State Education Journal Index and Educators' Guide to Periodicals Research Strategies- 1989
Local Government and the States-David R. Berman 2019-08-23 This book offers an overview of the legal, political, and broad intergovernmental environment in which relations between local and state units of government take place, the historical roots of the conflict among them, and an analysis of contemporary problems concerning local authority, local revenues, state interventions and takeovers, and the restructuring of local governments. The author pays special attention to local governmental autonomy and the goals and activities of local officials as they seek to secure resources, fend off regulations and interventions, and fight for survival as independent units. Now, in a thoroughly revised second edition, this book examines marijuana use, minimum wages, the establishment of sanctuary cities, and the regulation of ride-sharing companies. Looking at the intergovernmental struggle from the bottom up, and in the process examining a variety of political activities and policies at the state level, Berman finds considerable reason to be concerned about the viability and future of meaningful local government. This book improves our understanding of the relationship between state and local governments. It provides a thoughtful look at the past, present, and possibly the future of local home rule.

The Lobbying and Advocacy Handbook for Nonprofit Organizations, Second Edition-Marcia Avner 2013-07-23 The Lobbying and Advocacy Handbook for Nonprofit Organizations, Second Edition, is your complete road map to shaping public policy at the state and local level. It gives detailed, step-by-step instructions for developing an effective plan and putting it into action. With this handbook, you will discover how lobbying can help fulfill your mission; learn how to initiate, support, or defeat bills; develop effective lobbying skills; gather and mobilize support for your positions; learn how to use the media effectively; influence gov't administrators to back your policy positions; comply with state and federal regulations; and set up systems in your nonprofit to support lobbying. In addition to updated worksheets, case studies, and resources, new material in the second edition includes nonprofit civic engagement and voter mobilization; designing the Policy Committee that works for your nonprofit; utilizing social media in your communications strategies; administrative advocacy; working with governmental agencies; and understanding the why, what and how of collaboration.
Model Rules of Professional Conduct-American Bar Association. House of Delegates 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Give a Sh*t-Ashlee Piper 2018-06-26 "The time for stepping up and protecting our planet is now. And this book is an easy, enjoyable place to start." -- Moby It's time to put your good intentions into action. It's time to give a shit -- about your health, your footprint, and your planet. Give a Sh*t guides you through the transition to a kinder, healthier, more conscious, and sustainable life like no book has done before. With a humorous and nonjudgmental tone, savvy eco-friendly lifestyle expert Ashlee Piper walks you through easy-but-impactful shifts anyone can make to live and be better every damn day: In your home - Room-by-room guidance and tactics for a chic, affordable, sustainable living space, no matter where or how you live In the kitchen - 20+ unfussy, quick, and delicious plant-based recipes for every life occasion, from pantry staples like White Witch Almond Milk to exciting everyday fare like Walnut Chorizo Tostadas to kick-ass desserts like Jamocha Silk Pie In your closet - Advice for building a polished, ethical wardrobe in a world of fast fashion In the mirror - Beauty and grooming tips and DIY products (from skin care to foundation to, ahem, ladytime provisions) that are safer, natural, cruelty-free, and, best of all, effective In the wild - How to maintain your values (and your moxie) at work, in your social life, and when abroad Give a Sh*t isn't a manual of restrictions -- it's a practical handbook that meets you where you are and finally harmonizes doing good with living well.
The Third House-Alan Rosenthal 2001-02-01 The book, which has drawn praise for its inviting and accessible style, thoroughly examines the lobbying scene: the settings in which lobbying takes place, the types and styles of lobbyists, the broad range of approaches and techniques used by lobbyists, and the role and influence of lobbying in our system of representative democracy. A favorite among professors and students alike, The Third House is a great choice as a supplement for courses on state politics or interest groups.
