and map different types of limits in relation to some basic functions and characteristics of the law. Additionally, they offer a set of strategies to manage justifiably law's limits, such as dedramatising law's limits, conceptual refinement ('constructivism'), striking the right balance between different functions of the law, seeking for complementarity between law and other social practices.

The Force of Law-Frederick Schauer 2015-02-10 Many legal theorists maintain that laws are effective because we internalize them, obeying even when not compelled to do so. In a comprehensive reassessment of the role of force in law, Frederick Schauer disagrees, demonstrating that coercion, more than internalized thinking and behaving, distinguishes law from society's other rules.

Rule of Law in India-Harish Narasappa 2018-04-28 Rule of law is the foundation of modern democracies. It envisages, inter alia, participatory lawmaking, just and certain laws, a bouquet of human rights, certainty and equality in the application of law, accountability to law, an impartial and non-arbitrary government, and an accessible and fair dispute resolution mechanism. This work's primary goal is to understand and explain the obvious dichotomy that exists between theory and practice in India's rule of law structure. The book discusses the contours of the rule of law in India, the values and aspirations in its evolution, and its meaning as understood by the various institutions, identifying reason as the primary element in the rule of law mechanism. It later examines the institutional, political, and social challenges to the concepts of equality and certainty, through which it evaluates the status of the rule of law in India.

On Liberty-Shami Chakrabarti 2014-10-02 On Liberty is the story of today's threats to our freedoms and a highly personal, impassioned plea in defence of fundamental rights, from Shami Chakrabarti, Britain's leading human rights campaigner On 11 September 2001, our world changed. The West's response to 9/11 has morphed into a period of exception. Governments have decided that the rule of law and human rights are often too costly. In On Liberty, Shami Chakrabarti explores why our fundamental rights and freedoms are indispensable. She shows, too, the unprecedented pressures those rights are under today.

Drawing on her own work in high-profile campaigns, from privacy laws to anti-terror legislation, Chakrabarti shows the threats to our democratic institutions and why our rights are paramount in upholding democracy. 'Probably the most effective public affairs lobbyist of the past 20 years' - David Aaronovitch, The Times 'The undaunted freedom fighter' - Observer 'The most dangerous woman in Britain' - Sun

The Rule of Law-John Lescroart 2019-01-22 INSTANT NEW YORK TIMES BESTSELLER In “master of the legal thriller” (Chicago Sun-Times) John Lescroart’s electrifying new novel, attorney Dismas Hardy is called to defend the least likely suspect of his career: his longtime, trusted assistant who is suddenly being charged as an accessory to murder. Dismas Hardy knows something is amiss with his trusted secretary, Phyllis. Her out-of-character behavior and sudden disappearances concern Hardy, especially when he learns that her convict brother—a man who had served twenty-five years in prison for armed robbery and attempted murder—has just been released. Things take a shocking turn when Phyllis is suddenly arrested at work for allegedly being an accessory to the murder of Hector Valdez, a coyote who’d been smuggling women into this country from El Salvador and Mexico. That is, until recently, when he was shot to death—on the very same day that Phyllis first disappeared from work. The connection between Phyllis, her brother, and Hector’s murder is not something Dismas can easily understand, but if his cherished colleague has any chance of going free, he needs to put all the pieces together—and fast. Proving that he is truly “one of the best thriller writers to come down the pike” (USA TODAY), John Lescroart crafts yet another whip-smart, engrossing novel filled with shocking twists and turns that will keep you on your toes until the very last page.

What About Law?-Catherine Barnard 2011-03-10 Most young people considering studying law, or pursuing a legal career, have very little idea of what learning law involves and how universities teach law to their students. The new edition of this book, which proved very popular when first published in 2007, provides a 'taster' for the study of law; a short, accessible presentation of law as an academic subject, designed to help 17- and 18-year old students and others decide whether law is the right choice for them as a university subject, or, if they have already made the choice, what to expect when they start their law degree. It helps answer the question 'what should I study at university?' and counters the perception that law is a dry, dull subject. What About Law? shows how the study of law can be fun, intellectually stimulating, challenging and of direct relevance to students. Using a case study approach, the book introduces prospective law students to the legal system, as well as to legal reasoning, critical thinking and argument. This is a book that should be in the library of every school with a sixth form, every college and every university, and it is one that any student about to embark on the study of law should read before they commence their legal studies. All of the authors have long experience in teaching law at Cambridge and elsewhere and all have also been involved, at various times, in advising prospective law students at open days and admissions conferences. Listed as one of the 'Six of the best law books' that a future law student should read by the Guardian Law Online, 8th August 2012. See the detailed website for this book: <http://www.whataboutlaw.co.uk>

The Legal Analyst-Ward Farnsworth 2008-09-15 There are two kinds of knowledge law school teaches: legal rules on the one hand, and tools for thinking about legal problems on the other. Although the tools are far more interesting and useful than the rules, they tend to be neglected in favor of other aspects of the curriculum. In The Legal Analyst, Ward Farnsworth brings together in one place all of the most powerful of those tools for thinking about law. From classic ideas in game theory such as the “Prisoner’s Dilemma” and the “Stag Hunt” to psychological principles such as hindsight bias and framing effects, from ideas in jurisprudence such as the slippery slope to more than two dozen other such principles, Farnsworth’s guide leads readers through the fascinating world of legal thought. Each chapter introduces a single tool and shows how it can be used to solve different types of problems. The explanations are written in clear, lively language and illustrated with a wide range of examples. The Legal Analyst is an indispensable user’s manual for law students, experienced practitioners seeking a one-stop guide to legal principles, or anyone else with an interest in the law.

