Mainstreaming Islam in Indonesia-Inaya Rakhmani 2017-01-16 This cutting edge book considers the question of Islam and commercialisation in Indonesia, a majority Muslim, non-Arab country. Revealing the cultural heterogeneity behind rising Islamism in a democratizing society, it highlights the case of television production and the identity of its viewers. Drawing from detailed case studies from across islands in the diverse archipelagic country, it contends that commercial television has democratised the relationship between Islamic authority and the Muslim congregation, and investigates the responses of the heterogeneous middle class towards commercial da'wah. By taking the case of commercial television, the book argues that what is occurring in Indonesia is less related to Islamic ideologisation than it is a symbiosis between Muslim middle class anxieties and the workings of market forces. It examines the web of relationships that links Islamic expression, commercial television, and national imagination, arguing that the commercialisation of Islam through national television disposes unrequited expectations of equality between ethnic and religious groups as well as between regions.

Indonesian Cinema-Krishna Sen 1994 Indonesia's quasi-military dictatorship has sought since 1965 to mould Indonesian society into a male-oriented, capitalist, Javanes-dominated national framework. Cinema and television are the most closely-controlled mass media in Indonesia, and films for mass consumption have played an important role in the government's vast socio-political engineering project.Krishna Sen describes the background and present-day Indonesian film industry and explores how the country's society and history are represented in its film culture. From a critique of four films, she concludes that Indonesian cinema privileges the military against the civilian, the middle class against the popular classes, and men against women. Backed by careful documentation from cinema literature, this is a radical, in-depth perspective on film - its implications, its vulnerability to manipulation and its artistic and propagandist value.

Seduced by Fame-Isla Fisher 1995 Jade Silver wants to escape her unhappy home life and become an actress. Eventually, she gets a part in a soap opera, starring opposite her heart-throb, Daniel Hunter. This is the first novel from Isla Fisher, star of ITV's Home & Away

Women and Soap Opera-Christine Geraghty 1991-08-26 This is the first major study of the roles of women in prime time soap operas. In a comparative analysis of British and North American television soaps, Christine Geraghty examines the relationship between the narratives on the screen and the women viewers who make up the traditional soap audience. Within the structure of many of the most popular soaps, such as Dallas, Dynasty, Coronation Street and EastEnders, the split between public and personal life, reason and emotion, work and leisure is turned into a lynchpin of the plot. The author argues that these themes are also linked to broader social divisions between men and women, divisions which soap operas both question and develop as a source of pleasure. Geraghty analyses the critical role of women characters in the families and communities of soaps and suggests that the utopian possibilities of soaps can be used not just to maintain the status quo, but to promote change and influence attitudes and prejudices. She examines the way in which soaps have been transformed in the last decade, looking at how issues of class, race, sexual orientation and feminism have been handled in the programmes. She argues that in pursuing new audiences more recent soaps such as Brookside may have put at risk the pleasures they have traditionally offered their women viewers. Women and Soap Opera is a detailed, thoughtful and wide-ranging analysis which will become a central work in women's studies and media and cultural studies courses.

Ancient Miamians-William E. McGoun 2002 "Ancient Miamians places a prehistoric face on a Miami that too often is regarded as a modern postscript to Flagler's railroad. McGoun paints 10,000 years of human history onto a missing piece of Florida archaeology."--Robert S. Carr, director, Dade County Historic Preservation Division "Presents widely scattered archaeological information in a novel and very accessible way. The literary device of 'a day in the life' is especially useful in bringing life to the standard archaeological facts."--James J. Miller, state archaeologist and chief, Florida Bureau of Archaeological Research, Division of Historical Resources Focusing on the Native Americans the Spanish called Tequesta and their ancestors, Ancient Miamians covers the 10,000 years from 8,000 B.C. to A.D. 1761, painting a vivid word portrait of a resident from each of six eras as they make tools, obtain food, deal with their fellow humans, and seek harmony with the forces that govern their lives. From first light to evening firelight, McGoun presents for the non-specialist a series of narratives depicting a single day in each of the lives of six typical men and women who once lived on the land around present-day Biscayne Bay. This concise and readable tale of the remarkable predecessors of Miami-Dade's current 2 million residents is the first such treatment of Florida's pre-European and early historic native people. Without violating archaeological fact, McGoun includes the major cultural periods and significant archaeological sites in the region, all in terms of day-to-day life rendered in engaging narrative. The story begins with the first settlers, who moved down the Florida peninsula more than 10 millennia ago, pursuing large animals that are now mostly extinct. It draws to a close with the 250 years that saw the Tequesta themselves become extinct, beginning with a time when "the English and their friends just won't take 'Go away' for an answer, and they become such pests that finally even the Spaniards look good, or at least better." Bibliographic summaries allow readers to extend the scope of their exploration beyond this fictionalized reconstruction of prehistoric culture. William E. McGoun is a longtime journalist and anthropologist.
