Vietnam-Bill Hayton 2010-04-06 The eyes of the West have recently been trained on China and India, but Vietnam is rising fast among its Asian peers. A breathtaking period of social change has seen foreign investment bringing capitalism flooding into its nominally communist society, booming cities swallowing up smaller villages, and the lure of modern living tugging at the traditional networks of family and community. Yet beneath these sweeping developments lurks an authoritarian political system that complicates the nation's apparent renaissance. In this engaging work, experienced journalist Bill Hayton looks at the costs of change in Vietnam and questions whether this rising Asian power is really heading toward capitalism and democracy. Based on vivid eyewitness accounts and pertinent case studies, Hayton's book addresses a broad variety of issues in today's Vietnam, including important shifts in international relations, the growth of civil society, economic developments and challenges, and the nation's nascent democracy movement as well as its notorious internal security. His analysis of Vietnam's "police state," and its systematic mechanisms of social control, coercion, and surveillance, is fresh and particularly imperative when viewed alongside his portraits of urban and street life, cultural legacies, religion, the media, and the arts. With a firm sense of historical and cultural context, Hayton examines how these issues have emerged and where they will lead Vietnam in the next stage of its development.

Vietnam-Bill Hayton 2020-10-13 A much-needed behind-the-scenes survey of an emerging Asian power

The South China Sea-Bill Hayton 2014-10-28 China's rise has upset the global balance of power, and the first place to feel the strain is Beijing's back yard: the South China Sea. For decades tensions have smoldered in the region, but today the threat of a direct confrontation among superpowers grows ever more likely. This important book is the first to make clear sense of the South Sea disputes. Bill Hayton, a journalist with extensive experience in the region, examines the high stakes involved for rival nations that include Vietnam, India, Taiwan, the Philippines, and China, as well as the United States, Russia, and others. Hayton also lays out the daunting obstacles that stand in the way of peaceful resolution. Through lively stories of individuals who have shaped current conflicts—businessmen, scientists, shippers, archaeologists, soldiers, diplomats, and more—Hayton makes understandable the complex history and contemporary reality of the South China Sea. He underscores its crucial importance as the passageway for half the world's merchant shipping and one-third of its oil and gas. Whoever controls these waters controls the access between Europe, the Middle East, South Asia, and the Pacific. The author critiques various claims and positions (that China has historic claim to the Sea, for example), overturns conventional wisdoms (such as America's overblown fears of China's nationalism and military resurgence), and outlines what the future may hold for this clamorous region of international rivalry.

The Invention of China-Bill Hayton 2020-10-13 A provocative account showing that "China"--and its 5,000 years of unified history--is a national myth, created only a century ago with a political agenda that persists to this day

Politics in Contemporary Vietnam-J. London 2014-05-13 Vietnam's political development has entered an extraordinary, if indeterminate, phase. Comprising contributions from leading Vietnam scholars, this volume comprehensively explores the core aspects of Vietnam's politics, providing a cutting-edge analysis of politics in one of East Asia's least understood countries.

Descending Dragon, Rising Tiger-Vu Hong Lien 2014-11-15 Outside of its war with the United States, Vietnam's past has often been neglected and understudied. Whether as an aspiring subordinate or a rebel province, Vietnam has been viewed by most historians in relation to its larger neighbor to the north, China. Seeking to reshape these accounts, Descending Dragon, Rising Tiger chronicles the vast sweep of Vietnam's tumultuous history, from the Bronze Age to the present day, in order to lay out the first English-language account of the full story of the Vietnamese people. Drawing on archeological evidence that reveals the emergence of a culturally distinct human occupation of the region up to 10,000 years ago, Vu Hong Lien and Peter D. Sharrock show that these early societies had a sophisticated agricultural and technological culture much earlier than previously imagined. They explore the great variety of cultures that have existed in this territory, unshackling them from the confined histories of outsiders, imperial invaders, and occupiers in order to show that the country has been central to the cultural, political, and ethnic development of Southeast Asia for millennia. Unrivaled in scope, this comprehensive account will be the definitive history of the Vietnamese people, their culture, and their nation.

The Cave-Tim Krabbé 2003-05-16 A stunning psychological thriller about friship, drugs, and murder from the author of The Vanishing. Egon Wagter and Axel van de Graaf met when they were both fourteen and on vacation in Belgium.

