Graphic Violence-Emily Edwards 2019-06-17 Graphic Violence provides an innovative introduction to the relationship between violence and visual media, discussing how media consumers and producers can think critically about and interact with violent visual content. It comprehensively surveys predominant theories of media violence and the research supporting and challenging them, addressing issues ranging from social learning, to representations of war and terrorism, to gender and hyper-masculinity. Each chapter features original artwork presenting a story in the style of a graphic novel to demonstrate the concepts at hand. Truly unique in its approach to the subject and medium, this volume is an excellent resource for undergraduate students of communication and media theory as well as anyone interested in understanding the causes and effects of violence in media.

Fire in the United States-

Counterair Operations-United States United States Air Force 2015-02-14 The mission of the United States Air Force is to fly, fight, and win in air, space, and cyberspace. A crucial part of achieving that mission involves obtaining and maintaining superiority in the air domain. That domain, defined for the first time in this publication, is the area, beginning at the Earth's surface, where the atmosphere has a major effect on the movement, maneuver, and employment of joint forces. Within that domain, forces exercise degrees of control or levels of influence, characterized as parity, superiority, or supremacy. The US has enjoyed at

least air superiority in all conflicts since the Korean War. The US will probably retain that superiority in today's ongoing conflicts, but the prospect of near-peer competitors in the not-too-distant future raise the possibility of air parity - a condition in the air battle in which one force does not have air superiority over others - or even conceding superiority to the adversary if Air Force forces are not properly employed.

Training Units and Developing Leaders (ADRP 7-0)-Department Army 2012-11-16 Army Doctrine Reference Publication (ADRP) 7-0, Training Units and Developing Leaders, augments fundamental principles discussed in Army Doctrine Publication (ADP) 7-0, Training Units and Developing Leaders. Both ADP 7-0 and ADRP 7-0 support the doctrine established in ADP 3-0 and ADRP 3-0. Army units will face a complex operational environment shaped by a wide range of threats, allies, and populations. Rapid advances in communications, weapons, transportation, information technologies, and space-based capabilities make it a challenge to just stay even with the pace of change. Because Army units face a wide mix of challenges-from strategic to tactical-they must develop leaders to conduct unified land operations anywhere in the world in any operation across the conflict continuum. Army training prepares units and leaders to be successful through challenging, realistic, and relevant unit training and leader development at home station, at the combat training centers, and in the schoolhouses.

In the Public Interest-Linda Weintraut 1999 This volume explores the history of broadcasting in the nineteenth state through the words and memories of those involved in the industry. Drawn from an oral history project that produced more than three thousand pages of oral history interviews transcribed from tape, the book explores such areas as individual stations in Indiana and the people who worked there, the evolution of technology and the regulation of the industry by the government, the ethics of broadcasters, the impact of broadcasting on the public, station philosophy, and the future of the profession.

Flash Math Creativity-Jared Tarbell 2013-12-16 It all revolves around Flash and math. It's what you do in your spare time: just take little ideas and mess around with them. This is a book of inspiration, beautiful enough to leave on the coffee table, but addictive enough to keep by your computer and sneak out while no-one's looking so you can go back to that movie that you were tinkering with 'til three o'clock this morning. It's a fun book. It's a book of iterative experiments, generative design. Each author does four experiments. Each experiment takes up four pages. We give you the code and explain the essence, then you take away your inspiration and run with it. The purpose of the book is to learn through experimentation because you are inspired to do so, not because someone is telling you to do so. Follow the fmc site link for more information.

The Brookfields-Dennis LeBeau 1996-05-01 In this remarkable new photographic history, local historian and photographer Dennis LeBeau presents a heartwarming tale of life in the Brookfields at the turn of the century. The photographs in this collection are those of William Bullard, an itinerant photographer in the 1890s and early 1900s from North Brookfield, whose work has never before been published in book form. The story of Bill Bullard's life and photographic legacy are dramatically revealed in this fascinating glimpse into the past. After the photographer's untimely and tragic demise, the rich photographic archives of Bill Bullard were carefully preserved by his brother, Charlie Bullard, and three generations of the neighboring Gaudette family. Dennis LeBeau has individually reprinted each image in this collection from its original glass plate negative. Mr. LeBeau's researched and well-informed captions accompany the photographs in Bullard's collection, creating a comprehensive historic portrait of both the Brookfields and the Bullard family.

Where the God of Love Hangs Out-Amy Bloom 2010-01-12 BONUS: This edition contains a Where the God of Love Hangs Out discussion guide. Love, in its many forms and complexities, weaves through this collection by Amy Bloom, the New York Times bestselling author of *Away*. Bloom's astonishing and astute stories illuminate the mysteries of passion, family, and friendship. A young woman is haunted by her roommate's murder; a man and his daughter-in-law confess their sins in the unlikeliest of places; two middle-aged, married friends find themselves surprisingly drawn to each other, risking all for their love but never underestimating the cost. Propelled by Bloom's dazzling prose, unmistakable voice, and generous wit, *Where the God of Love Hangs Out* takes us to the margins and the centers of people's emotional lives, exploring the changes that come with love and loss.

