

[DOC] The Supreme Court An Essential History

As recognized, adventure as well as experience more or less lesson, amusement, as with ease as covenant can be gotten by just checking out a ebook **the supreme court an essential history** with it is not directly done, you could take on even more approximately this life, all but the world.

We provide you this proper as without difficulty as simple pretentiousness to acquire those all. We pay for the supreme court an essential history and numerous ebook collections from fictions to scientific research in any way. among them is this the supreme court an essential history that can be your partner.

Essential Supreme Court Decisions-John R. Vile 2010-12-28 First published in 1954, this indispensable reference quickly became the gold standard for concise summaries of important U.S. Supreme Court cases. The only reference guide to Supreme Court cases organized both topically and chronologically within chapters so that readers understand how cases fit into a historical context, the 15th edition has been extensively revised to ensure that it remains the most up-to-date resource available. An essential resource for law students, lawyers, and everyone interested in our nation's Constitution and the Supreme Court decisions that explicate it.

Essential Supreme Court Decisions-John R. Vile 2010 Features summaries of frequently cited cases detailing the issue, decisions and reasons behind it, and pertinent corollary cases.

The Supreme Court-Peter Charles Hoffer 2007 A definitive history of the U.S. Supreme Court details the evolution of the legal institution from the early days of the American Republic to the present day, offering profiles of the justices, the Court's years under each Chief Justice, its influence on American life, and the issues, cases, and decisions they handled from the perspective of the time in which they came before the Court.

The Essential Scalia-Antonin Scalia 2020-09-15 Supreme Court Justice Antonin Scalia in his own words: the definitive collection of his opinions, speeches, and articles on the most essential and vexing legal questions, with an intimate foreword by Justice Elena Kagan A justice on the United States Supreme Court for three decades, Antonin Scalia transformed the way that judges, lawyers, and citizens think about the law. The Essential Scalia presents Justice Scalia on his own terms, allowing readers to understand the reasoning and insights that made him one of the most consequential jurists in American history. Known for his forceful intellect and remarkable wit, Scalia mastered the art of writing in a way that both educated and entertained. This comprehensive collection draws from the best of Scalia's opinions, essays, speeches, and testimony to paint a complete and nuanced portrait of his jurisprudence. This compendium addresses the hot-button issues of the times, from abortion and the right to bear arms to marriage, free speech, religious liberty, and so much more. It also presents the justice's wise insights on perennial debates over the structure of government created by our Constitution and the proper methods for interpreting our laws. Brilliant and passionately argued, The Essential Scalia is an indispensable resource for anyone who wants to understand our Constitution, the American legal system, and one of our nation's most influential and highly regarded jurists and thinkers.

Religious Liberty and the American Supreme Court-Vincent Phillip Munoz 2015-03-27 Throughout American history, legal battles concerning the First Amendment's protection of religious liberty have been among the most contentious issue of the rights guaranteed by the United States Constitution. Religious Liberty and the American Supreme Court: The Essential Cases and Documents represents the most authoritative and up-to-date overview of the landmark cases that have defined religious freedom in America. Noted religious liberty expert Vincent Philip Munoz (Notre Dame) provides carefully edited excerpts from over fifty of the most important Supreme Court religious liberty cases. In addition, Munoz's substantive introduction offers an overview on the constitutional history of religious liberty in America. Introductory headnotes to each case provides the constitutional and historical context. Religious Liberty and the American

Constitution is an indispensable resource for anyone interested matters of religious freedom from the Republic's earliest days to current debates.

