Anthem-Ayn Rand 2020-12-01 Equality 7-2521 finds himself out of step with the collectivist society of the future, and discovers a means to freedom in Ayn Rand's fable of the individual in conflict with society. First published in 1938, Anthem takes place in a dystopian future world in which humanity is enduring a new dark age, human life is regimented in every respect and personal identity has been all but snuffed out by a totalitarian government. The narrator, writing his story in secret, realizes he is a criminal simply for having thoughts of his own. Exploring the ruins of a previous civilization he discovers relics, conducts forbidden experiments and learns enough to question the very structure of his society. Can he share this knowledge with his fellow citizens? The author strips the relationship of human dignity to its bare essence in this modern parable that starkly illuminates the challenge an oppressive government presents to individuality. With an eye-catching new cover, and professionally typeset manuscript, this edition of Anthem is both modern and readable. You Are Here-Katharine Harmon 2011-10-04 Mapmaking fulfills one of our most ancient and deepseated desires: understanding the world around us and our place in it. But maps need not just show continents and oceans: there are maps to heaven and hell; to happiness and despair; maps of moods, matrimony, and mythological places. There are maps to popular culture, from Gulliver's Island to Gilligan's Island. There are speculative maps of the world before it was known, and maps to secret places known only to the mapmaker. Artists' maps show another kind of uncharted realm: the imagination. What all these maps have in common is their creators' willingness to venture beyond the boundaries of geography or convention. You Are Here is a wide-ranging collection of such superbly inventive maps. These are charts of places you're not expected to find, but a voyage you take in your mind: an exploration of the ideal country estate from a dog's perspective; a guide to buried treasure on Skeleton Island; a trip down the road to success; or the world as imagined by an inmate of a mental institution. With over 100 maps from artists, cartographers, and explorers, You are Here gives the reader a breath-taking view of worlds, both real and imaginary. Singing in Mandarin-Katherine Chu 2020-11-30 Access audio files at:https://soundcloud.com/k-chu-j-petrus/sets/singing-in-mandarin-recorded The success of Chinese artists internationally across many art forms has focused the world's attention on the developing cultural phenomenon in China, an emerging stage for the vocal arts. As one of the most widely spoken languages in the world, Mandarin is poised to become the next addition to lyric languages. Singing in Mandarin: A Guide to Chinese Lyric Diction and Vocal Repertoire is a comprehensive guide to unlocking the mysteries of Chinese contemporary vocal literature. In part one, Chu and Petrus focus on diction and language, providing detailed descriptions and exercises for creating the sounds of the language. They take a uniquely systematic approach, fusing together best practices from international music conservatories for diction study, with those for Chinese language learning. Part two outlines the historical context of Chinese vocal literature, chronicling the development of the language and its repertoire over the last one hundred years. Audio files narrated by native speakers demonstrating the sounds are also included. Singing in Mandarin provides guidance for both novices and those with previous experience singing or speaking Mandarin and is the first book of its kind to help bring the fascinating and previously inaccessible treasure of Chinese vocal music to Western audiences. Drake's Journal-Nolan North 2011-11-01 Inside the making of Uncharted 3 by Nolan North, aka (Drake) Guide to the Selection of Books for Your Elementary School Library, 1971-72-Dorothy A. McGinniss 1971 Mapping Out the Research-policy Matrix-Germán Solinís 2011 Social science research provides not only abstract, conceptual knowledge about society but also concrete, instrumental knowledge. It enables us to take action to recompose the world we live in. However, this book rejects narrow and simplistic conceptions of research use and its impact on policy-making, to embrace a more complex approach to seeing and dealing with social science. In the paradigm of "evidence-based policy", "evidence" is understood in its broad sense as information that helps form policies. Nonetheless, within current practices and discourse, it is not clear what "information" is, what is really meant by "evidence", and how it can be obtained objectively. The book draws on papers presented at the International Forum on the Social Science-Policy Nexus, where experts examined current practices and problems in areas such as social policy, migration, urban policies and globalisation. The Forum set a precedent in terms of dialogue between researchers and policy-makers. The authors contribute to enriching and elucidating the most common conceptualisations of the research-policy nexus. They represent a rich diversity of views, although most agree that an effective strategy to enhance social science-policy linkages should be underpinned by a theoretical and methodological framework that takes into account the interplay of different social actors.
