Worst. Person. Ever.-Douglas Coupland 2014-04-03 Raymond Gunt likes to think of himself as a pretty decent guy—he believes in karma, and helping his fellow man, and all that other good stuff. Sure, he can be foulmouthed, occasionally misogynistic, and can just generally rub people the wrong way—through no fault of his own! So with all the positive energy he's creating, it's a little perplexing to consider the recent downward spiral his life has taken...Could the universe be trying to tell him something? A B-unit cameraman with no immediate employment prospects, Gunt decides to accept his ex-wife Fiona's offer to shoot a Survivor-style reality show on an obscure island in the Pacific. With his upwardly falling sidekick, Neal, in tow, Gunt somehow suffers multiple comas and unjust imprisonment, is forced to reenact the "Angry Dance" from the movie Billy Elliot, and finds himself at the center of a nuclear war—among other tribulations and humiliations. A razor-sharp portrait of a morally bankrupt, gleefully wicked modern man, Worst. Person. Ever. is a side-splittingly funny and gloriously filthy new novel from acclaimed author Douglas Coupland. A deeply unworthy book about a dreadful human being with absolutely no redeeming social value, it's guaranteed to brighten up your day.

The Worst Man in the World-Edgar Wallace 2020-10-09 I am an ex-convict, and have spent twenty-five years in prison. This is the only honest way of making a living which does not bore me stiff. The spirit of adventure is never stronger in a man than on the day he is released from prison. The theory that prison crushes a man's spirit is all bunkum. One of the first things I did when I came out of prison was to look round for a nice genteel way of swindling the public. I came out of prison with the deputy's words ringing in my ears, "I think you are the worst man in the world."

The Wisdom of Crowds-James Surowiecki 2005-08-16 In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

The Worst Hard Time-Timothy Egan 2006-09-01 In a tour de force of historical reportage, Timothy Egan's National Book Award-winning story rescues an iconic chapter of American history from the shadows. The dust storms that terrorized the High Plains in the darkest years of the Depression were like nothing ever seen before or since. Following a dozen families and their communities through the rise and fall of the region, Timothy Egan tells of their desperate attempts to carry on through blinding black dust blizzards, crop failure, and the death of loved ones. Brilliantly capturing the terrifying drama of catastrophe, he does equal justice to the human characters who become his heroes, "the stoic, long-suffering men and women whose lives he opens up with urgency and respect" (New York Times). In an era that promises ever-greater natural disasters, The Worst Hard Time is "arguably the best nonfiction book yet" (Austin Statesman Journal) on the greatest environmental disaster ever to visited upon our land and a powerful reminder about the dangers of trifling with nature. This e-book includes a sample chapter of THE IMMORTAL IRISHMAN.

Game Theory, Alive-Anna R. Karlin 2017-04-27 We live in a highly connected world with multiple self-interested agents interacting and myriad opportunities for conflict and cooperation. The goal of game theory is to understand these opportunities. This book presents a rigorous introduction to the mathematics of game theory without losing sight of the joy of the subject. This is done by focusing on theoretical highlights (e.g., at least six Nobel Prize winning results are developed from scratch) and by presenting exciting connections of game theory to other fields such as computer science (algorithmic game theory), economics (auctions and matching markets), social choice (voting theory), biology (signaling and evolutionary stability), and learning theory. Both classical topics, such as zero-sum games, and modern topics, such as sponsored search auctions, are covered. Along the way, beautiful mathematical tools used in game theory are introduced, including convexity, fixed-point theorems, and probabilistic arguments. The book is appropriate for a first course in game theory at either the undergraduate or graduate level, whether in mathematics, economics, computer science, or statistics. The importance of game-theoretic thinking transcends the academic setting—for every action we take, we must consider not only its direct effects, but also how it influences the incentives of others.

The Old Man and The Sea-Ernest Hemingway 2015-01-01 The Classics

Love, Unscripted-Owen Nichols 2020-02-11 "Nostalgic, tender, and achingly cool."—Josie Silver, #1 New York Times bestselling author of One Day in December A film-obsessed romantic rewrites the script to understand why his "picture-perfect" love story crashed and burned in this wonderfully clever debut. Ellie had the quizzical eyebrows of Broadcast News-era Holly Hunter and the neon-red hair of Kate Winslet in Eternal Sunshine of the Spotless Mind. At least that's what caught Nick's attention when he met her on the night of 2008's historic presidential election. A cinema buff and devotee of great love stories, Nick always fancied himself the Tom Hanks of his own romantic comedy, and when sparks flew with Ellie that night, he swiftly cast her as the Meg Ryan of his story. For four blissful years, Nick loved Ellie just as he loved his job as a film projectionist: wholly, earnestly, cinematically. But now Ellie has moved out, convinced that "the fire's gone," and Nick is forced to sift through his memories to figure out where it all went wrong. That night was a perfect meet-cute, yes, but was their romance as destined for a "happily ever after" as he'd thought? Was he really the rom-com hero he believes he'd be? Or did this Harry let his Sally down? Peppered with references to beloved movies, Love, Unscripted explores how even a hopeless romantic can learn that in real life, love isn't—shouldn't be—like what we see in the movies.

The Worst Man on Mars-Mark Roman 2016-09 Hero. Legend. Role model. He's none of those. Flint Dugdale, blunt Yorkshireman and reality TV show winner, has used his large frame and 'persuasive personality' to take charge of Britain's first mission to Mars. Little does he know that the base - built by an advance party of incompetent robots - is not quite finished and has no food, water or doors. Worse, the ship's scanners are picking up strange signals from the surface. There is life down there. But will it be pleased to see him? A laugh-out-loud science fiction comedy that's a cross between Red Dwarf and The Martian. "Some parts of the book had me laughing so much I had to literally put it down and step away." - SFcrowsnest magazine. "Very inventive, imaginative, and funny from cover to cover." - Kevin Bergeron, author of In a Cat's Eye "A brilliantly funny and cleverly conceived work." - Rob Gregson, author of Unreliable Histories "The funniest sci-fi I've ever read ... and I don't even like sci-fi!" - Frank Kusy, author of Rupee Millionaires "It's true, if the Brits launched a mission to Mars absolutely anything could happen." - Dave from the corner shop. Chapter 10, The Rovers Return, was shortlisted in the short story category of the Yeovil Literary Prize 2014.