A History of the Supreme Court-the late Bernard Schwartz 1995-02-23 When the first Supreme Court convened in 1790, it was so ill-esteemed that its justices frequently resigned in favor of other pursuits. John Rutledge stepped down as Associate Justice to become a state judge in South Carolina; John Jay resigned as Chief Justice to run for Governor of New York; and Alexander Hamilton declined to replace Jay, pursuing a private law practice instead. As Bernard Schwartz shows in this landmark history, the Supreme Court has indeed travelled a long and interesting journey to its current preeminent place in American life. In *A History of the Supreme Court*, Schwartz provides the finest, most comprehensive one-volume narrative ever published of our highest court. With impeccable scholarship and a clear, engaging style, he tells the story of the justices and their jurisprudence--and the influence the Court has had on American politics and society. With a keen ability to explain complex legal issues for the nonspecialist, he takes us through both the great and the undistinguished Courts of our nation's history. He provides insight into our foremost justices, such as John Marshall (who established judicial review in *Marbury v. Madison*, an outstanding display of political calculation as well as fine jurisprudence), Roger Taney (whose legacy has been overshadowed by *Dred Scott v. Sanford*), Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and others. He draws on evidence such as personal letters and interviews to show how the court has worked, weaving narrative details into deft discussions of the developments in constitutional law. Schwartz also examines the operations of the court: until 1935, it met in a small room under the Senate--so cramped that the judges had to put on their robes in full view of the spectators. But when the new building was finally opened, one justice called it "almost bombastically pretentious," and another asked, "What are we supposed to do, ride in on nine elephants?" He includes fascinating asides, on the debate in the first Court, for instance, over the use of English-style wigs and gowns (the decision: gowns, no wigs); and on the day Oliver Wendell Holmes announced his resignation--the same day that Earl Warren, as a California District Attorney, argued his first case before the Court. The author brings the story right up to the present day, offering balanced analyses of the pivotal Warren Court and the Rehnquist Court through 1992 (including, of course, the arrival of Clarence Thomas). In addition, he includes four special chapters on watershed cases: *Dred Scott v. Sanford*, *Lochner v. New York*, *Brown v. Board of Education*, and *Roe v. Wade*. Schwartz not only analyzes the impact of each of these epoch-making cases, he takes us behind the scenes, drawing on all available evidence to show how the justices debated the cases and how they settled on their opinions. Bernard Schwartz is one of the most highly regarded scholars of the Supreme Court, author of dozens of books on the law, and winner of the American Bar Association's Silver Gavel Award. In this remarkable account, he provides the definitive one-volume account of our nation's highest court.

An Introduction to Constitutional Law-Randy E. Barnett 2019-09-13 This multimedia platform combines a book and video series that will change the way you study constitutional law. *An Introduction to Constitutional Law* teaches the narrative of constitutional law as it has developed over the past two centuries. All students—even those unfamiliar with American history—will learn the essential background information to grasp how this body of law has come to be what it is today. An online library of sixty-three videos (access codes provided with purchase of the book) brings the Supreme Court's one hundred most important decisions to life. These videos are enriched by photographs, maps, and even audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and watch these materials before class to prepare for lectures or study after class to fill in any gaps in their notes. And, come exam time, students can watch the entire canon of constitutional law in about twelve hours.

Supreme Court Decisions-Jay M. Feinman 2012 Examines landmark Supreme Court decisions, including *United States v. Nixon*, *Plessy v. Ferguson*, and *Brown v. Board of Education of Topeka*.

Essential Supreme Court Decisions-John R. Vile 2018-02-15 Article I : the legislative branch -- Article II : the executive branch -- Articles I and II : distinct, yet overlapping powers -- Article III : the judicial branch -- Articles IV and VI : federalism -- Articles V and VII : constitutional amending process and ratification of the Constitution -- Property rights -- The Bill of Rights and its application to the states -- First Amendment : religious rights -- First Amendment : political rights -- Second, Third, and Fourth Amendments -- Fifth, Sixth, Seventh, and Eighth Amendments -- Ninth Amendment : right to privacy, and other unenumerated rights -- Thirteenth and Fourteenth Amendments -- Voting rights

The Oxford Companion to the Supreme Court of the United States-Kermit L. Hall 2005-05-19 The second edition of this authoritative guide on the impact of the Supreme Court's decisions on American society includes updated entries on key cases over the past thirteen years, as well as a fully revised treatment of areas

of constitutional law.

More Essential Than Ever-Stephen J. Schulhofer 2012-08-23 In this book, Stephen Schulhofer explores the changes wrought by the new surveillance regime through the lens of the Fourth Amendment's meaning and history. Companies and the state use to scrutinize us, this book makes a powerful case for the importance of the Fourth Amendment in protecting both privacy rights and civil liberties in our surveillance age.

A People's History of the Supreme Court-Peter Irons 2006-07-25 A comprehensive history of the people and cases that have changed history, this is the definitive account of the nation's highest court. Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic *A People's History of the United States*, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and "enemy combatants." To understand key issues facing the Supreme Court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn. "A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation." -*Publisher's Weekly* (starred review)

Landmark Supreme Court Cases-Gary R. Hartman 2009-01-01 Through its interpretations of the Constitution and Bill of Rights

The Oxford Guide to United States Supreme Court Decisions-Kermit L. Hall 2009 Here are the landmark decisions that have shaped American life, described by some of America's most eminent legal scholars. The new edition contains more than 450 entries on major cases, including 53 new entries on the latest landmark rulings. This outstanding guide serves as an excellent introduction to the work of the Court from the late eighteenth century to the present day.