Southern Exposure- 1984
Online Teaching at Its Best-Linda B. Nilson 2017-12-04 Bring pedagogy and cognitive science to online learning environments Online Teaching at Its Best: A Merger of Instructional Design with Teaching and Learning Research is the scholarly resource for online learning that faculty, instructional designers, and administrators have long been awaiting. Over 70 percent of degree-granting institutions offer online classes, and while technical resources abound, the courses often fall short of integrating the best practices in online pedagogy, even if they comply with online course design standards. Typically these standards omit the best practices in teaching and learning and the principles from cognitive science, leaving students struggling to keep the pace, understand the material, and fulfill their true potential as learners. This book fills the gap, providing evidence-based practices for online teaching, online course design, and online student motivation integrated with pedagogical and cognitive science to help you build the distance learning courses and programs your students deserve. As more and more students opt for distance learning, it's up to designers and instructors to rethink traditional methods and learn to work more effectively within the online learning environment, and up to administrators to provide the needed leadership. Online Teaching at Its Best provides practical, real-world advice grounded in educational science to help online instructors, instructional designers, and administrators deliver an exceptional learning experience. Adopt new pedagogical techniques designed specifically for online learning environments Ensure strong course alignment and effective student learning for online classes Increase student retention, build necessary support structures, and train faculty more effectively Integrate research-based course design and cognitive psychology into graduate or undergraduate programs Distance is no barrier to a great education; what do stand in the way are inadequate online course design and implementation and deficient faculty training and support—all of which administrators can mitigate. Online Teaching at Its Best will help you ensure that your online classes measure up to the rigor and quality of excellence in teaching and assessment, build in the personal touch for developing a learning community and equip your students to succeed in the next challenge.

Lobbying for Higher Education-Constance Ewing Cook 1998 Historically, many faculty and administrators in higher education have regarded themselves as above the fray--part of the national interest, not a special interest--and considered lobbying a dirty business unworthy of their lofty enterprise. Now that academia no longer enjoys all the respect and good will that federal policy makers once afforded it, that attitude has changed. The Republican sweep of the 1994 Congressional elections served as a wake-up call for the higher education community. In response, it made a spirited effort to gain attention for its own policy preferences. Lobbying for Higher Education is about how the major higher education associations and the constituent American colleges and universities try to influence federal policy, especially congressional policy. In clear prose Cook explains how the higher education community organizes itself in Washington, how it lobbies, and how its major interest groups are perceived both by their own members and by public officials. The book focuses on the crucial development in 1995-1996 of a new lobbying paradigm, which included the greater use of campus-based resources and ad hoc coalitions. The most engrossing part of its story is higher education's creative response to the policy turmoil and disruption of the status quo that resulted from the shift in congressional party control. The author, Constance Cook, uses sources unique to this project: over 1,500 survey responses from college and university presidents (a 62% return rate) and nearly 150 interviews with institutional and association leaders. Fortuitously, the 1994 electoral upheaval provided her with an opportunity to capture, analyze, and interpret the responses of her subjects in a period of unusually sweeping change. Lobbying for Higher Education is a timely book with an interesting and important story at its core.
Highway Safety Literature- 1985
Cover Letter Magic-Wendy S. Enelow 2004 Professional resume and cover letter writers reveal their inside secrets for creating phenomenal cover letters that get attention and land interviews. An Online Doctorate for Researching Professionals-Swapna Kumar 2018-04-30 The interest and demand for online terminal degrees across disciplines by professionals wishing to conduct research and fulfill doctoral degree requirements at a distance is only increasing. But what these programs look like, how they are implemented, and how they might be evaluated are the questions that challenge administrators and pedagogues alike. This book presents a model for a doctoral program that bridges theory, research, and practice and is offered completely or largely online. In their described program model, Kumar and Dawson enable researching professionals to build an online community of inquiry, engage in critical discourse within and across disciplines, learn from and with experts and peers, and generate new knowledge. Their program design is grounded in the theoretical and research foundations of online, adult, and doctoral education, curriculum design and community-building, implementation, and evaluation. The authors, who draw on their experience of implementing a similar program at the University of Florida, not only share data collected from students and faculty members but also reflect on lessons learned working on the program in diverse educational contexts. An important guide for program leaders who wish to develop, implement, and sustain an online professional doctorate, An Online Doctorate for Researching Professionals will also be a valuable resource for higher education professionals seeking to include e-learning components in existing on-campus doctoral programs.
