Cheap-Ellen Ruppel Shell 2009-07-02 A myth-shattering investigation of the true cost of America's passion for finding a better bargain From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt--and almost everywhere in between--America has been transformed by its relentless fixation on low price. This pervasive yet little-examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spotting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box profusion to expose the astronomically high cost of cheap.

WALK-Jacquie Gering 2016-12-06 Quilters love the look of textural, detailed stitching that adds to the beauty of the quilt top design. This stitching is actually the "quilting" in quilting, and many quilters feel that paying a professional for machine quilting is one of their only options. The walking foot is an accessory for sewing machines that's often used for machine quilting, but many quilters only use it to stitch around their designs. But the walking foot can do so much more, and author Jacquie Gering shows all of her tips, tricks and techniques to master all of the skills needed to quilt with a walking foot. This book covers the basics of using the walking foot, in addition to preparing the quilt, marking, managing large quilts, preventing puckers and keeping lines straight. Chapters will include a variety of types of walking-foot quilting, including channel quilting, matchstick quilting, and decorative stitch quilting. Quilters won't be limited to straight line quilting, either! They'll learn how to quilt spirals, simple curves, and marked curves like braids and clamshells

Antique Linens Quilt. . . and More-Cindy Losekamp 2003-01-01 This quilt has been the source of comments, compliments and inspiration. The Antique Linens quilt has elicited more comments than anything I've ever done. That is why I am so happy to finally be able to present it to you in book form. It is a long awaited project that I am excited and thrilled to be able to bring to you. In these pages, you will find explicit directions for cutting, stabilizing, embroidering, assembling and finishing one of the most beautiful quilts around today. Truly elegant in ivory satin and moiré decorator faille, the embroidery designs are sewn in the new Sulky 12 weight cotton thread. None of the designs were digitized to use this new heavyweight thread, but they sew beautifully with it. The designs were created for the standard 30 and 40 weight rayon and polyester embroidery thread that most people have in their thread library. When thinking about the quilt, I thought that by using the heavier threads, it would give the illusion of hand work embroidery floss. The result is a beautiful, padded appearance that truly does look like hand embroidery. The same is true for the Antique Linens quilt, the threads and the additional layers of batting gives the entire quilt a very three dimensional look that is beyond compare. And now, it is yours to create. When thinking about creating a book for a CD from Cactus Punch, I felt that I needed to give you a reason to purchase the book even if you never made the quilt. As a result of that thought process, I have given you a book full of ideas, projects, instructions, patterns and designs. In thinking along these lines, I asked Judi Jaksa of Dallas, Texas to recreate twelve more of the original embroideries that I designed with the decorative stitches so long ago. Of the twelve original designs that were digitized, you have a total of 99 designs to work with. With careful segmenting and stitch editing of the larger embroideries, I have been able to give you multiple options for the creation of many more exciting blocks. On the CD, you will find a complete set of patterns for each quilt block, along with pictures of the stitched block. The directions are for using the Antique Linens #62 Cactus Punch CD. Each block has a placement guide for perfect hooping...All you need to do is to print them out. You will need Adobe Acrobat or Adobe Reader on your computer to be able to print the patterns since they are in PDF format. There are lots of designs on the CD, but the quilt was put together using the Cactus Punch CD and to duplicate it exactly, you will need to purchase that CD. You can certainly create your own quilt using the designs that come with this book. I have gotten you started with one gorgeous block. But that's not all...along with the many extra designs, there are sixteen projects that are designed for easy gifts and a way to showcase the included embroideries and the ones from the Cactus Punch #62 CD. There are pillows, vests, purses and cases, wall hangings, greeting cards and many more, just waiting for you to create these gifts of love for someone special...You may even have to make some for yourself. I know you will enjoy using this innovative book and CD.