The Case Against the Supreme Court-Erwin Chemerinsky 2015-09-29 Both historically and in the present, the Supreme Court has largely been a failure. In this devastating book, Erwin Chemerinsky—"one of the shining lights of legal academia" (*The New York Times*)—shows how, case by case, for over two centuries, the hallowed Court has been far more likely to uphold government abuses of power than to stop them. Drawing on a wealth of rulings, some famous, others little known, he reviews the Supreme Court's historic failures in key areas, including the refusal to protect minorities, the upholding of gender discrimination, and the neglect of the Constitution in times of crisis, from World War I through 9/11. No one is better suited to make this case than Chemerinsky. He has studied, taught, and practiced constitutional law for thirty years and has argued before the Supreme Court. With passion and eloquence, Chemerinsky advocates reforms that could make the system work better, and he challenges us to think more critically about the nature of the Court and the fallible men and women who sit on it.

The Cambridge Rawls Lexicon-Jon Mandle 2014-12-11 John Rawls is widely regarded as one of the most influential philosophers of the twentieth century, and his work has permanently shaped the nature and terms of moral and political philosophy, deploying a robust and specialized vocabulary that reaches beyond philosophy to political science, economics, sociology, and law. This volume is a complete and accessible guide to Rawls' vocabulary, with over 200 alphabetical encyclopaedic entries written by the world's leading Rawls scholars. From 'basic structure' to 'burdened society', from 'Sidgwick' to 'strains of commitment', and from 'Nash point' to 'natural duties', the volume covers the entirety of Rawls' central ideas and terminology, with illuminating detail and careful cross-referencing. It will be an essential resource for students and scholars of Rawls, as well as for other readers in political philosophy, ethics, political science, sociology, international relations and law.

American Original-Joan Biskupic 2009-11-10 The first full-scale biography of the Supreme Court's most provocative—and influential—justice. If the U.S. Supreme Court teaches us anything, it is that almost everything is open to interpretation. Almost. But what's inarguable is that, while the Court has witnessed a succession of larger-than-life jurists in its two-hundred-year-plus history, it has never seen the likes of Supreme Court Justice Antonin Scalia. Combative yet captivating, infuriating yet charming, the outspoken jurist remains a source of curiosity to observers across the political spectrum and on both sides of the ideological divide. And after nearly a quarter century on the bench, Scalia may be at the apex of his power. Agree with him or not, Scalia is "the justice who has had the most important impact over the years on how we think and talk about the law," as the Harvard law dean Elena Kagan, now U.S. Solicitor General, once

Downloaded from apostoliclighthouse.com on January

put it. Scalia electrifies audiences: to hear him speak is to remember him; to read his writing is to find his phrases permanently affixed in one's mind. But for all his public grandstanding, Scalia has managed to elude biographers—until now. In *American Original: The Life and Constitution of Supreme Court Justice Antonin Scalia*, the veteran Washington journalist Joan Biskupic presents for the first time a detailed portrait of this complicated figure and provides a comprehensive narrative that will engage Scalia's adherents and critics alike. Drawing on her long tenure covering the Court, and on unprecedented access to the justice, Biskupic delves into the circumstances of his rise and the formation of his rigorous approach to the bench. Beginning with the influence of Scalia's childhood in a first-generation Italian American home, *American Original* takes us through his formative years, his role in the Nixon-Ford administrations, and his trajectory through the Reagan revolution. Biskupic's careful reporting culminates with the tumult of the contemporary Supreme Court—where it was and where it's going, with Scalia helping to lead the charge. Even as Democrats control the current executive and legislative branches, the judicial branch remains rooted in conservatism. President Obama will likely appoint several new justices to the Court—but it could be years before those appointees change the tenor of the law. With his keen mind, authoritarian bent, and contentious rhetorical style, Scalia is a distinct and persuasive presence, and his tenure is far from over. This new book shows us the man in power: his world, his journey, and the far-reaching consequences of the transformed legal landscape.