Axel is fascinating, filled with an amoral energy by which the more prudent, less adventurous Egon is both mesmerized and repelled. Even as a teen, Axel has a strange power over those around him. He defies authority, seduces women, breaks the law. Axel chooses Egon as a friend, a friendship that somehow ures over time and ends up determining Egon's fate. During his university studies, Egon frequents Axel's house in Amsterdam, where there is a party every night and women fill the rooms. Though Egon chooses geology over Axel's life of avarice and drug dealing, he remains intrigued by his friend's conviction that the only law that counts is the law he makes himself. Egon believes that Axel is a demonic figure who tempts others only because he knows they want to be tempted. By the time he is in his forties, Egon finds himself divorced and with few professional prospects. He turns for help to Axel, who sends him to Ratanakiri, a fictional country in Southeast Asia. Axel gives Egon a suitcase to deliver-and Egon never returns. Utterly compelling and resonant, The Cave is an unforgettable story of betrayal in the spirit of Tim Krabbé's remarkable first novel, The Vanishing.

Mad about the Mekong-John Keay 2005 John Keay describes the world of the Mekong as it is today, rehabilitating a traumatised geography while recreating the thrilling and historic voyage of Garnier in 1866. The French expedition was intended to investigate the 'back door' into China by outflanking the British and American conduits of commerce at Hong Kong and Shanghai. The two-year expedition's failures and successes, and the tragedy and acrimony that marked it, make riveting reading.

Shadows and Wind-Robert Templer 1999 For many people, Vietnam remains a war not a country. This text explores the country behind the myths and images, looking at Vietnam's literature, history, art and architecture, politics, religion and food. The author shows the emerging popular culture and the Vietnamese at home and overseas.

The Penguin History of Modern Vietnam-Christopher Goscha 2016-06-30 The Vietnamese are in the unusual situation of being both colonizers themselves and the victims of colonization by others. Their country expanded, shrunk, split and sometimes disappeared, often under circumstances way beyond their control. Despite these often overwhelming pressures Vietnam has survived and is universally recognized as forming one of Asia's most striking and complex cultures. As more and more visitors come to this extraordinary country, there has been for some years a need for a major history - a book which allows the outsider to understand the many complex layers left by earlier emperors, rebels, priests and colonizers. Vietnam's role in one of the Cold War's longest conflicts has meant that its past has been endlessly abused for propaganda purposes and it is perhaps only now that the events which created the modern state can be seen through a truly historical perspective. Christopher Goscha is a leading expert on Vietnam, and this book draws on the latest research and discoveries in Vietnamese, French and English. It is a major achievement, describing both the grand narrative of Vietnam's story but also many of the remarkable byways and what ifs, and is particularly strong on the countless minority groups who have done so much over the centuries to define the many versions of Vietnam. The Shadow of Arms-Hwang Sok-Yong 2014-03-04 A novel of the black markets of the South Vietnamese city of Da Nang during the Vietnam War, based on the author's experiences as a self-described South Korean mercenary on the side of the South Vietnamese, this is a Vietnam War novel like no other, truly one that sees the war from all sides. Scenes of battle are breathtakingly well told. The plot is thick with intrigue and complex subplots. But ultimately The Shadow of Arms is a novel of the human condition rather than of the exploits and losses of one side or the other in war. From the Trade Paperback edition.

Maggie, Hu'ng, and Tu' come together during a highly charged season that will mark them forever. Naked in Da Nang-Mike Jackson 2010-11-10 FACs (forward air controllers) in Vietnam flew low and slow, searching for signs of an elusive enemy. Often they trolled themselves as bait for the NVA troops to try to shoot down. When a friendly unit made contact, having a FAC overhead made their day because the FACs controlled the bomb-, rocket-, and napalm-laden fast movers, fighter jets and attack aircraft whose ordnance often made the difference between life and death. They were regarded by many of their airforce and naval aviator brethren as insane, suicidal, or both. In addition to the perils of enemy fire which ranged from lucky AK-47 shots to .51 caliber machine guns and SA-7 shoulder-fired surface-to-air missiles, you had to watch out to keep from being blown up in a B-52 Arc-Light strike or knocked down by friendly artillery. As the title suggests, however, Naked in Da Nang is not an angst ridden account of mortal combat. Following in the footsteps of Richard Hooker's classic M*A*S*H: A Novel About Three Army Doctors, author Jackson has a keen eye for the absurdities that abound in a combat zone. That the humor is often dark only serves to sharpen its comic edge.- These pilots were considered the "Guardian Angels" of the Vietnam ground soldier- Refers to the "unarmed" nature of FAC (Forward Air Controllers) aircraft- Low-tech aircraft that survived combat on pilot skills only

Vietnam-Christopher Goscha 2016-09-13 The definitive history of modern Vietnam and its diverse and divided past

