As he sluggishly investigates the matter, an earlier case of murder and mutilation turns up as well. Suspecting that the town's Ladies' Club may be oddly involved, Dover devises an elaborate and utterly wicked trap. His bait: his overworked, unsuspecting assistant MacGregor. Absolutely unforgettable." - Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. kids are worth it!-Barbara Coloroso 1995-08-01 Barbara Coloroso's powerful message is that good parenting begins with treating kids with respect. It means giving them a sense of power in their own lives, and offering them opportunities to make decisions, take responsibility for their actions, and learn from their own successes and mistakes. Rejecting the "quick fix" solutions of punishment and reward, she uses everyday family situationsfrom sibling rivalry to teenage rebellion to demonstrate sound strategies for giving children the inner discipline and self-confidence that will help them grow into responsible, resourceful, and resilient adults. Discover: • Three basic tenets to a good parent/child relationship • Why discipline is not learned through threats and bribes • Why teaching a child how to think instead of what to think builds self-confidence • The good news about the strong-willed child • Three alternatives to always saying "No" • How to buffer your children from the dangers of sexual promiscuity, drug abuse, and other self-destructive behavior • Using mealtime, bedtime, toilet-training, chores, allowance, and sibling rivalry as opportunities to help children develop their own sense of inner discipline

Historia Novella-Guillaume de Malmesbury 1998 The Historia Novella is a key source for the succession dispute between King Stephen and the Empress Matilda which brought England to civil war in the twelfth century. William of Malmesbury was the doyen of the historians of his day. His account of the main events of the years 1126 to 1142, to some of which he was an eyewitness, is sympathetic to the empress's cause, but not uncritical of her. Edmund King offers a complete revision of K. R. Potter's edition of 1955, retaining only the translation, which has been amended in places. Not only is this a new edition but it offers a new text, arguing that what have earlier been seen as William of Malmesbury's final revisions are not from hishand. Rather they seem to come from somewhere in the circle of Robert of Gloucester, the empress's half-brother, to whom the work is dedicated. In this way the work raises important questions concerning the transmission of medieval texts.