The Essential Holmes-Oliver Wendell Holmes 2012-10-12 Oliver Wendell Holmes, Jr., has been called the greatest jurist and legal scholar in the history of the English-speaking world. In this collection of his speeches, opinions, and letters, Richard Posner reveals the fullness of Holmes' achievements as judge, historian, philosopher, and master of English style. Thematically arranged, the volume covers a rich variety of subjects from aging and death to themes in politics, personalities, and law. Posner's substantial introduction firmly places this wealth of material in its proper biographical and historical context. "A first-rate prose stylist, [Holmes] was perhaps the most quotable of all judges, as this ably edited volume shows."—Washington Post Book World "Brilliantly edited, lucidly organized, and equipped with a compelling introduction by Judge Posner, [this book] is one of the finest single-volume samplers of any author's work I have seen. . . . Posner has fully captured the acrid tang of him in this masterly anthology."—Terry Teachout, National Review "Excellent. . . . A worthwhile contribution to current American political/legal discussions."—Library Journal "The best source for the reader who wants a first serious acquaintance with Holmes."—Thomas C. Grey, New York Review of Books

Rationing the Constitution-Andrew Coan 2019-04-29 Compared to the vast machinery surrounding Congress and the president, the Supreme Court is a tiny institution that can resolve only a small fraction of the constitutional issues that arise in any given year. Andrew Coan shows that this simple yet frequently ignored fact is essential to understanding how the Supreme Court makes constitutional law.

The Chief-Joan Biskupic 2019-03-26 An incisive biography of the Supreme Court's enigmatic Chief Justice, taking us inside the momentous legal decisions of his tenure so far. John Roberts was named to the Supreme Court in 2005 claiming he would act as a neutral umpire in deciding cases. His critics argue he has been anything but, pointing to his conservative victories on voting rights and campaign finance. Yet he broke from orthodoxy in his decision to preserve Obamacare. How are we to understand the motives of the most powerful judge in the land? In *The Chief*, award-winning journalist Joan Biskupic contends that Roberts is torn between two, often divergent, priorities: to carry out a conservative agenda, and to protect the Court's image and his place in history. Biskupic shows how Roberts's dual commitments have fostered distrust among his colleagues, with major consequences for the law. Trenchant and authoritative, *The Chief* reveals the making of a justice and the drama on this nation's highest court.

Creating the Law-Michael K. Romano 2019-09-16 Written opinions are the primary means by which judges communicate with external actors. These sentiments include the parties to the case itself, but also more broadly journalists, public officials, lawyers, other judges, and increasingly, the mass public. In *Creating the Law*, Michael K. Romano and Todd A. Curry examine the extent to which judges tailor their language in order to avoid retribution during their retention, and how institutional variations involving intra-chamber dynamics may influence the written word of a legal opinion. Using an extensive dataset that includes the text of all death penalty and education decisions issued by state supreme courts from 1995-2010, Romano and Curry are the first to examine the connection between retention incentives and language choices. They utilize text analysis techniques developed in the field of communications and apply them to the text of judicial decisions. In doing so, they find that judges write with their audience in mind, and emphasize duelling strategies of justification and persuasion in order to please diverse audiences that may be paying attention. Furthermore, the process of drafting a majority opinion is a team exercise, and when more individuals

are involved in its crafting, the product will reflect this complexity. This book gives students the tools for understanding how institutional variation affects judicial outcomes and shows how language relates to decision-making in the judiciary more specifically.

Summaries of Leading Cases on the Constitution-Paul C Bartholmew 2018-10-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Essential Wisdom of the Supreme Court-Carol Kelly-Gangi 2019 "Millions of Americans are concerned about the current state of our politics. In these turbulent times, we can look to past and current Supreme Court justices for a measure of guidance, fortitude, and inspiration. In this carefully curated collection, Carol Kelly-Gangi gathers together hundreds of quotations from the justices who have exerted the most influence over the Court. These selections are drawn from legal opinions as well as speeches, interviews, statement, essays, books, and other writings. They are arranged thematically... Their words offer an enlightening, engaging view of the foremost authorities on the law of the land and their wise counsel." --Adapted from the inside of book jacket.