In the Dragon's Shadow-Sebastian Strangio 2020-08-07 A timely look at the impact of China's booming emergence on the countries of Southeast Asia Today, Southeast Asia stands uniquely exposed to the waxing power of the new China. Three of its nations border China and five are directly impacted by its claims over the South China Sea. All dwell in the lengthening shadow of its influence: economic, political, military, and cultural. As China seeks to restore its former status as Asia's preeminent power, the countries of Southeast Asia face an increasingly stark choice: flourish within Beijing's orbit or languish outside of it. Meanwhile, as rival powers including the United States take concerted action to curb Chinese ambitions, the region has emerged as an arena of heated strategic competition. Drawing on more than a decade of on-the-ground experience, Sebastian Strangio explores the impacts of China's rise on Southeast Asia, the varied ways in which the countries of the region are responding, and what it might mean for the future balance of power in the Indo-Pacific.

Political Change in Southeast Asia-Jacques Bertrand 2013-07-11 Southeast Asia is a vast and complex region, comprising countries with remarkably diverse histories and cultures. Jacques Bertrand provides a fresh and highly original survey of politics and political change in this area of the world. Against the backdrop of rapid economic development and social transformation in several countries, he explores why some countries have adopted democratic institutions, while others have maintained stable authoritarian systems or accepted communist regimes. Bertrand presents a historically grounded account of capitalist countries and state-socialist countries, delving into the historical experience of individual countries, whilst simultaneously providing a comparative framework with which to draw parallels and foster a better understanding of the political and economic dynamics both within and between the countries. With powerful yet accessible analysis and detailed coverage, this book offers students and scholars a thorough and thought-provoking introduction to the political landscape of Southeast Asia.

Thirty Days with My Father-Christal Presley 2012-11-01 When Christal Presley's father was eighteen, he was drafted to Vietnam. Like many men of that era who returned home with post-traumatic stress disorder (PTSD), he was never the same. Christal's father spent much of her childhood locked in his room, gravitating between the deepest depression and unspeakable rage, unable to participate in holidays or birthdays. At a very young age, Christal learned to walk on eggshells, doing anything and everything not to provoke him, but this dance caused her to become a profoundly disturbed little girl. She acted out at school, engaged in self-mutilation, and couldn't make friends. At the age of eighteen, Christal left home and didn't look back. She barely spoke to her father for the next thirteen years. To any outsider, Christal appeared to be doing well: she earned a BA and a master's, got married, and traveled to India. But despite all these accomplishments, Christal still hadn't faced her biggest challenge—her relationship with her father. In 2009, something changed. Christal decided it was time to begin the healing process, and she extended an olive branch. She came up with what she called "The Thirty Day Project," a month's worth of conversations during which she would finally ask her father difficult questions about Vietnam. Thirty Days with My Father is a gritty yet heartwarming story of those thirty days of a daughter and father reconnecting in a way that will inspire us all to seek the truth, even from life's most difficult relationships. This beautifully realized memoir shares how one woman and her father discovered profound lessons about their own strength and will to survive, shedding an inspiring light on generational PTSD.

Kill Anything That Moves-Nick Turse 2013-01-15 Based on classified documents and first-person interviews, a controversial history of the Vietnam War argues that American acts of violence against millions of Vietnamese civilians were a pervasive and systematic part of the war and that soldiers were deliberately trained and ordered to conduct hate-based slaughter campaigns.

Vietnam, Now-David Lamb 2008-08-06 When he left war-ravaged Vietnam some thirty years ago, journalist David Lamb averred "I didn't care if I ever saw the wretched country again." But in 1997, he found himself living in Hanoi, in charge of the Los Angeles Times's first peacetime bureau and in the midst of a country on the move, as it progresses toward a free-market economy and divorces itself from the restrictive, isolationist policies established at the end of the war. This was a new country; in Vietnam, Now, David Lamb brings it—and us—forward from its dark, distant past. From the myriad personalities entwined in the dark, distant history of the war to those focused toward the future, Lamb reveals a rich and culturally diverse people as they share their memories of the country's past, and their hopes for a peacetime future. A portrait of a beautiful country and a remarkable, determined people, Vietnam, Now is a personal journey that will change the way we think of Vietnam, and perhaps the war as well.

Sisterhood of War-Kim Heikkila 2011 Fifteen Minnesota nurses spent a year caring for the casualties of a divisive war, only to come home and descend into isolated silence. To heal themselves, they banded together as veterans.