Beyond Pug's Tour-C. C. Barfoot 1997 At a time when the world, Europe especially, is once more threatened by murderous conflicts between groups of people claiming ethnic and national identity as a basis for sovereignty over specific territories, it is timely to consider the part that literature has played and is playing in the creation of ethnic and national stereotypes. What role do such stereotypes have in literature? How are they created? From what materials are they constructed? What purpose do ethnic and national stereotypes serve? Can it ever be a useful one? Are they avoidable? Can we live without them? What can be done about the deleterious effects they may be thought to produce? Stereotyping is worldwide -- is there a tribe, race and nation in existence which escapes being stereotyped by its neighbours? In what sense are these stereotypes accurate? How are these stereotypes reflected in and reinforced by literature? Should and can literature do anything about them? In *Beyond Pug's Tour: National and Ethnic Stereotyping in Theory and Literary Practice*, literary scholars, as well as academics engaged in sociological and psychological research, consider these and other questions by examining the work of specific authors and the circumstances in which stereotyping plays such a crucial part.

Asbestos-Barry I. Castleman 2005 Written by one of the leading asbestos experts for both plaintiff and defense attorneys, occupational and environmental health professionals, as well as others in the field of toxic substances control, *Asbestos: Medical and Legal Aspects* has become the definitive resource on the medical and legal aspects of asbestos. *Asbestos: Medical and Legal Aspects* provides a comprehensive examination of the public health history of asbestos, from the origins of industrial use to the present. It includes in-depth coverage of prior and ongoing litigation; extensive evaluation of the legal arguments put forth by plaintiff and defense counsel; and provides crucial information, materials and resources on the evolving corporate knowledge of asbestos hazards. The book covers in detail: asbestosis and cancer; compensability of asbestosis and cancer as occupational diseases; thresholds and standards used to determine safe or acceptable levels of asbestos exposure in the workplace; and company knowledge of asbestos hazards, gleaned from countless depositions, company records, industry consultants and trade associations. Some items new to the Fifth Edition include: extensive discussion of corporate knowledge and responsibility for asbestos hazards extensive examination of the international struggle over asbestos, whereby some countries have banned asbestos while others have continued to expand their usage of asbestos in building materials detailed discussion of alternatives to asbestos.

Title IX-Linda Jean Carpenter 2005 Title IX delivers a complete look at one of sport's critical gender equity issues. It goes beyond intercollegiate athletics to address Title IX in the context of sport, physical activity, recreation, intramurals, and physical education. From its enactment in 1972, Title IX has been often oversimplified or misunderstood by both advocates and critics of the legislation. Knowledgeable in the legal issues of sport and experienced in the administration of sport and physical education programs, the authors of Title IX offer a balanced, comprehensive view of this issue, lending important insights into Title IX's requirements and application both now and when it was enacted. Title IX, the law, prohibits any education program or activity receiving federal financial assistance from discriminating on the basis of sex. Title IX, the text, helps to clarify the law in a three-part progression that is accurate and accessible. In Part I, you will see Title IX's structure and requirements applied in different settings including physical education, intramurals and recreation, and athletics. Part II then provides a historical account of the social, legislative, and judicial environments in which Title IX has grown to maturity over the past three decades. Finally, part III examines Title IX in the 21st century, its impact on sport related programs, and continuing debates. Title IX will also help you gain a solid understanding of the law itself. You will examine the actual wording of the law and related interpretive materials. You'll review significant lawsuits as you explore how the legislation has been interpreted and judicially clarified over the years in changing social and political climates. You'll find further clarifying information in summaries and questions and answers at the end of each chapter. Six appendixes provide pertinent excerpts from Title IX regulations, policy interpretations, letters of clarification, and an annotated list of other print and online resources. Whether you're looking for clarification of Title IX or for information on applying it in your programs, you'll find the information you need in Title IX.

Jewelry by Joan Rivers-Joan Rivers 1995-01 "Joan Rivers adores jewelry. She loves to shop for it, wear it, and design it. She also loves to talk about it, which is just what she does throughout this glittering volume. Her passion for jewelry - as romantic keepsake, fashion accessory, and personal statement - informs every page of Jewelry by Joan Rivers. She describes the pieces that she has always admired, particularly those that have influenced her own designs. She tells the fascinating stories of her favorite jewelry designers, from the fabulous Faberge to the phenomenal Bulgari brothers. She devotes a chapter to accessorizing with jewelry, offering countless tips on how to turn that plain outfit into a totally chic ensemble by knowing what jewelry to select, and demonstrating the different looks that jewelry can achieve in a series of fashion photographs taken exclusively for this book." "All of Joan River's love and knowledge of jewelry is reflected in the pieces she designs for her own line of costume jewelry - the Joan Rivers Classics Collection - hundreds of which are reproduced here in specially commissioned, full-color photographs. And she takes us behind the scenes to show us how her jewelry is crafted, from initial sketches to finished product."--