Shortlisted-Hannah Brenner Johnson 2020-05-12 Best Book of 2020, National Law Journal The inspiring and previously untold history of the women considered—but not selected—for the US Supreme Court In 1981, Sandra Day O'Connor became the first female justice on the United States Supreme Court after centuries of male appointments, a watershed moment in the long struggle for gender equality. Yet few know about the remarkable women considered in the decades before her triumph. Shortlisted tells the overlooked stories of nine extraordinary women—a cohort large enough to seat the entire Supreme Court—who appeared on presidential lists dating back to the 1930s. Florence Allen, the first female judge on the highest court in Ohio, was named repeatedly in those early years. Eight more followed, including Amalya Kearse, a federal appellate judge who was the first African American woman viewed as a potential Supreme Court nominee. Award-winning scholars Renee Knake Jefferson and Hannah Brenner Johnson cleverly weave together long-forgotten materials from presidential libraries and private archives to reveal the professional and personal lives of these accomplished women. In addition to filling a notable historical gap, the book exposes the tragedy of the shortlist. Listing and bypassing qualified female candidates creates a false appearance of diversity that preserves the status quo, a fate all too familiar for women, especially minorities. Shortlisted offers a roadmap to combat enduring bias and discrimination. It is a must-read for those seeking positions of power as well as for the powerful who select them in the legal profession and beyond.

Supreme Power: Franklin Roosevelt vs. the Supreme Court-Jeff Shesol 2011-03-14 "A stunning work of history."—Doris Kearns Goodwin, author of No Ordinary Time and Team of Rivals Beginning in 1935, the Supreme Court's conservative majority left much of FDR's agenda in ruins. The pillars of the New Deal fell in short succession. It was not just the New Deal but democracy itself that stood on trial. In February 1937, Roosevelt struck back with an audacious plan to expand the Court to fifteen justices—and to "pack" the new seats with liberals who shared his belief in a "living" Constitution.

Essentials Of The American Constitution-Charles H. Sheldon 2018-10-08 Examines the five closely integrated components which make up the Constitutions fundamental law to show how the components more often than not work together, assisting, explaining and reinforcing one another.. Constitutional politics is the continued search for equilibrium between the grants of power and the limits placed on that power. Essential

The Supreme Court's Role in Mass Incarceration-William T. Pizzi 2020-09-18 The Supreme Court's Role in Mass Incarceration illuminates the role of the United States Supreme Court's criminal procedure revolution as a contributing factor to the rise in U.S. incarceration rates. Noting that the increase in mass incarceration began climbing just after the Warren Court years and continued to climb for the next four decades—despite the substantial decline in the crime rate—the author posits that part of the explanation is the Court's failure to understand that a trial system with robust rights for defendants is not a strong trial system unless it is also reliable and efficient. There have been many explanations offered for the sudden and steep escalation in the U.S. incarceration rate, such as "it was the war on drugs" to "it was our harsh sentencing statutes." Those explanations have been shown to be inadequate. This book contends that we have overlooked a more powerful force in the rise of our incarceration rate—the long line of Supreme Court decisions, starting in the Warren Court era, that

made the criminal justice system so complicated and expensive that it no longer serves to protect defendants. For the vast majority of defendants, their constitutional rights are irrelevant, as they are forced to accept plea bargains or face the prospect of a comparatively harsh sentence, if convicted. The prospect of a trial, once an important restraint on prosecutors in charging, has disappeared and plea-bargaining rules. This book is essential reading for both graduate and undergraduate students in corrections and criminal justice courses as well as judges, attorneys, and others working in the criminal justice system.

The Hidden History of the Supreme Court and the Betrayal of America-Thom Hartmann 2019-10-01 Thom Hartmann, the most popular progressive radio host in America and a New York Times bestselling author, explains how the Supreme Court has spilled beyond its Constitutional powers and how we the people should take that power back. Taking his typically in-depth, historically informed view, Thom Hartmann asks, What if the Supreme Court didn't have the power to strike down laws? According to the Constitution, it doesn't. From the founding of the republic until 1803, the Supreme Court was the final court of appeals, as it was always meant to be. So where did the concept of judicial review start? As so much of modern American history, it began with the battle between the Federalists and Anti-Federalists, and with Marbury v. Madison. Hartmann argues it is not the role of the Supreme Court to decide what the law is but rather the duty of the people themselves. He lays out the history of the Supreme Court of the United States, since Alexander Hamilton's defense to modern-day debates, with key examples of cases where the Supreme Court overstepped its constitutional powers. The ultimate remedy to the Supreme Court's abuse of power is with the people--the ultimate arbiter of the law--using the ballot box. America does not belong to the kings and queens; it belongs to the people.