Tunnel Rat in Vietnam-Gordon L. Rottman 2012-02-20 In 1965, soon after the first US combat troops had arrived in Vietnam, it was realized that in some areas the Viet Cong had developed vast tunnel complexes in which to hide from the enemy. It was long known that such complexes existed, but it was not realized just how extensive they were in some areas, how important they were to the Viet Cong, and how difficult it was to detect and neutralize them. At first infantrymen volunteered to enter the tunnels armed with only pistols and flashlights - the 'tunnel runners' were born, known to the Australians as 'tunnel ferrets'. Starting as an ad hoc force of infantrymen, combat engineers and chemical troops, it was not long before units were 'formalized' as 'tunnel exploration personnel' and 4-6-man 'tunnel exploitation and denial teams' were created. They came to be known simply as 'tunnel rats' with the unofficial motto Non Gratum Anus Rodentum - 'Not Worth a Rat's Ass'. This title will be based on the personal accounts of those who served in this unique role and will describe the specialist training and equipment, not to mention the tactics and combat experiences, of those who fought an underground war against the Viet Cong in Vietnam.

The Sacred Willow-Mai Elliott 2017 "A finalist for the Pulitzer Prize, Duong Van Mai Elliott's The Sacred Willow illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family.

Beginning with her great-grandfather, who rose from rural poverty to become an influential landowner, and continuing to the present, Mai Elliott traces her family's journey through an era of tumultuous change. She tells us of childhood hours in her grandmother's silk shop, and of hiding while French troops torched her village, watching while blossoms torn by fire from the trees flutter "like hundreds of butterflies" overhead. She makes clear the agonizing choices that split Vietnamese families: her eldest sister left her staunchly anti-communist home to join the Viet Minh, and spent months sleeping in jungle camps with her infant son, fearing air raids by day and tigers by night. And she follows several family members through the last, desperate hours of the fall of Saigon—including one nephew who tried to escape by grabbing the skid of a departing American helicopter. Based on family papers, dozens of interviews, and a wealth of other research, this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times"--

The Quiet American-Graham Greene 2018-03-13 A "masterful . . . brilliantly constructed novel" of love and chaos in 1950s Vietnam (Zadie Smith, The Guardian). It's 1955 and British journalist Thomas Fowler has been in Vietnam for two years covering the insurgency against French colonial rule. But it's not just a political tangle that's kept him tethered to the country. There's also his lover, Phuong, a young Vietnamese woman who clings to Fowler for protection. Then comes Alden Pyle, an idealistic American working in service of the CIA. Devotedly, disastrously patriotic, he believes neither communism nor colonialism is what's best for Southeast Asia, but rather a "Third Force": American democracy by any means necessary. His ideas of conquest include Phuong, to whom he promises a sweet life in the states. But as Pyle's blind moral conviction wreaks havoc upon innocent lives, it's ultimately his romantic compulsions that will play

a role in his own undoing. Although criticized upon publication as anti-American, Graham Greene's "complex but compelling story of intrigue and counter-intrigue" would, in a few short years, prove prescient in its own condemnation of American interventionism (The New York Times).

River Of Time-Jon Swain 2010-05-25 Between 1970 and 1975 Jon Swain, the English journalist portrayed in David Puttnam's film, The Killing Fields, lived in the lands of the Mekong river. This is his account of those years, and the way in which the tumultuous events affected his perceptions of life and death as Europe never could. He also describes the beauty of the Mekong landscape - the villages along its banks, surrounded by mangoes, bananas and coconuts, and the exquisite women, the odours of opium, and the region's other face - that of violence and corruption.

Hun Sen's Cambodia-Sebastian Strangio 2014 A fascinating analysis of the recent history of the beautiful but troubled Southeast Asian nation of Cambodia To many in the West, the name Cambodia still conjures up indelible images of destruction and death, the legacy of the brutal Khmer Rouge regime and the terror it inflicted in its attempt to create a communist utopia in the 1970s. Sebastian Strangio, a journalist based in the capital city of Phnom Penh, now offers an eye-opening appraisal of modern-day Cambodia in the years following its emergence from bitter conflict and bloody upheaval. In the early 1990s, Cambodia became the focus of the UN's first great post-Cold War nation-building project, with billions in international aid rolling in to support the fledgling democracy. But since the UN-supervised elections in 1993, the nation has slipped steadily backward into neo-authoritarian rule under Prime Minister Hun Sen. Behind a mirage of democracy, ordinary people have few rights and corruption infuses virtually every facet of everyday life. In this lively and compelling study, the first of its kind, Strangio explores the present state of Cambodian society under Hun Sen's leadership, painting a vivid portrait of a nation struggling to reconcile the promise of peace and democracy with a violent and tumultuous past.