Controlling EU Agencies-Miroslava Scholten 2020-05-29 Controlling EU Agencies launches the debate on how to build a comprehensive system of controls in light of the ongoing trends of agencification and Europeanisation of the executive in the EU.

Kleptopia-Tom Burgis 2020-09-08 In this shocking, meticulously reported work of narrative nonfiction, an award-winning investigative journalist exposes “capitalism’s monster”—global kleptocracy—and reveals how it is corrupting the world around us. They are everywhere, the thieves and their people. Masters of secrecy. Until now we have detected their presence only by what they leave behind. A body in a burned-out Audi. Workers riddled with bullets in the Kazakh Desert. A rigged election in Zimbabwe. A British banker silenced and humiliated for trying to expose the truth about the City of London. They have amassed

more money than most countries. But what they are really stealing is power. In this real-life thriller packed with jaw-dropping revelations, award-winning investigative journalist Tom Burgis weaves together four stories that reveal a terrifying global web of corruption: the troublemaker from Basingstoke who stumbles on the secrets of a Swiss bank, the ex-Soviet billionaire constructing a private empire, the righteous Canadian lawyer with a mysterious client, and the Brooklyn crook protected by the CIA. Glimpses of this shadowy world have emerged over the years. In *Kleptopia*, Burgis connects the dots. He follows the dirty money that is flooding the global economy, emboldening dictators, and poisoning democracies. From the Kremlin to Beijing, Harare to Riyadh, Paris to the White House, the trail shows something even more sinister: the thieves are uniting. And the human cost will be great.

*The Black and the Blue*-Matthew Horace 2018-08-07 Longlisted for the PEN/John Kenneth Galbraith Award for Nonfiction "A MUST-READ FOR ANYONE WHO WANTS TO UNDERSTAND THE INTERSECTION OF RACE AND POLICE BRUTALITY IN AMERICA."-CONGRESSMAN JOHN LEWIS During his 28-year career, Matthew Horace rose through the ranks from a police officer working the beat to a federal agent working criminal cases in some of the toughest communities in America to a highly decorated federal law enforcement executive managing high-profile investigations nationwide. Yet it was not until seven years into his service- when Horace found himself face down on the ground with a gun pointed at his head by a white fellow officer-that he fully understood the racism seething within America's police departments. Through gut-wrenching reportage, on-the-ground research, and personal accounts from interviews with police and government officials around the country, Horace presents an insider's examination of archaic police tactics. He dissects some of the nation's most highly publicized police shootings and communities to explain how these systems and tactics have hurt the people they serve, revealing the mistakes that have stoked racist policing, sky-high incarceration rates, and an epidemic of violence. "Horace's authority as an experienced officer, as well as his obvious integrity and courage, provides the book with a gravitas."-THE WASHINGTON POST "The Black and the Blue is an affirmation of the critical need for criminal justice reform, all the more urgent because it comes from an insider who respects his profession yet is willing to reveal its flaws."-USA TODAY

*Commentaries on the Laws of England*-Sir William Blackstone 1900

*Revolutionary Constitutions*-Bruce Ackerman 2019-05-13 Offering insights into the origins, successes, and threats to revolutionary constitutionalism, Bruce Ackerman takes us to India, South Africa, Italy, France, Poland, Burma, Israel, Iran, and the U.S. and provides a blow-by-blow account of the tribulations that confronted popular movements in their insurgent campaigns for constitutional democracy.

*Law and Policy in Latin America*-Pedro Fortes 2016-12-21 This book offers a comprehensive introduction to law and policy responses to contemporary problems in Latin America, such as human rights violations, regulatory dilemmas, economic inequality, and access to knowledge and medicine. It includes 19 chapters written by sociologists, lawyers, and political scientists on the transformations of courts, institutions and rights protection in Latin America, all of which stem from presentations at conferences in Oxford and UCL organised by the editors. The contributors present original analyses based on rigorous research, innovative case-studies, and interdisciplinary perspectives, all written in an accessible style. Topics include the Inter-American Court of Human Rights, institutional design, financial regulation, competition, discrimination, gender quotas, police violence, orphan works, healthcare, and environmental protection, among others. The book will be of interest to students and scholars interested in policymaking, public law, and development.

*Fern*-Fern Britton 2008-11-06 The much-loved TV star Fern Britten tells her story for the first time in her Sunday Times bestselling memoir. For years now, Fern Britton has been widely loved as the presenter of *Ready Steady Cook*, and, more recently, co-presenter of *This Morning* with Philip Schofield. Never one to shy away from a good laugh or cry on national TV, she has none-the-less never talked about herself to the public, preferring to keep her private life private. Her warmth and humour, empathy and compassion, have made her feel like a best friend to millions on a daily basis, but no one knows the woman behind the sparkling smile. Now, for the first time, she is going to tell her story. And it is one that will strike a chord with women everywhere. Life as a child was not always easy, and she faced private and public challenges with her personal life, appearance and her career as she climbed the ladder to fame. Now a full-time working mum, with a very happy marriage to her second husband Phil Vickery, she is at the top of her game, and ready to tell it like it is. So put your feet up and get ready for a great read with Fern Britten. Fern Britten grew up in Buckinghamshire, and started her career on Westward Television, before moving to GMTV and *Ready Steady Cook*. She later co-presented *This Morning* with Philip Schofield, and has become a much sought after presenter for shows including *Have I Got News For You*, *Soap Star Superstar* and *Celebrity Mr and Mrs*. She recently wowed audiences with her performance on *Strictly Come Dancing*. She

lives in Buckinghamshire with her husband Phil Vickery and their four children.