Supreme Court Practice-Robert L. Stern 1950

Supreme Disorder-Ilya Shapiro 2020-09-22 The brutal confirmation battles we saw over Supreme Court Justices Neil Gorsuch and Brett Kavanaugh are symptoms of a larger problem with our third branch of government, a problem that began long before Kavanaugh, Merrick Garland, Clarence Thomas, or even Robert Bork: the courts' own self-corruption, aiding and abetting the expansion of federal power. Ilya Shapiro, director of the Cato Institute's Center for Constitutional Studies, takes readers inside the unknown history of fiercely partisan judicial nominations and explores reform proposals that could return the Supreme Court to its proper constitutional role. Confirmation battles over justices will only become more toxic and unhinged as long as the Court continues to ratify the excesses of the other two branches of government and the parties that control them. Only when the Court begins to rebalance constitutional order, curb administrative overreach, and return power back to the states will the bitter partisan war to control the judiciary finally end.

TIME The Constitution-Editors of TIME Magazine 2012-05-11 Americans have debated the Constitution since the day it was signed, but rarely in its 223-year history have so many disagreed so fiercely about so much. Everywher there seems to be a debate about the Constitution's meaning and message. The Tea Party, with its almost fanatical focus on the founding documents, contends that its primary purpse is to restrain the federeal government—but does it really say that? Among scholars, some believe the Constitution should be interpreted exactly as the framers wrote it, while others analyze the text just as closely to find the elasticity they believe the framers had in mind. But how could the founding fathers know about the world today, with DNA, sexting, airplanes, TV, Medicare, computers and Lady Gaga? In this probing and accessible book, TIME's editors bring the founding document to life, showing how it was written in a spirit of change and revolution and turbulence. With an introduction by one of America's top jurists, an essay by TIME managing editor Richard Stengel (former president of the National Constitution Center), and the full text of the 8,000-word Constitution annotated to show its most controversial passages and little-known quirks, TIME's compact volume will be an indespensable guide for the well-informed citizen.

The Enigma of Clarence Thomas-Corey Robin 2019-09-24 The Enigma of Clarence Thomas is a groundbreaking revisionist take on the Supreme Court justice everyone knows about but no one knows. Most people can tell you two things about Clarence Thomas: Anita Hill accused him of sexual harassment, and he almost never speaks from the bench. Here are some things they don't know: Thomas is a black nationalist. In college he memorized the speeches of Malcolm X. He believes white people are incurably racist. In the first examination of its kind, Corey Robin - one of the foremost analysts of the right - delves deeply into both Thomas's biography and his jurisprudence, masterfully reading his Supreme Court opinions against the backdrop of his autobiographical and political writings and speeches. The hidden source of Thomas's conservative views, Robin shows, is a profound skepticism that racism can be overcome. Thomas is convinced that any government action on behalf of African-Americans will be tainted by racism; the most African-Americans can hope for is that white people will get out of their way. There's a reason, Robin concludes, why liberals often complain that Thomas doesn't speak but seldom pay attention when he does.

Downloaded from apostoliclighthouseradio.com on January

Were they to listen, they'd hear a racial pessimism that often sounds similar to their own. Cutting across the ideological spectrum, this unacknowledged consensus about the impossibility of progress is key to understanding today's political stalemate.

Judicial Review of Elections in Asia-Po Jen Yap 2016-04-14 In the past century, Asian nations have experienced a wave of democratisation as countries in the region have gained independence or transitioned from authoritarian military rule towards more participatory politics. At the same time, there has been an expansion of judicial power in Asia, whereby new courts or empowered old ones emerge as independent constraints on governmental authority. This is the first book to assess the judicial review of elections in Asia. It provides important insights into how Asian courts can strategically engage with the political actors in their jurisdictions and contribute to a country's democratic discourse. Each chapter in the book sheds light on the judicial review of elections and the electoral process in a specific Asian jurisdiction, including Common Law Asia, namely Hong Kong, India, Malaysia, and Singapore, as well as jurisdictions in Civil Law Asia, namely Indonesia, Japan, the Republic of Korea, Taiwan, and Thailand. It fills a gap in the literature by addressing a central challenge to democratic governance, namely the problem of partisan self-dealing in the electoral processes. By exploring the constantly evolving role of the courts in addressing pivotal constitutional questions, this book will be of interest to students and scholars of Asian Law, Governance and Politics.