A Dragon Apparent-Norman Lewis 2003 Said to have inspired Greene's The Quiet American, A Dragon Apparent chronicles the charm and grandeur of the ancient native civilizations that survived until the devastation of the Vietnam War.

Butterfly's Sisters-Yoko Kawaguchi 2010-11-30

Vietnam Rising-William E. Ratliff 2008 Ratliff, one of the leading experts on the economics of Southeast Asian countries, examines the remarkable, pro-market, pro-entrepreneurial changes underway in Vietnam. Ratliff then reviews the cultural and historical experiences that provide the foundation for current pro-enterprise reforms, discusses the changes that followed "reunification" at the end of the Vietnam War, and the reforms that began twenty years ago. In the process, Vietnam Rising illuminates the hows and whys of entrepreneurial opportunities and the changes necessary to address the remaining traditional and institutional challenges for creating a truly open, market-based, entrepreneurial climate.

The Balkans: Nationalism, War, and the Great Powers, 1804-2012-Misha Glenny 2012-09-05 From the bestselling author of McMafia and DarkMarket comes this unique and lively history of Balkan geopolitics since the early nineteenth century which gives readers the essential historical background to more than one hundred years of events in this war-torn area. No other book covers the entire region, or offers such profound insights into the roots of Balkan violence, or explains so vividly the origins of modern Serbia, Croatia, Bosnia, Greece, Bulgaria, Romania, and Albania. Now updated to include the fall of Slobodan Milosevic, the capture of all indicted war criminals from the Yugoslav wars and each state's quest for legitimacy in the European Union, The Balkans explores the often catastrophic relationship between the Balkans and the Great Powers, raising some disturbing questions about Western intervention.

Dictators Without Borders-Alexander A. Cooley 2017-02-07 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak, corrupt, and politically unstable, the former Soviet republics of Kazakhstan, Kyrgyzstan, Tajikistan, and Uzbekistan are dismissed as isolated and irrelevant to the outside world. But are they? This hard-hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics, politics and security dynamics beyond its borders. Yet Central Asia's international activities are mostly hidden from view, with disturbing implications for world security. Based on years of research and involvement in the region, Alexander Cooley and John Heathershaw reveal how business networks, elite bank accounts, overseas courts, third-party brokers, and Western lawyers connect Central Asia's supposedly isolated leaders with global power centers. The authors also uncover widespread Western participation in money laundering, bribery, foreign lobbying by autocratic governments, and the exploiting of legal loopholes within Central Asia. Riveting and important, this book exposes the global connections of a troubled region that must no longer be ignored.

China's Asian Dream-Tom Miller 2017-02-01 "China", Napoleon once remarked, "is a sleeping lion. Let her sleep, for when she wakes she will shake the world." In 2014, President Xi Jinping triumphantly declared the lion had awakened. Under his leadership, China is pursuing a dream to restore its historical position as the dominant power in Asia. From the Mekong River Basin to the Central Asian steppe, China is flexing its economic muscles for strategic ends. By setting up new regional financial institutions, Beijing is challenging the post-World War II order established under the watchful eye of Washington. And by funding and building roads, railways, ports and power lines—a New Silk Road across Eurasia and through the South China Sea and Indian Ocean—China aims to draw its neighbours ever tighter into its embrace. Combining a geopolitical overview with on-the-ground reportage from a dozen countries, China's Asian Dream offers a fresh perspective on the rise of China' and asks: what does it mean for the future of Asia?

Enterprises, Localities, People, and Policy in the South China Sea-Jonathan Spangler 2017-11-16 This volume takes readers beneath the surface of the South China Sea by exploring critical but under-researched issues related to the maritime territorial disputes. It draws attention to the importance of private sector, civil society, and subnational actors' roles in the disputes and sheds light on key policy issues that are addressed less often in the literature. By going beyond mainstream analyses focused solely on issues of traditional security, resource economics, and international law, it offers a fresh and engaging look at the South China Sea disputes. The book is divided into five parts - historical foundations, enterprises, localities, people, and policy - and its chapters investigate historiography in the region, the global defense industry's role as beneficiary of the disputes, tourism as a territorial strategy, the roles of provinces and local governments, disaster management, confidence-building measures, environmental and science diplomacy, and other topics seldom discussed in other analyses of the South China Sea disputes. The book's diverse content and fresh perspectives make it an essential read not only for policymakers and those in the international relations community but also for all others interested in gaining a more well-rounded understanding of the many issues at stake in the South China Sea maritime territorial disputes.