Strange Justice-Jane Mayer 2018-05-09 Now a New York Times Best Seller and a National Book Award finalist. Charged with racial, sexual, and political overtones, the confirmation of Clarence Thomas as a Supreme Court justice was one of the most divisive spectacles the country has ever seen. Anita Hill's accusation of sexual harassment by Thomas, and the attacks on her that were part of his high-placed supporters' rebuttal, both shocked the nation and split it into two camps. One believed Hill was lying, the other believed that the man who ultimately took his place on the Supreme Court had committed perjury. In this brilliant, often shocking book, Jane Mayer and Jill Abramson, two of the nation's top investigative journalists examine all aspects of this controversial case. They interview witnesses that the Judiciary Committee chose not to call, and present documents never before made public. They detail the personal and professional pasts of both Clarence Thomas and Anita Hill and lay bare a campaign of lobbying, public relations, and character assassination fueled by conservative power at its most desperate. A gripping high-stakes drama, Strange Justice is not only a definitive account of the Clarence Thomas nomination hearings, but is also a classic casebook of how the Washington game is played by those for whom winning is everything.

Religion and the American Constitutional Experiment-John Witte, Jr. 2010-07-27 The third edition of this classic book provides a comprehensive, multidisciplinary overview of the history, theory, law, and comparative analysis of American religious liberty from the earliest colonial period through the most recent Supreme Court cases. The authors present balanced, accessible discussions of controversial issues, such as funding religious schools and charities and displaying religious symbols on government property. Three chapters new to this edition cover the free exercise of religion, religion and public life, and religious organizations and the law. In addition, an expanded concluding chapter places the American experience in global context by comparing contemporary American religious liberty law with international human rights standards.

The Second Founding: How the Civil War and Reconstruction Remade the Constitution-Eric Foner 2019-09-17 From the Pulitzer Prize-winning scholar, a timely history of the constitutional changes that built equality into the nation's foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the United States. Eric Foner's compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre-Civil War mass meetings of African-American "colored citizens" and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.

A People's History of the United States-Howard Zinn 1996 In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Uncertain Justice-Laurence Tribe 2014-06-03 With the Supreme Court more influential than ever, this eye-opening book tells the story of how the Roberts Court is shaking the foundation of our nation's laws From Citizens United to its momentous rulings regarding Obamacare and gay marriage, the Supreme Court under Chief Justice John Roberts has profoundly affected American life. Yet the court remains a mysterious institution, and the motivations of the nine men and women who serve for life are often obscure. Now, in Uncertain Justice, Laurence Tribe and Joshua Matz show the surprising extent to which the Roberts Court is revising the meaning of our Constitution. This essential book arrives at a make-or-break moment for the nation and the court. Political gridlock, cultural change, and technological progress mean that the court's decisions on key topics—including free speech, privacy, voting rights, and presidential power—could be uniquely durable. Acutely aware of their opportunity, the justices are rewriting critical aspects of constitutional law and redrawing the ground rules of American government. Tribe—one of the country's leading constitutional lawyers—and Matz dig deeply into the court's recent rulings, stepping beyond tired debates over judicial "activism" to draw out hidden meanings and silent battles. The undercurrents they reveal suggest a strikingly different vision for the future of our country, one that is sure to be hotly debated. Filled with original insights and compelling human stories, Uncertain Justice illuminates the most colorful story of all—how the Supreme Court and the Constitution frame the way we live.

The Essential GAAR Manual-William I. Innes 2006

The RBG Workout-Bryant Johnson 2017-10-17 A fun, fully illustrated exercise book that details Ruth Bader Ginsburg's workout, written by her trainer. Have you ever wondered what keeps Justice Ruth Bader Ginsburg, one of the Supreme Court's favorite octogenarians, so sprightly? She owes it in part to the twice-weekly workouts she does with her personal trainer, Bryant Johnson, a man she's called "the most important person" in her life. Now you too can work out with Justice Ginsburg's trainer in the comfort of your home with The RBG Workout. From planks to squats to (full) push-ups, this simple but challenging workout—illustrated with four-color illustrations of the justice in workout gear—will have you getting fit in no time. With tips from the bench, and sidebars with Bryant's folksy wisdom on getting fit and staying healthy, this delightful book is a perfect gift for anyone looking to emulate one of America's most admired women.
